

Intersection Improvements at Route 177 and Roberts Road/Tickle Road Design Public Hearing

What is happening?

This design public hearing will present the proposed preliminary design for this project in Westport, MA. Comments will be accepted during and following the hearing.

How will this affect you?

The proposed project would construct a roundabout at the intersection to increase safety. In addition, an 8-foot-wide bi-directional shared use path with a 5-foot-wide grass buffer has been proposed on the north side of Route 177 within the project limits for pedestrian and bicycle accommodation.
