

# Dighton Bridge Replacement, D-08-002 (3L9), Pleasant Street Over Muddy Cove Virtual Design Public Hearing

## What is happening?

The purpose of this Virtual Design Public Hearing is to provide the public with the opportunity to become fully acquainted with the proposed Bridge Replacement, D-08-002 (3L9), Pleasant Street Over Muddy Cove project. All views and comments made at the hearing will be reviewed and considered to the maximum extent possible.

## How will this affect you?

The project will provide a new bridge with a 31-foot-wide roadway, consisting of two 11-foot travel lanes with a 2-foot shoulder on eastern side and a 7-foot shoulder on the western side. The proposed roadway alignment will be maintained. A 6-foot-wide sidewalk will be included on the eastern side with a pedestrian curb ramp at its beginning and end. The sidewalk will begin with a pedestrian crossing to connect Muddy Cove Lane to the east sidewalk. Full depth reconstruction will be provided for the approach roadways for approximately 100 feet from the north of the proposed bridge and 150 feet from the south of the proposed bridge along both approaches.

## When

Tuesday, August 12, 2025  
6:00PM

## Attend
