

DESIGN PUBLIC HEARING

Main Street (Route 1A) Roadway & Intersection Improvements, Wenham, MA

What is happening?

A Live Virtual Design Public Hearing will be hosted on the MassDOT website below to present the design for the Main Street (Route 1A) Roadway & Intersection Improvements, from Fairview Avenue up to and including the Arbor Street intersection in Wenham, MA.

How will this affect you?

The proposed improvements consists of reconstructing Main Street by means of milling and overlay, minor and major box widening and partial full-depth reconstruction. Existing sidewalks will be reconstructed, and new sidewalks will be constructed where none currently exist. A five-foot (5'-0") designated bicycle lane will be provided on both sides of the road. New roadway pavement markings include designated turn lanes at all intersections. Fully-actuated, interconnected traffic signals will be installed at the Cherry Street and Arbor Street intersections. The project includes all new traffic signs.
