

Environmental Justice Screening Form

Project Name	Marshfield – Willow Street over South River Bridge Replacement Project (M-07-005)
Anticipated Date of MEPA Filing	June 30, 2026
Proponent Name	Town of Marshfield
Contact Information (e.g., consultant)	Sara Kreisel BSC Group, Inc. 1 Mercantile Street, Suite 610 Worcester, MA 01608 skreisel@bscgroup.com (617) 896-4579
Public website for project or other physical location where project materials can be obtained (if available)	Marshfield Engineering Department Department of Public Works 965 Plain Street Marshfield, MA 02050
Municipality and Zip Code for Project (if known)	Marshfield (02050)
Project Type* (list all that apply)	Transportation – Roadways
Is the project site within a mapped 100-year FEMA flood plain? Y/N/ unknown	Yes, Zone AE
Estimated GHG emissions of conditioned spaces (click here for GHG Estimation tool)	Not applicable, no conditioned spaces proposed

Project Description

1. Provide a brief project description, including overall size of the project site and square footage of proposed buildings and structures if known. The project proposes the replacement of the Willow Street bridge over the South River in Marshfield MA. The structurally deficient, one-way bridge will be replaced with a new bridge along a similar horizontal alignment to the existing, with a similar, but slightly raised vertical alignment, to improve bridge safety and resiliency. The proposed bridge will have the capacity to carry two (2) lanes of traffic on Willow Street and will be widened by approximately 6.5± feet to accommodate a new sidewalk. The project involves mitigation measures intended to address existing structural deficiencies, while also minimizing disturbances to the surrounding environment. The project site will be 0.42 acres, and the project does not propose the construction of new buildings.
2. List anticipated MEPA review thresholds (301 CMR 11.03) (if known) ENF Review Threshold: 301 CMR 11.03(3)(b)1.a.: alteration of coastal dune, barrier beach or coastal bank

3. List all anticipated state, local and federal permits needed for the project (if known) • USACE Section 404 Pre-Construction Notification • MassDEP 401 Water Quality Certification (WQC) • MassDEP Chapter 91 License • Massachusetts Endangered Species Act (MESA) Checklist/CMP (Potential) • Town of Marshfield Notice of Intent (Order of Conditions) • Town of Marshfield Floodplain Permit
4. Identify EJ populations and characteristics (Minority, Income, English Isolation) within 5 miles of project site (can attach map identifying 5-mile radius from EJ Maps Viewer in lieu of narrative) One (1) EJ population is within the Project’s designated geographic area (DGA) of 1-mile, located in Marshfield, MA. • Block Group 5, Census Tract 5061.02 (Income) One (1) additional EJ population is within 5 miles of the project area, located in Hanover, MA. • Block Group 4, Census Tract 5031.02 (Income) There are no census tracts within 1 or 5 miles of the Project Area with a language spoken by at least 5% of the population “<i>who do not speak English very well.</i>”
5. Identify any municipality or census tract meeting the definition of “vulnerable health EJ criteria” in the DPH EJ Tool located in whole or in part within a 1 mile radius of the project site The Town of Marshfield does not meet a municipality Vulnerable Health EJ Criterion definition. No census tracts in the DGA meet a census tract Vulnerable Health EJ Criterion definition.
6. Identify potential short-term and long-term environmental and public health impacts that may affect EJ Populations and any anticipated mitigation The project purpose is to improve public safety and transportation infrastructure through the replacement of a deficient bridge carrying Willow Street over the South River. The proposed replacement of the Willow Street bridge will improve pedestrian access through the installation of a sidewalk. The proposed project is not anticipated to result in long-term negative impacts to the environment or public health. The project is instead proposed to provide long-term benefits including connectivity in pedestrian traffic. While the project limits and construction are not located directly in an EJ community, temporary construction-phase impacts will include noise from heavy equipment, and potential traffic delays in the project vicinity. The design team will implement best management practices to reduce traffic impacts, provide alternatives, and minimize disruption to citizens during construction.
7. Identify project benefits, including “Environmental Benefits” as defined in 301 CMR 11.02, that may improve environmental conditions or public health of the EJ population The project provides “<i>environmental benefits,</i>” as defined in 301 CMR 11.02, through the addition of a new sidewalk along the replacement bridge which will allow residents and visitors to safely access the downtown and riverfront areas without the need for a vehicle. The sidewalk will provide the community with an alternative option to vehicular travel, and allow greater access to the views and natural areas here.

8. Describe how the community can request a meeting to discuss the project, and how the community can request oral language interpretation services at the meeting. Specify how to request other accommodations, including meetings after business hours and at locations near public transportation.

Members of the public can access information related to the project in the following ways:

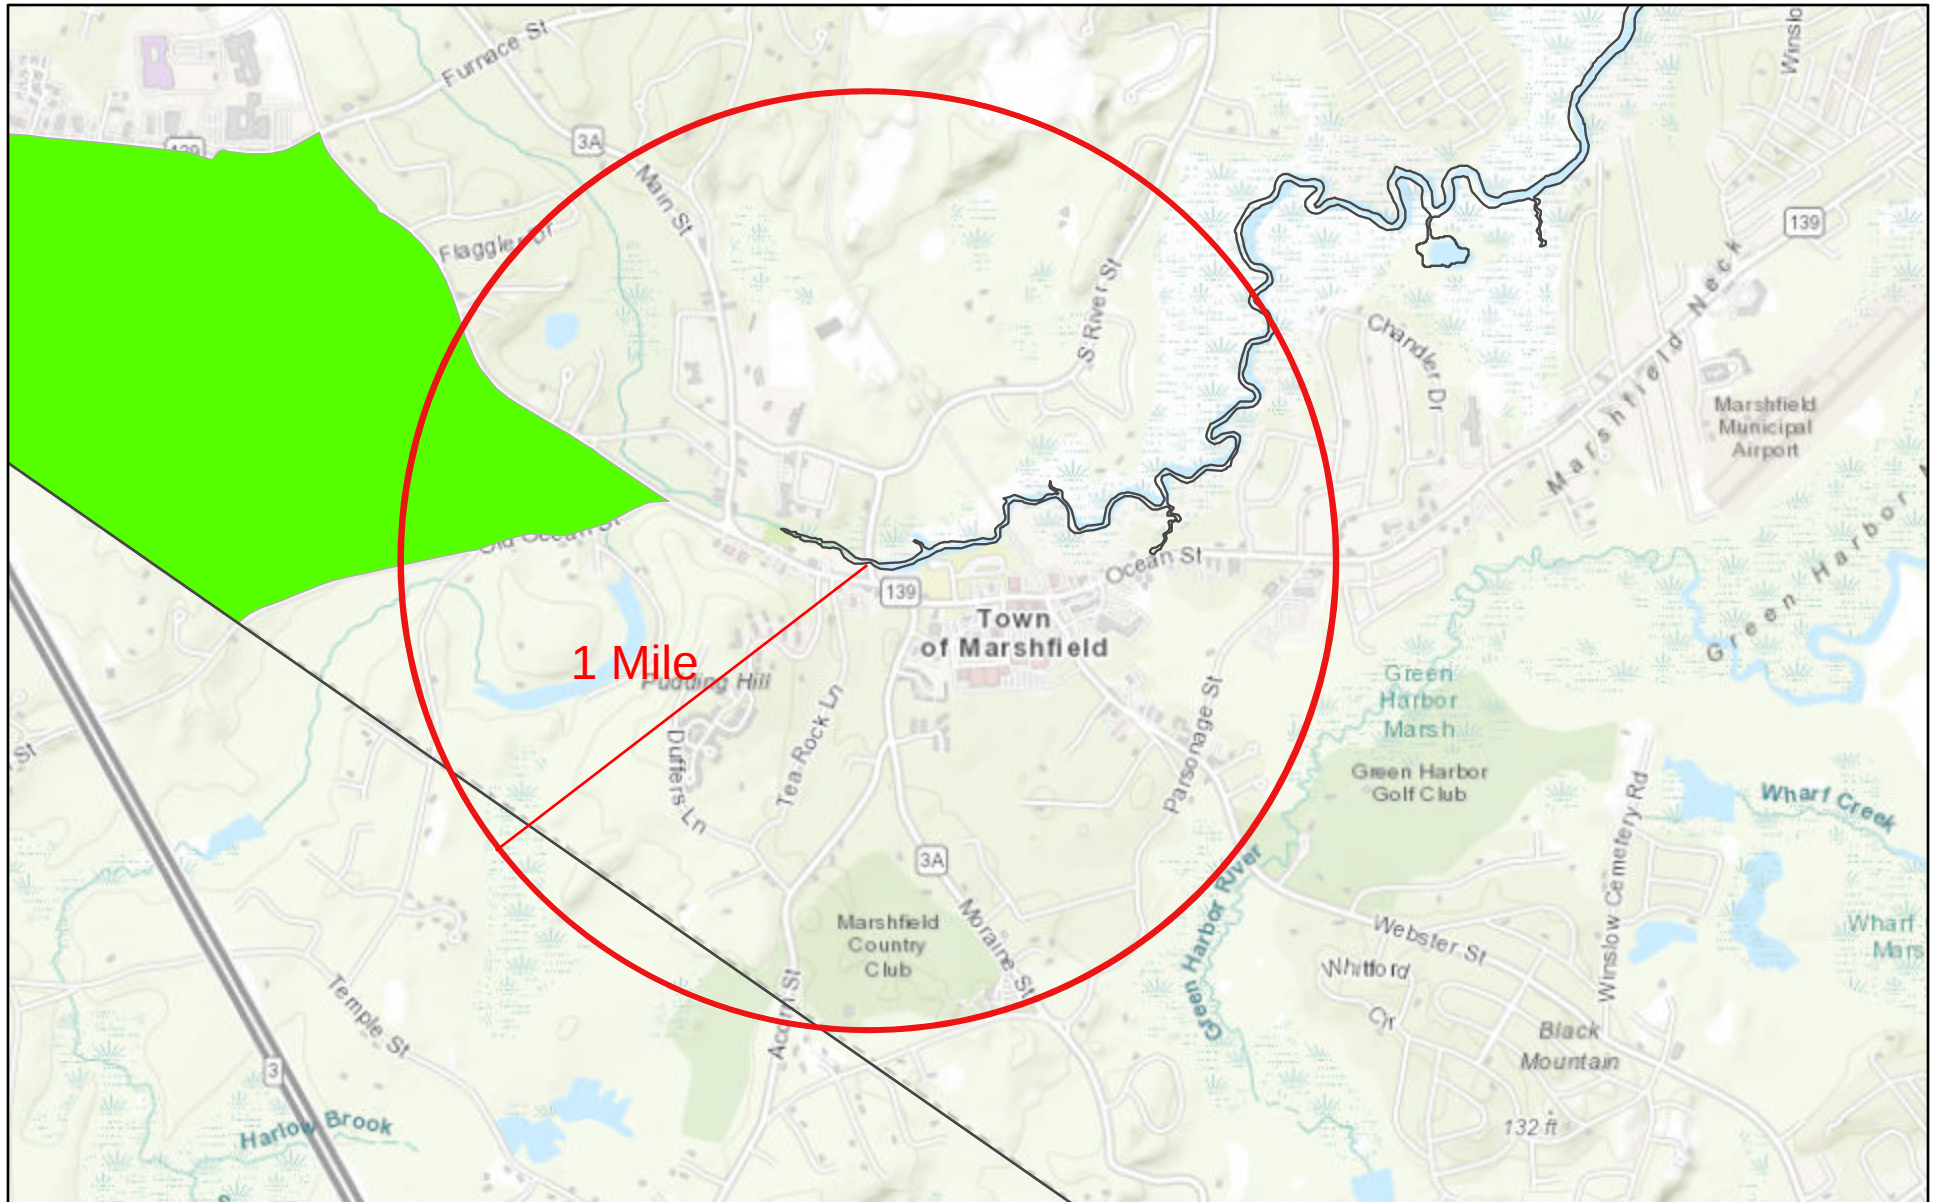

- Request or review project materials at the Marshfield Engineering Department/Department of Public Works at 965 Plain Street, Marshfield, MA 02050 ;
- Attend a public meeting that will be held following the submission of this document, and before the Project is proposed to be filed with MEPA;
 - Recipients of this EJ Screening Form will receive information related to the community meeting via email.
 - Notification of this meeting will be placed in the Town events calendar and local news sources serving Marshfield prior to the meeting.

Any requests for meetings or additional accommodations can be made to Matt Kinlin, Town Engineer at the Town of Marshfield at mkinlin@townofmarshfield.org or (781) 834-5561.

Recipients of this EJ Screening Form include organizations on the EJ Reference List provided by MEPA per the *MEPA Public Involvement Protocol for Environmental Justice Populations*, as well as local community based organizations identified by the Town.
