PACE enrollment of 4,878 increased by 23 members or 0.5%

Other enrollment of 242,287 increased by 5,392 members or 2.3%

Enrollment Calculation Methodology

MassHealth enrollment in a given month continues to change after the last day of the month due to retroactive eligibility changes. This can occur due to retroactive eligibility determination processing, application verification, eligibility appeals and changes in member attributes. Due to these changes, MassHealth reports two different measures of enrollment in this document.

Total Snapshot Enrollment = Member count as of the last day of the month.
Updated with latest information available to provide the most accurate representation of enrollment.

Total Member Months = Total number of eligible days divided by the number of days in the month.
Updated with latest information available to provide the most accurate representation of enrollment.

This translates into a -0.3 % increase

eased by (104) members or -0.1%

of the month due to members subject
termination, redetermination
id categories. To account for these
nent:

e month; not adjusted for retroactive

by the number of days in the month.
ble at each publication. This is the
lment for budgeting purposes.
