

# Design Public Hearing for the Bridge Replacement on Tewksbury Street

## What is happening?

MassDOT is conducting a Design Public Hearing to provide the public with the opportunity to become fully acquainted with the proposed bridge replacement on Tewksbury Street over the CSX railroad. During the hearing, we will discuss the preliminary design of the project that includes replacing the bridge with a wider bridge that has shoulders on both sides and one sidewalk. The project will also move the sidewalk to the opposite side of Tewksbury Street and extend it from the intersection of Tewksbury Street and Old Tewksbury Street to the intersection of Tewksbury Street with Yardley Road and Pinecone Lane.

## How will this affect you?

Currently the traffic on the bridge is reduced to one lane. This project will replace the bridge to meet today's standards and open Tewksbury Street back to two lanes of travel. To improve public safety, this project will install pedestrian access ramps, upgrade the guardrail, bridge curbing, bridge barriers, and improve the sight distance over the bridge.
