

Bowker Overpass Bridge Superstructure Replacement and Widening Public Information Meeting

What is happening?

The Massachusetts Department of Transportation is hosting a virtual public information meeting to discuss the construction process and local impacts of the bridge superstructure replacement and widening. All residents, local business owners, and interested commuters are invited to attend. Meeting attendees will have the opportunity to ask questions and offer comments.

How will this affect you?

Construction is expected to begin in the summer of 2025 and will last approximately four years, completing in 2029. The contractor will use staged construction to minimize travel impacts and maintain travel over the bridge throughout construction. One sidewalk will be kept open with signage for pedestrian navigation.

When

September 10, 2025
6:00 p.m.

Attend
