

PUBLIC INFORMATION MEETING

IMMEDIATE SAFETY IMPROVEMENTS AT INTERCHANGE 127 (NEWTON CORNER)

NEWTON, MA

What is happening?

A Live Virtual Public Information Meeting will be hosted on the MassDOT website below to provide the public the work schedule, anticipated impacts, and how to most efficiently use the new configuration of the intersection.

How will this affect you?

MassDOT is implementing various immediate safety improvements to the I-90EB off-ramp and Washington Street/Central Street area in Newton. These immediate improvements will lead to a safer intersection by preventing dangerous weaves and will eliminate the backup down the ramp onto I-90EB.
