

Virtual Design Public Hearing Newton – Bridge Replacement on Boylston Street over Green Line D

What is happening?

The purpose of this meeting is to provide the public with the opportunity to become fully acquainted with the proposed Bridge Replacement of the bridge on Boylston Street over Green Line D project. All views and comments submitted in response to the meeting will be reviewed and considered to the maximum extent possible.

How will this affect you?

The proposed project consists of replacing the bridge on Boylston Street over the Green Line D. The preliminary design indicates that the overall bridge width will remain approximately the same as the existing bridge. Pedestrian accommodations of 8 feet sidewalks are provided in each direction of travel. The project will relocate the existing utilities located on the sidewalks of the existing bridge to provide more space for pedestrians.
