Quality of Life Survey Results

- The MFP Project Office analyzed the 122 most recent responses from the 11 month MFP Quality of Life (QoL) survey.
- The 11 month follow up survey is administered to MFP Participants who have been living in the community for 11-13 months.
- The survey is designed to measure a Participant's quality of life in seven domains: living situation, choice and control, access to personal care, dignity, community inclusion, overall life satisfaction, and general health status.

Quality of Life Survey Results

- 72% of respondents report that they have been happy with the way they have been living their lives
- 36% of respondents utilized transitional assistance goods/services during their first year in the community
- 91% of respondents report that they receive a sufficient amount of assistance completing household tasks (e.g. cooking and cleaning)
- 92% of respondents are pleased with the way they are treated by individuals who help them
- 90% of respondents can visit their friends and family when they want
- 93% of respondents report they can get to places they need to go outside of their homes (e.g. stores, doctor's appointments)
- 80% of respondents report that they need assistance getting around their community; 19% report they can go out independently

MFP Enrollee Housing Data

Point in Time – December 2015

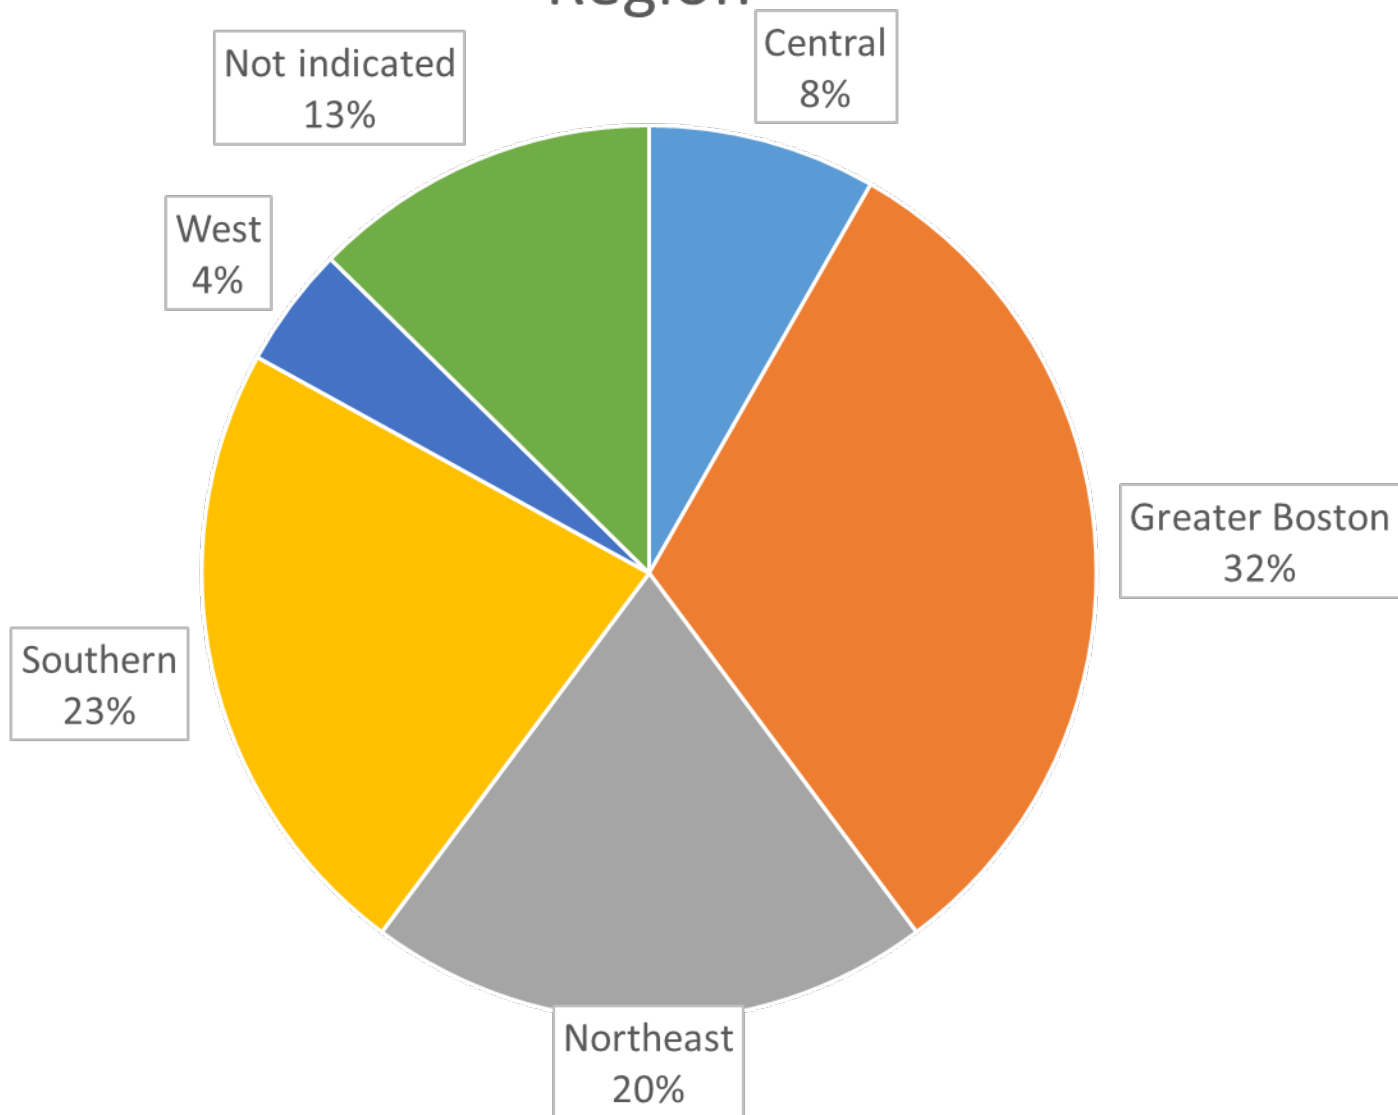

Data from the Needs and Preferences Forms

- Transition Coordinators or Housing Search Entities for each MFP Demonstration enrollee should be submitting a Needs and Preferences form to the Regional Housing Coordinator or Statewide Housing Partnership Coordinator
- Needs and Preferences Forms collect information about needed housing for consumers and housing barriers that may exist
- Data from the Needs and Preferences forms is used to advocate for housing resources and direct the 811 Project Rental Assistance Program unit selection
