

Webster Avenue over MBTA Bridge Replacement Design Public Hearing

What is happening?

The purpose of this Design Public Hearing is to provide the public with the opportunity to become fully acquainted with the Webster Avenue Replacement Project in Somerville, MA. All views and comments made at the hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

As a critical transportation link into Union Square, approximately 6,400 vehicles, pedestrians and bicyclists cross the bridge daily. Built in 1911, the current Webster Avenue Bridge is structurally deficient and requires replacement. A new bridge with updated safety features is needed to improve mobility for residents, businesses, and visitors.
