

VIRTUAL DESIGN PUBLIC HEARING

THURSDAY, JUNE 8, 2023

FOR THE PROPOSED

ROUTE 6 CORRIDOR IMPROVEMENTS PROJECT

PROJECT NO. 606082

IN THE TOWN OF BOURNE, MASSACHUSETTS

**COMMONWEALTH OF MASSACHUSETTS
MASSACHUSETTS DEPARTMENT OF TRANSPORTATION
HIGHWAY DIVISION**

**JONATHAN GULLIVER
HIGHWAY ADMINISTRATOR**

**CARRIE E. LAVALLEE, P.E.
CHIEF ENGINEER**

**THE COMMONWEALTH OF MASSACHUSETTS
MASSACHUSETTS DEPARTMENT OF TRANSPORTATION – HIGHWAY DIVISION
NOTICE OF A DESIGN PUBLIC HEARING
Project File No.606082**

A Live Virtual Design Public Hearing will be hosted on the MassDOT website below to present the design for the proposed Route 6 Corridor Improvements project in **Bourne, MA**.

WHEN: 7:00PM, Thursday, June 8, 2023

PURPOSE: The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed Route 6 Corridor Improvements project. All views and comments submitted in response to the hearing will be reviewed and considered to the maximum extent possible.

PROPOSAL: The proposed project consists of Route 6 (Scenic Highway) between Edgehill Road and Nightingale Road. The widened roadway will include the addition of a raised center median between eastbound and westbound traffic, improvements to lane and shoulders widths and cross slope improvements on curves on the roadway. Drainage improvements for treatment and catchment include a new swale along the westbound shoulder and new underground drainage. The project will incorporate a 10 foot wide shared use path between both intersections that will be physically separated from roadway traffic.

A secure right-of-way is necessary for this project. Acquisitions in fee and permanent or temporary easements may be required. The Commonwealth of Massachusetts is responsible for acquiring all needed rights in private or public lands. MassDOT's policy concerning land acquisitions will be presented in the hearing.

Project inquiries, written statements and other exhibits regarding the proposed undertaking may be submitted to Carrie E. Lavallee, P.E., Chief Engineer, via e-mail to MassDOTProjectManagement@dot.state.ma.us or via US Mail to Suite 7550, 10 Park Plaza, Boston, MA 02116, Attention: Project Management, Project File No. 606082. Statements and exhibits intended for inclusion in the hearing transcript must be emailed or postmarked no later than ten (10) business days (14 calendar days) after the hearing is hosted.

This hearing is accessible to people with disabilities. MassDOT provides reasonable accommodations and/or language assistance free of charge upon request (e.g interpreters in American Sign Language and languages other than English, live captioning, videos, assistive listening devices and alternate material formats), as available. For accommodation or language assistance, please contact MassDOT's Chief Diversity and Civil Rights Officer by phone (857-368-8580), TTD/TTY at (857) 266-0603, fax (857) 368-0602 or by email (MassDOT.CivilRights@dot.state.ma.us). Requests should be made as soon as possible and prior to the hearing, and for more difficult to arrange services including sign-language, CART or language translation or interpretation, requests should be made at least ten business days before the hearing.

This hearing will be hosted, or a cancellation announcement posted, on the internet at <https://www.mass.gov/orgs/highway-division/events>.

JONATHAN GULLIVER
HIGHWAY ADMINISTRATOR

CARRIE E. LAVALLEE, P.E.
CHIEF ENGINEER

Dear Concerned Citizen:

The Massachusetts Department of Transportation (MassDOT) is committed to building and maintaining a transportation infrastructure that is both safe and efficient for all who use our roadways, bridges, bicycle facilities and pedestrian paths, while maintaining the integrity of the environment.

As part of the design process for this project, we are conducting this public hearing to explain the proposed improvements, listen to your comments and answer any questions you may have. At the conclusion of the hearing, MassDOT will review all of your comments and, where feasible, incorporate them into the design of the project.

We recognize that road and bridge construction can create inconveniences for the public. MassDOT places a great deal of emphasis on minimizing the temporary disruptive effects of construction.

MassDOT encourages input from local communities and values your opinions. Please be assured that we will undertake no project without addressing the concerns of the community.

Sincerely,

Carrie E. Lavalley, P.E.
Chief Engineer

WHAT IS A PUBLIC HEARING?

WHY A PUBLIC HEARING?

To provide an assured method whereby the Commonwealth of Massachusetts can furnish to the public information concerning the State's highway construction proposals, and to afford every interested resident of the area an opportunity to be heard on any proposed project. At the same time, the hearings afford the Commonwealth an additional opportunity to receive information from local sources which would be of value to the State in making its final decisions to what design should be advanced for development.

WHY NOT A VOTE ON HIGHWAY PLANS?

The hearings are not intended to be a popular referendum for the purpose of determining the nature of a proposed improvement by a majority of those present. They do not relieve the duly constituted officials of a State highway department of the necessity for making decisions in State highway matters for which they are charged with full responsibility.

WHAT DOES A PUBLIC HEARING ACCOMPLISH?

It is designed to ensure the opportunity for, or the availability of, a forum to provide factual information which is pertinent to the determination of the final alternative considered by the state to best serve the public interest, and on which improvement projects are proposed to be undertaken.

It is important that the people of the area express their views in regard to the proposal being presented, so that views can be properly recorded in the minutes of the meeting. These minutes will be carefully studied and taken into consideration in the determination of the final design.

RIGHT OF WAY CONCERNS

The State is responsible for securing the Right of Way for this project. If your property, or a portion of it, must be acquired by the State for highway purposes in the interest of all people of the Commonwealth, your rights are fully protected under the law. Briefly, here are some of the answers to questions you might ask.

1. WHO CONTACTS ME?

Representatives of the Right of Way Bureau of the Massachusetts Department of Transportation's Highway Division. They will explain the impacts and your rights as protected under Massachusetts General Laws Chapter 79.

2. WHAT IS A FAIR PRICE FOR MY PROPERTY?

Every offer is made to ensure that an equitable value is awarded to you for the property, or to appraise the "damage" to the property as a result of the acquisition. MassDOT appraisers, independent appraisers, MassDOT "Review Appraisers" and a Real Estate Appraisal Review Board may all contribute in arriving at an award of damages. The State also pays a proportionate part of the real estate tax for the current year for fee takings, and interest from the date the property is acquired to the payment date, on all impacts.

3. MUST I ACCEPT THE DEPARTMENT'S OFFER?

No. If, after the figure established as market value has been offered to the owner, the owner feels he or she is not being offered a fair price, he or she has the right, within three years, to appeal to the courts. Pending a court decision, he or she can be paid on a "pro-tanto" basis (or "for the time being") that in no way prejudices the court appeal.

4. WHAT WILL HAPPEN TO MY HOUSE?

The owner will have the opportunity to buy back his or her house, provided he or she has a location to which it can be moved, and the proper permits for its removal. If the owner does not wish to repurchase, the house will be advertised for bids. The highest bidder, who must also have a location and permits for removal, will be awarded the house. Otherwise, the structure will be slated for demolition.

5. WHAT HAPPENS IF I MUST RELOCATE?

In addition to the market value of the property, the Department pays certain relocation benefits for both owners and tenants of acquired residences and businesses who meet eligibility requirements. Assistance in relocation is also provided. Department brochures are available for details on these benefits.

MA ROUTE 25

EDGEHILL ROAD

MA ROUTE 28

NIGHTINGALE ROAD

BOURNE BRIDGE

US ROUTE 6 (SCENIC HIGHWAY)

CAPE COD CANAL

Project Description

The Massachusetts Department of Transportation – Highway Division (MassDOT) is proposing the reconstruction of approximately 7,900 feet (1.5 miles) of Route 6 (Scenic Highway) from Nightingale Road to Edgehill Road in Bourne, MA. The project includes roadway reconstruction, cement concrete median installation, sidewalk and shared use path construction, bicycle lanes, and drainage and utility relocations. Intersection improvements, including additional crosswalks across all three legs are proposed at the Route 6 / Edgehill Road intersection.

Proposed Improvements

The project includes roadway reconstruction and widening, geometric improvements, traffic signals, and safety improvements, and inclusion of pedestrian and bicycle accommodations. It also includes a 10-foot shared-use path on the canal side of Route 6 (Scenic Highway) that will connect users from Edgehill Road and Nightingale Road with the canal service path. Other enhancements include new water quality swales on the westbound side of Route 6, retaining walls, cement concrete sidewalks, sign and pavement marking improvements, and intersection upgrades at Edgehill Road.

Existing Conditions

The proposed project is located entirely within the Town of Bourne, MA. The general footprint of Route 6 (Scenic Highway) is being utilized throughout the project. Route 6 is functionally classified as an Urban Principal Arterial.

Right of Way Impacts

There are few properties that require permanent acquisitions or easements by MassDOT for roadway widening, utility pole and overhead wire relocations, and underground utility ductbanks. Temporary construction easements will be required to complete the roadway and shared-use path grading, driveway reconstruction, slope excavation, overhead wire service connections and tree trimming, erosion controls, and loam and seeding. MassDOT's policy regarding land acquisitions will be discussed at this hearing.

Maintenance of Traffic During Construction

The intent of this project is that all streets will remain open to through traffic during construction. It is anticipated that a short term, off-peak travel lane closure will be required. Driveway access for abutting properties shall be maintained at all times during construction.

Project Status – Project Schedule

The project has been programmed in the Statewide Transportation Improvement Program for Federal Fiscal Year 2024. The Plans presented this evening are at the 25% Design Stage (Preliminary Design Stage). Comments from this evening will be reviewed and considered to the maximum extent possible.

Project Construction Cost

The project construction costs will be funded with a combination of moneys from the Federal Highway Administration and the Commonwealth of Massachusetts and is currently estimated at approximately \$25 million.
