

Design Public Hearing

Mountain View School Improvements Safe Route to School on Park Street Easthampton, MA

What is happening?

MassDOT is holding a Design Public Hearing to present the design of a Safe Route To School (SRTS) shared-use path along the east side of Park Street in Easthampton, MA. All views and comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

The proposed project consists of a shared-use path that will create a safer, more comfortable route, for the students expected to access the new school by walking or biking. The project will provide pedestrian and bicyclists' safety and accessibility along the east side of Park Street. The improvements include upgrading existing pedestrian ramps at intersecting streets, addition of crosswalk on Park Street at Friel Circle and Garfield Avenue to safely access the west side of Park Street, installation of a rectangular rapid flashing beacon, and high visibility city standard continental style crosswalks at the locations with pedestrian crossings.
