Virtual Design Public Hearing Intersection Improvements at Montgomery Street, Granby Road and McKinstry Avenue

What is happening?

The purpose of this Design Public Hearing is to provide the public with the opportunity to become fully acquainted with the Intersection Improvements Project at Montgomery Street, Granby Street, and McKinstry Avenue in Chicopee, MA. All views and comments made at the hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

The project area experiences undue delays during the morning and afternoon peak hours and is a significant traffic generator given its proximity to I-90. Heavy traffic flows result in congested conditions and higher crash rates. The proposed project will look to reconfigure the intersection of the I-90 ramps with Montgomery Street, construct roundabouts to replace signalized intersections, and improve pedestrian and bicycle connectivity.
