

New Date for Duxbury Route 3 Bridge Replacement Public Information Meeting

What is happening?

MassDOT has rescheduled the virtual Public Information Meeting for the Duxbury Route 3 Bridge Replacement Project to **Wednesday, April 15, 2026 at 6:00 PM**, instead of April 1, as originally planned. **Please use the new link below to pre-register for the meeting.**

At this meeting, the project team will update the public on the Phase 2 construction activities for the Route 3 Franklin Street Bridge Replacement. The meeting will begin with a presentation by the project team, followed by time for attendees to ask questions.

How will this affect you?

MassDOT is providing safety and operational improvements to the proposed Route 3 NB/SB bridges (Pilgrim Highway) over Franklin Street. Proposed work includes the complete replacement of the bridges, widening existing shoulders along Rt 3, replacing guard railing, upgrading the drainage along Rt 3, repaving of Rt 3, and adding new curbing and sidewalks down on Franklin Street.

In the first phase of construction, travel lanes along Rt 3 were shifted to the outside to facilitate construction of part of the new bridges in the median. The second phase will shift traffic toward the median on the newly constructed sections of the bridges. Two travel lanes along Rt 3 will be maintained during peak travel but reduced to one lane during off-peak times.

When

Wednesday, April 15, 2026
6:00 PM

Attend
