

In-Person Design Public Hearing Vinal Square Safety Improvements Chelmsford, MA

What is happening?

The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed Chelmsford- Vinal Square Safety Improvements project. All comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

The purpose of this project is to improve safety and operations of the intersections, and to bring the intersection into conformity with modern design standards and enhance the safety and mobility for all users. This project will include improvements to all infrastructure within Vinal Square. All sidewalks will be reconstructed to be ADA compliant with curb bump-outs at crossing locations and any other areas where space allows. Bicycle accommodation has been provided in accordance with applicable design guides. Intersection geometry will be improved by removing the channelized right turn from Middlesex St to Route 3A. Signal improvements will be proposed for the Route 3A/Groton Rd intersection to better address operations, which also include Dunstable Road and Wotton Street.
