OPERATING RESERVES (Accounts 228 & 229)					
1. Report below an analysis of the changes during the year for each of the above-named reserves. 2. Show name of reserve and account number, balance beginning of year, credits, debits, and balance at end of year. Credit amounts should be shown in black, debit amounts enclosed by parentheses. 3. Each credit and debit amount should be described as to its general nature and the contra account debited or credited shown. Combine the amounts of monthly accounting entries of the same general nature. If respondent has more than one utility department, contra accounts debited or credited should indicate the utility department affected. 4. For accounts 228.1, Property Insurance Reserve, and 228.2, Injuries and Damages Reserve, explain the nature of the risks covered by the reserve. 5. For Account 228.4, Miscellaneous Operating Revenues, report separately each reserve composing the account and explain briefly its purpose.

CHARGES FOR OUTSIDE SERVICES

1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside services, such as services concerning rates, management, construction, engineering, research, financial, valuation, legal, accounting, purchasing, advertising, labor relations, and public relations, rendered the respondent under written or oral arrangement, for which aggregate payments during the year to any corporation, partnership, organization of any kind, or individual (other than for services as an employee or for payments made for medical and related services) amounted to 5% or more of total charges for outside professional and other consultative services, including payments for legislative services except those which should be reported in Account 426.4, Expenditures for Certain Civic, Political and Related Activities:

- (a) Name and address of person or organization rendering services,
- (b) description of services received during year and project or case to which services relate,
- (c) basis of charges,
- (d) total charges for the year, detailing utility department and account charges.

2. For aggregate payments to any one individual, group, partnership, corporation or organization of any kind in excess of \$25,000 (not included in No. 1), there shall be reported the name of the payee, the predominant nature of the services performed and the amount of payment. Amounts charged to plant accounts shall be reported separately.

3. All charges not reported under No. 1 or 2 shall be aggregated by the type of service and each type shall show the amount charged. Amounts charged to plant accounts shall be reported separately for each type.

4. For any such services which are of a continuing nature give date and term of contract and date of Commission authorization, if contract received Commission approval.

5. Designate associated companies.

1. (a) National Grid USA Service Company, Inc. (Associated Company)
2 Hanson Place, Brooklyn, NY 11217

(b) The following services are rendered:

Servicing Division:

Purchasing, Stores, Rates, Advertising, Employee Relations,
Treasury, Accounting, Audit, Insurance, Taxes, Emergency
Service, Administrative and Budgeting.

Engineering and Construction Division:

Civil and Mechanical Engineering, Electrical and District
Engineering, Transmission Lines and Properties, Engineering
Supervision, Construction, Emergency and Miscellaneous.

(c) At cost, including interest on borrowed capital and a reasonable return on amount of capital necessary to perform services. Services performed by the Service Company for companies in the National Grid USA system will be rendered to them at cost in accordance with the service contracts between Service Company and its associate companies.

Massachusetts Electric Company
Electric Energy Burden Analysis - 2025

As directed by the Department of Public Utilities (the “Department”), in its Memorandum on Annual Returns to Include Utility Burden Index Analysis, dated February 9, 2023, the following chart provides a detailed household economic burden index analysis (“Burden Analysis”) evaluating residential energy electric utility customer bills as percentages of household income by county. The Burden Analysis provides the summary results of a detailed household burden index analysis by census block group, which is based on the total customer bill that includes net metering from solar, low-income discounts, and other bill impact factors.

The Burden Analysis further provides an analysis by household income for the statewide median household income and 50 percent, 100 percent, and 200 percent of the Federal Poverty Guidelines, to provide the Department with a clearer picture of specific areas in the Company’s service territory with higher-than-average energy burden.

For its analysis, the Company geocoded the customer coordinates and appended census level identifiers and related information. The Company then summarized its billing data to yield average bills by the census identifiers to conduct the Burden Analysis. The Company, furthermore, intends to use this information to develop more advanced and meaningful strategies to enhance customer engagement and support.

Table	Field	Definition
Block Group Analysis	Census Tract	The Census defined geographic ID for the tract.
Block Group Analysis	Census Block Group	The Census defined geographic ID for the block group.
Block Group Analysis	Census Block Group Label	Text Label of Census Tract concatenaated with Block Group, County and State.
Block Group Analysis	County Name	Determined based on the Census Block Group GeoID. First 5 characters of GEOID are the FIPS Code, of which the last 3 are county. The county code is then macthed to a refernce table of county FIPS Codes from the Census.
Block Group Analysis	Electric Utility	Electric Utility serving the Block Group. Active Accounts were spatially joined to the latest Census Block Group Map available.
Block Group Analysis	Census Block Group Median Income	The median income for the census block group as reported by latest American Community Survey using the 1 year estimates inflation adjusted dollars. Table B19013 was used.
Block Group Analysis	Census Tract Median Income	The median income for the census tract as reported by latest American Community Survey using the 1 year estimates inflation adjusted dollars. Table B19013 was used for the estimates. This repeats and cannot be aggregated vertically as it may repeat.
Block Group Analysis	Census GeoLevel Used For Income	Defines what census geo level was used for the analysis. Block group is used where available - tract is substituted when block group level data is not available.
Block Group Analysis	Census Income To Use For Analysis	The census household income used in the analysis. Selected based on the Census GeoLevel Used For Income.
Block Group Analysis	Number Of Accounts	Total number of billing accounts located in the block group.
Block Group Analysis	Number Of Accounts Used In Bill Calculations	Number of accounts that were used to calculate billing averages. Not all accounts are used as there are accounts that do not have enough bills to project for the year.
Block Group Analysis	Average Annual Projected Bill Dollars	Projected annual bill dollars of all accounts with enough bills to project annual usage.
Block Group Analysis	Statewide Median Income	The state's 5 year median income from data.census.gov using the Latest American Community Survey 1 year estimates adjusted for inflation. Table B19013 is used.
Block Group Analysis	50% of Poverty	Calculated by dividing the 100% Poverty Level by 2.
Block Group Analysis	100% of Poverty	Sourced form the current Fiscal Year Home Energy Assistance Program (HEAP) Income Eligibility and Benefit Levels - using a 4 people in a household. 100% of Federal Poverty Level.
Block Group Analysis	200% of Poverty	Sourced form the current Fiscal Year Home Energy Assistance Program (HEAP) Income Eligibility and Benefit Levels - using a 4 people in a household. 200% of Federal Poverty Level.
Block Group Analysis	Electric Energy Burden based on Census Median Income	Electric energy burden calculated as the average electric bill compared to the median income at a Census block group or tract level.
Block Group Analysis	Electric Energy Burden based on Statewide Median Income	Electric energy burden calculated as the average electric bill compared to the Statewide median income.
Block Group Analysis	Electric Energy Burden based on 50% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 50% of the federal poverty level in a 4 person household.
Block Group Analysis	Electric Energy Burden based on 100% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 100% of the federal poverty level in a 4 person household.
Block Group Analysis	Electric Energy Burden based on 200% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 200% of the federal poverty level in a 4 person household.

		Determined based on the Census Block Group GeoID. First 5 characters of GEOID are the FIPS Code, of which the last 3 are county. The county code is then matched to a reference table of county FIPS Codes from the Census.
County Analysis	County Name	
County Analysis	Average Census Income To Use For Analysis	Average of the Block Group Analysis Field Census Income To Use For Analysis
County Analysis	Average Annual Projected Bill Dollars	Average of the Block Group Analysis Field Average Annual Projected Bill Dollars
County Analysis	Statewide Median Income	The state's 5 year median income from data.census.gov using the Latest American Community Survey 1 year estimates adjusted for inflation. Table B19013 is used.
County Analysis	50% of Poverty	Calculated by dividing the 100% Poverty Level by 2.
County Analysis	100% of Poverty	Sourced from the current Fiscal Year Home Energy Assistance Program (HEAP) Income Eligibility and Benefit Levels - using a 4 people in a household. 100% of Federal Poverty Level.
County Analysis	200% of Poverty	Sourced from the current Fiscal Year Home Energy Assistance Program (HEAP) Income Eligibility and Benefit Levels - using a 4 people in a household. 200% of Federal Poverty Level.
County Analysis	Electric Energy Burden based on Census Median Income	Electric energy burden calculated as the average electric bill compared to the median income at a Census block group or tract level.
County Analysis	Electric Energy Burden based on Statewide Median Income	Electric energy burden calculated as the average electric bill compared to the Statewide median income.
County Analysis	Electric Energy Burden based on 50% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 50% of the federal poverty level in a 4 person household.
County Analysis	Electric Energy Burden based on 100% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 100% of the federal poverty level in a 4 person household.
County Analysis	Electric Energy Burden based on 200% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 200% of the federal poverty level in a 4 person household.
