

Public Information Meeting (Virtual) – Somerville – Cambridge – McGrath Boulevard

What is happening?

This is an informational meeting for the design team to share design updates regarding this important transportation project and to invite public input. The proposed project consists of the reconstruction of McGrath Highway (Route 28) between Broadway in Somerville and Rufo Rd & 3rd St in Cambridge. The current design proposes to remove the McCarthy Overpass and replace it with a tree-lined boulevard with at-grade signalized intersections. The project includes the provision, expansion, and enhancement of pedestrian, bicycle, and transit facilities.

How will this affect you?

The project focuses on improving community connectivity between different neighborhoods and accommodation for all roadway users. The project also includes safety improvements, increased green space, physical separation of bicycles and pedestrians from motor vehicles wherever feasible, and the removal of a physical and visual barrier (the overpass) within the community. This is an opportunity for the public to review feedback and project updates since the last public meeting in February 2024 and to provide comments as the project advances to 75% design.

When

Tuesday, March 25, 2025
6:30 – 8:00 PM

Attend
