

HOLDEN- BRIDGE REPLACEMENT, H-18-004, SALISBURY STREET OVER G&W RAILROAD.

Virtual Design Public Hearing

What is happening?

The Massachusetts Department of Transportation (MassDOT) is pleased to provide an update on the Holden Salisbury Street Bridge replacement project. The virtual event will provide an update to allow attendees to ask questions about the selected bridge type. The meeting will consist of a formal presentation as well as a question-and-answer period. All views and comments will be reviewed and considered to the maximum extent possible.

How will this affect you?

The project area encompasses approximately 812 feet of Salisbury Street in Holden, MA, between Pine Tree Road at its southern terminus and Main Street (Route 122A) at its northern terminus. The proposed project includes the replacement of H-18-004, Salisbury Street over G&W Railroad. A traffic detour will be implemented to demolish and install the new bridge. This is an opportunity in the preliminary design process (25% design) for the public to learn about and comment on the selected bridge type and detour. For those unable to attend the virtual meeting the public information meeting will be recorded. The video will be posted to the study website at www.mass.gov/orgs/highway-division/events after the event.

When

[February 20, 2025]
[6:00 P.M.]
