

Medicare Savings Programs

Many people who have Medicare are on fixed incomes and are looking for ways to lower their health care costs and save money. That's where a Medicare Savings Program can help.

Starting **January 1, 2020** the income and asset limits for Medicare Savings Programs (also known as "MassHealth Buy-In" programs) are increasing, meaning more residents of Massachusetts will be able to get help paying for Medicare.

You can find out if you qualify in three simple steps.

What costs will a Medicare Savings Program help you with?

If you are a Massachusetts resident with limited income and assets, who is eligible for Medicare, you may qualify for a Medicare Savings Program that will pay your monthly Medicare Part B premium, which is now deducted from your Social Security benefit. In certain cases, a Medicare Savings Program may also pay your out-of-pocket Medicare Part A and Part B costs and your Part A premium (if you have one).

If you qualify for a Medicare Savings Program, you will also **automatically qualify** for **Extra Help**, a program that will help pay for your prescription drugs under Medicare.
