

# Virtual Design Public Hearing - Intersection Improvements at Route 3 Ramps (NB/SB) and Route 3A

## What is happening?

A virtual public hearing will be hosted by MassDOT regarding the intersection improvements project at Route 3 Ramps and Route 3A (Tremont Street). The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed project. All views and comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

## How will this affect you?

The proposed project consists of the installation of two roundabouts at the intersections of Tremont Street with the Route 3 Northbound and Southbound ramps. The project was initiated to improve safety and operations at these intersections. The existing stop-controlled intersections experience traffic delays and a high volume of crashes. There are also currently no existing bike or pedestrian facilities, which the project aims to address.
