

Route 24 Over Canton St. Bridge Replacement Virtual Design Public Hearing

What is happening?

A live Virtual Design Public Hearing will be hosted on the MassDOT website below to present the design for the proposed Route 24 Over Canton Street Bridge replacement project in Randolph, MA.

How will this affect you?

MassDOT proposes to replace the superstructures of two single-span bridges carrying Route 24 over Canton Street using accelerated bridge techniques in order to limit major roadway impacts to two weekend closures. The proposed bridges will match the footprint of the existing bridges and maintain existing clearance. Existing sidewalks and striped shoulders on both sides of Canton Street underneath the bridges will remain. The project proposes new safety barriers and deck drains on the bridge, as well as repairs to the concrete abutments. During the design public hearing, MassDOT will review the construction activities, schedule, and community impacts. Attendees will have the opportunity to ask questions and offer comments during the meeting.
