

# DESIGN PUBLIC HEARING

## Rehabilitation of Haydenville Road

### Whately, MA

#### What is happening?

A Live Virtual Design Public Hearing will be hosted on the MassDOT website below to present the design for the Rehabilitation of Haydenville Road project in Whately, MA.

#### How will this affect you?

The proposed project consists of reclaiming the existing paved surface, box widening with a hot mix asphalt binder course and paving with a hot mix asphalt modified top surface course. Work will include new drainage systems and improve storm water quality near the Northampton Reservoir, new pavement markings and guardrail repair and replacement, and slope work. The project limits for Haydenville Road are from the bridge structure located approximately 150 feet south of the Conway Road intersection to the Williamsburg Town Line for a total project length of 1.5 miles. The roadway typical section will consist of 10-foot travel lanes with 4-foot uniform shoulders to calm traffic and improve usable space and accommodations for pedestrians and bicyclists.

#### When

Wednesday, January 12  
6:00PM

#### Attend

**Please note this meeting will be recorded.**
