

I-495 Andover-Lawrence Bridge Replacements

What is happening?

MassDOT is replacing six bridges on I-495 where the interstate runs between Andover and Lawrence. Four of the bridges carry I-495 over the north and southbound lanes of Route 28, the other two carry the interstate over the MBTA Haverhill Commuter Rail line. MassDOT will hold two public information meetings to provide the community with an opportunity to learn about the replacements, how to stay informed during construction, and ways to contact the project with questions or concerns.

How will this affect you?

Construction is anticipated to begin in spring 2024 and last approximately four years. Construction includes temporary lane closures, ramp closures, and detours. This meeting provides MassDOT with a chance to inform the public about construction timing, detour routes, and measures being taken to help the project be a good neighbor.
