Enrollment Calculation Methodology

MassHealth enrollment in a given month continues to change after the last day of the month due to members subject to retroactive eligibility changes. This can occur due to retroactive eligibility determination, redetermination processing, application verification, eligibility appeals and changes in member aid categories. To account for these changes, MassHealth reports two different measures of enrollment in this document:

Member count as of the last day of the month; not adjusted for retroactive Total Snapshot Enrollment =

eligibility.

Total number of eligible days divided by the number of days in the month. **Total Member Months** =

Updated with latest information available at each publication. This is the

most accurate representation of enrollment for budgeting purposes.
