

Environmental Justice Screening Form

Project Name	Monponsett Street Development
Anticipated Date of MEPA Filing	August 31, 2026
Proponent Name	Merrimont Realty Trust
Contact Information (e.g., consultant)	Epsilon Associates, Inc.
Public website for project or other physical location where project materials can be obtained (if available)	Not available at this time
Municipality and Zip Code for Project (if known)	Halifax, 02338 & Plympton, 02367
Project Type* (list all that apply)	Industrial
Is the project site within a mapped 100-year FEMA flood plain? Y/N/unknown	Yes
Estimated GHG emissions of conditioned spaces (click here for GHG Estimation tool)	87.8 tons of CO ₂

Project Description

1. Provide a brief project description, including overall size of the project site and square footage of proposed buildings and structures if known. The Project site encompasses multiple lots totaling approximately 102 acres of land adjacent to Monponsett Street in Halifax, MA and Palmer Road in Plympton, MA. The site is predominantly forested with no active use at present. The Project includes three areas that will be developed with light industrial uses, currently anticipated to include 15 buildings totaling approximately 112,500 square feet. Approximately 180 parking spaces are proposed.
2. List anticipated MEPA review thresholds (301 CMR 11.03) (if known) [301 CMR 11.03(1)(b)(1)] -- Direct alteration of 25 or more acres of land [301 CMR 11.03(2)(b)(2)] -- Creation of 5 or more acres of impervious area [301 CMR 11.03(2)(b)(2)] -- Greater than two acres of disturbance of designated priority habitat
3. List all anticipated state, local and federal permits needed for the project (if known) LOCAL • Halifax Planning Board: Site Plan Review • Plympton Planning Board: Site Plan Review • Halifax Conservation Commission: Notice of Intent • Plympton Conservation Commission: Notice of Intent State • Natural Heritage & Endangered Species Program: Conservation and Management Permit FEDERAL • Environmental Protection Agency: National Pollutant Discharge Elimination System Permit

4. Identify EJ populations and characteristics (Minority, Income, English Isolation) within 5 miles of project site (can attach map identifying 5-mile radius from EJ Maps Viewer in lieu of narrative) The Proponent has identified one Environmental Justice (EJ) Population within one mile and five miles of the Project site. This area is shown on Figures 1 & 2, attached. The one block group within one mile of the Project, 250235261004, is characterized for income.
5. Identify any municipality or census tract meeting the definition of “vulnerable health EJ criteria” in the DPH EJ Tool located in whole or in part within a 1 mile radius of the project site The Massachusetts Department of Public Health (MassDPH) EJ Tool’s Vulnerable Health by Community layer indicates the existing vulnerabilities of the surrounding EJ Population near the Project Site. There are two municipalities within one mile of the Project Site, Halifax and Plympton. At the community level, neither Town meets the Vulnerable Health EJ Criterion for heart attack, low birth weight, childhood asthma, or childhood blood levels. Neither of the census tracts within the Towns are identified as meeting vulnerable health EJ criteria for low birth weight or childhood blood lead levels.
6. Identify potential short-term and long-term environmental and public health impacts that may affect EJ Populations and any anticipated mitigation Expected impacts include increased vehicle emissions from Project-associated traffic, increased impervious area, as well as temporary air and noise impacts during construction. The Proponent will implement mitigation measures to control dust and diesel emissions and ensure that construction activities create minimal impact to the surrounding communities. During operation, the Project will include stormwater management measures to manage the impact of runoff on surrounding areas.
7. Identify project benefits, including “Environmental Benefits” as defined in 301 CMR 11.02, that may improve environmental conditions or public health of the EJ population The Project will provide new economic activity, jobs as well as other economic benefits to the surrounding communities.
8. Describe how the community can request a meeting to discuss the project, and how the community can request oral language interpretation services at the meeting. Specify how to request other accommodations, including meetings after business hours and at locations near public transportation. Requests for meetings can be sent to Geoff Starsiak at gstarsiak@epsilonassociates.com
