General Information

Full CP Name:	Massachusetts Care Coordination Network
CP Address:	81 Hope Ave. Worcester, MA 01605

Part 1. BP4 Annual Report Executive Summary

The Massachusetts Care Coordination Network (MCCN) is a Long Term Services and Supports Community Partner (LTSS CP) operating in the Northern, Central, and Southern regions using a Lead Agency model with strong Affiliated Partners and Material Subcontractors. At present, Seven Hills Foundation is the lead agency for MCCN supported by BAMSI and Advocates as affiliated partners. HMEA and BCIL retain non-voting affiliation with MCCN.

In addition to the Affiliated Partners MCCN has material subcontractor relationships with Mentor Network, Elder Services of Worcester Area and NuPath.

In BP4 MCCN expanded service area to include Quincy and Revere. This allowed for improved continuity of support as members move within our service areas and increased referrals from ACO and MCO partners.

Within MCCN's service areas both pediatric and adult members are supported. On average, approximately 40% of MCCN's members are pediatric. Due to the nature of population expertise amongst MCCN's Affiliates and Subcontractors we have found particular success in supporting members with autism, brain injuries and compound health issues impacted by their health related social needs.

For BP5 MCCN is focused on demonstrating value to ACO and MCO partners. MCCN has invested heavily in synthesizing member claims and demographic data in order to make strategic operational decisions. With the dashboards we've developed we better understand the impact of care coordination on member claims, cost of care and utilization.
