

# Norwell-Pembroke-Marshfield Rte. 3 NB and SB Bridge Replacements

## What is happening?

MassDOT will host a live, virtual design public hearing to provide community members with an opportunity to become fully acquainted with the proposed replacement of the Northbound and Southbound bridges along Rte. 3 over the North river in Norwell, Pembroke and Marshfield. The existing bridges remain safe for all users but are reaching the end of their useful lifespans and must be replaced.

## How will this affect you?

The proposed project includes the full replacement of the two bridges and provide the associated roadway improvements. The proposed SB bridge will be located in the existing median; the proposed NB bridge will be in the same location as the existing NB bridge. Multiple traffic shifts on Rte. 3 (NB/SB) will be required to complete the bridge construction and avoid lane closures. MassDOT encourages all interested members of the community to attend and learn more about this project.
