

Newton-Weston Bridge Replacement & Rehabilitation at I-90/I-95

Public Information Meetings

What is happening?

Stage 1A of construction is underway to replace and rehabilitate a series of eight bridges at the I-90/I-95 interchange in Newton and Weston. The purpose of this meeting is to inform the traveling public of anticipated impacts for construction and traffic impacts in 2025. Both meetings will provide the same information. Holding two meetings is an effort by MassDOT to accommodate everyone's schedules as best as possible.

How will this affect you?

During the meetings, MassDOT will give a brief project overview, followed by construction activities and anticipated impacts for construction in 2025, including weekend rail diversion from May 30 to June 2 and from June 20 to June 23 which will coincide with lane reductions on I-90 in Newton. Attendees will have the opportunity to ask questions and offer comments.
