

Bridge Replacement, B-02-004, Old Coldbrook Road over the Prince River, Barre, MA

Design Public Hearing

What is happening?

The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed Replacement of Bridge, B-02-004, Old Coldbrook Road over the Prince River. Public comments and concerns are being solicited and will be reviewed and considered to the maximum extent possible.

How will this affect you?

The purpose of the project is to maintain vehicular access along Old Coldbrook Road. The project need is to address a structurally deficient bridge with substandard bridge and approach rail. The project limits extend approximately 150 feet in either direction from the ends of the current bridge. Bicycle and pedestrian facilities do not exist within this area; however, accommodations are currently being considered in the design. Options are also being investigated on routes that may be necessary for a detour during construction.
