

# Virtual Design Public Hearing for the Water Street Bridges in Fitchburg

## What is happening?

The purpose of this Design Public Hearing is to provide the public with the opportunity to become fully acquainted with the proposed roadway improvements along Water Street, the replacement of the Water Street Bridge over the Pan-Am Railroad and Boulder Drive, and the reconstruction of the Water Street Bridge over the North Nashua River in Fitchburg.

## How will this affect you?

While safe for travel, the bridges within the project area are deficient and in need of replacement and rehabilitation. In addition, the roadway configuration does not provide adequate access for all users. The project will improve sidewalks, add crosswalks, and create a shared use path on the east side of the Water Street Bridge over Pan-Am Railroad and Boulder Drive.
