

Harwich Elementary Safe Routes To School Design Public Hearing

What is happening?

A Design Public Hearing will be held in support of the Harwich Elementary School Improvements Safe Routes To School Project. This Project will construct a sidewalk or shared-use path along segments of South Street, Main Street, and Sisson Road ranging from five (5) to eight (8) feet in width, depending on location.

How will this affect you?

The construction of the path will improve safety, mobility, and accessibility to and from the school for students who walk or bike. Active transportation will become safer and more inviting.
