

Plain Street Bridge Preservation – Design Public Hearing

What is happening?

MassDOT and the City of Taunton are holding a virtual Design Public Hearing on the preservation of the Plain Street bridge over the Taunton River in Taunton, MA. Attendees will have the opportunity to ask questions and offer comments after the presentation, and all comments made will become part of the official hearing record.

How will this affect you?

The Plain Street bridge is showing wear, including worn railings, deteriorated sidewalk surfaces, and debris buildup. This project will repair and repaint the railings and steel structure and clear away debris, while keeping at least one lane of traffic open throughout construction.
