

Greenfield - I-91 over Route 2 Rotary Bridge Preservation Public Information Meeting

What is Happening?

MassDOT is hosting a virtual Public Information Meeting to provide the public details about the Greenfield – I-91 over Route 2 Rotary Bridge Preservation Project (MassDOT Project #612508). The purpose of this project is to replace four bridge decks on Bridge No.'s G-12-059 and G-12-060. The existing bridges, constructed in 1965 (G-12-059) and 1966 (G-12-060), are exhibiting areas of steel beam deterioration. Deck replacements will be constructed to extend the service life of these bridges.

How Will This Affect You?

Construction is anticipated to last from 2029 to 2032. No construction activities will be scheduled during the late fall and winter season (Nov 1 – Mar 15). All views and comments submitted in response to this meeting will be reviewed and considered to the extent possible.

When

Wednesday, October 28, 2026
6:00 PM

**Register to Attend / Post Meeting
