Observations and Recommendations

1. The inmate population was 625 at the time of inspection.
2. At the time of the work release kitchen inspection the CSP recommended:
 - a. Additional staff members be trained on how to properly prepare and use the sanitizing solution; and
 - b. Kitchen staff develop an operations checklist that outlines food preparation, storage, and cleaning requirements within the kitchen.
3. During the main kitchen inspection, the warewash machine digital readout was not operating and staff were unable to determine if the machine was operating in accordance with the data plate. Kitchen staff stated a service order was already placed to repair the warewash machine and staff had already started utilizing interim measures such as manually sanitizing dishes or using Styrofoam trays until repairs could be made.
4. During the inspection of E Pod, the CSP recommended garbage within the Trash Storage Room be removed at an increased frequency to prevent odors.

This facility does not comply with the Department's Regulations cited above. In accordance with 105 CMR 451.404, please submit a plan of correction within 10 working days of receipt of this notice, indicating the specific corrective steps to be taken, a timetable for such steps, and the date by which correction will be achieved. The plan should be signed by the Superintendent or Administrator and submitted to my attention, at the address listed above.
