

Virtual Design Public Hearing – Bridge Replacement Project in Monson/Palmer

What is happening?

We invite you to participate in a virtual design public hearing to discuss the upcoming bridge replacement project over the river that connects Bridge Street in Palmer to State Avenue in Monson.

What to Expect:

Overview of the project details, including the new bridge design and features.

Opportunities for public feedback and questions

Insights into the project timeline and next steps

How will this affect you?

The project will have temporary impacts on the motoring public as well as pedestrians and bicyclists during construction. The new bridge will be wider, maintaining standard travel lane widths, adding shoulders, and increasing the sidewalk width on the southern side. Roadway approaches will be adjusted with new pavement and striping to fit the new bridge alignment.
