

Public Information Meeting – Duxbury, Intersection Improvements at Route 53 and Franklin Street

What is happening?

Improvements are planned for the intersection at Route 53 and Franklin St in Duxbury, MA. The purpose of this meeting is to provide the public with the opportunity to become fully acquainted with the proposed project. All views and comments submitted in response to the meeting will be reviewed and considered to the maximum extent possible.

How will this affect you?

The proposed project involves safety and geometric improvements at the unsignalized intersections of Summer Street (Route 53) with Franklin Street and High Street in the Town of Duxbury. The project will introduce a single-lane modern roundabout to enhance traffic operations and reduce crash risk at this high-crash location. The proposed roundabout design will mitigate speeding, improve sight distances at both Franklin Street and High Street, and address existing geometric deficiencies. Other improvements include the realignment of High Street at the intersection with Route 53 and the replacement of existing guardrail. Pedestrian and bike accommodations will be included in the form of a 10-foot shared-use-path around the proposed roundabout and along the southbound lane of Route 53 in the project area as required by MassDOT Healthy Transportation Policy.

When

Tuesday, March 24, 2026
6:00PM
