

# Arlington Safe Routes To School Virtual Design Public Hearing

### What is happening?

The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed Stratton School Improvements (Safe Routes To School) project. All views and comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

## How will this affect you?

The existing sidewalks along Hemlock Street, Dickson Avenue, and Mountain Avenue are not completely connected and in need of widening, curb ramps are not compliant with the Americans with Disabilities Act, and crosswalks are missing. There are no bicycle accommodations. This project will address these conditions, improving safety, accessibility, and mobility.
