

## LIVE VIRTUAL DESIGN PUBLIC HEARING

### Intersection Improvements at Blair Square: Front Street, Central Street and Spring Street and Routes 12 and 202, Winchendon, MA

#### What is happening

The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed project. All views and comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

#### How will this affect you?

The proposed intersection improvements consist of 11-foot travel lanes, delineated turn lanes, and a 5-foot sidewalk adjacent to a 5.5-foot unidirectional bicycle lane. A 4-foot buffer is proposed on both sides of Front Street (Route 12/202) throughout most of the project limits. The project includes pavement resurfacing within the limits of work. It also includes the installation of Rapid Rectangular Flashing Beacons (RRFBs) at midblock crosswalks; as well as construction of ADA/AAB accessible compliant pedestrian curb ramps at these crossings. Pedestrian facilities are proposed on both sides of Front Street and Central Street and the north side of Spring Street.
