1. Call to Order and Determination of Quorum

Jill Clark called the meeting to order and determined that a quorum was present.

2. Member Introductions and Preliminary Discussions on Funding Risk

Each member introduced themselves, described their organization's role in abortion-related services, and shared any preliminary discussions that have taken place at their organization in the event of a loss of federal funding for abortion care.

The level of discussions that have taken place varied across members, depending on whether they have already lost federal funding, the resources available at their organization, and the type of abortion care provided.

3. Scope of Task Force

Members discussed the scope of the Task Force, as they are currently charged with creating recommendations for the continuity of abortion and abortion-related care in the event of federal funding loss.

Members agreed that the recommendations should be expansive in terms of the types of federal funding at risk (including 340B pricing, Medicaid reimbursement, research funding, graduate medical education, and loan forgiveness/workforce-related), with recommendations for each funding risk category. Members also agreed to include recommendations related to access to medication and supplies.

4. Topics not reasonably anticipated by the Chair of the Abortion Task Force within 48 hours of the meeting

There were no additional topics.

5. Discussion of agenda items for next meeting

- Members were asked to come to the next meeting ready to finalize the federal funding categories at risk so that recommendations could be developed for each category.
- Members were reminded that the Task Force will meet biweekly on Thursdays from 5-6 PM.
- The next meeting will be held on Thursday, November 13, 2025.

6. Adjournment

The meeting was adjourned at 6:00 PM
