

Massachusetts Department of Public Health– Thursday, April 6, 2023

Mpox Cases and People Vaccinated by Age, Sex and Race/Ethnicity

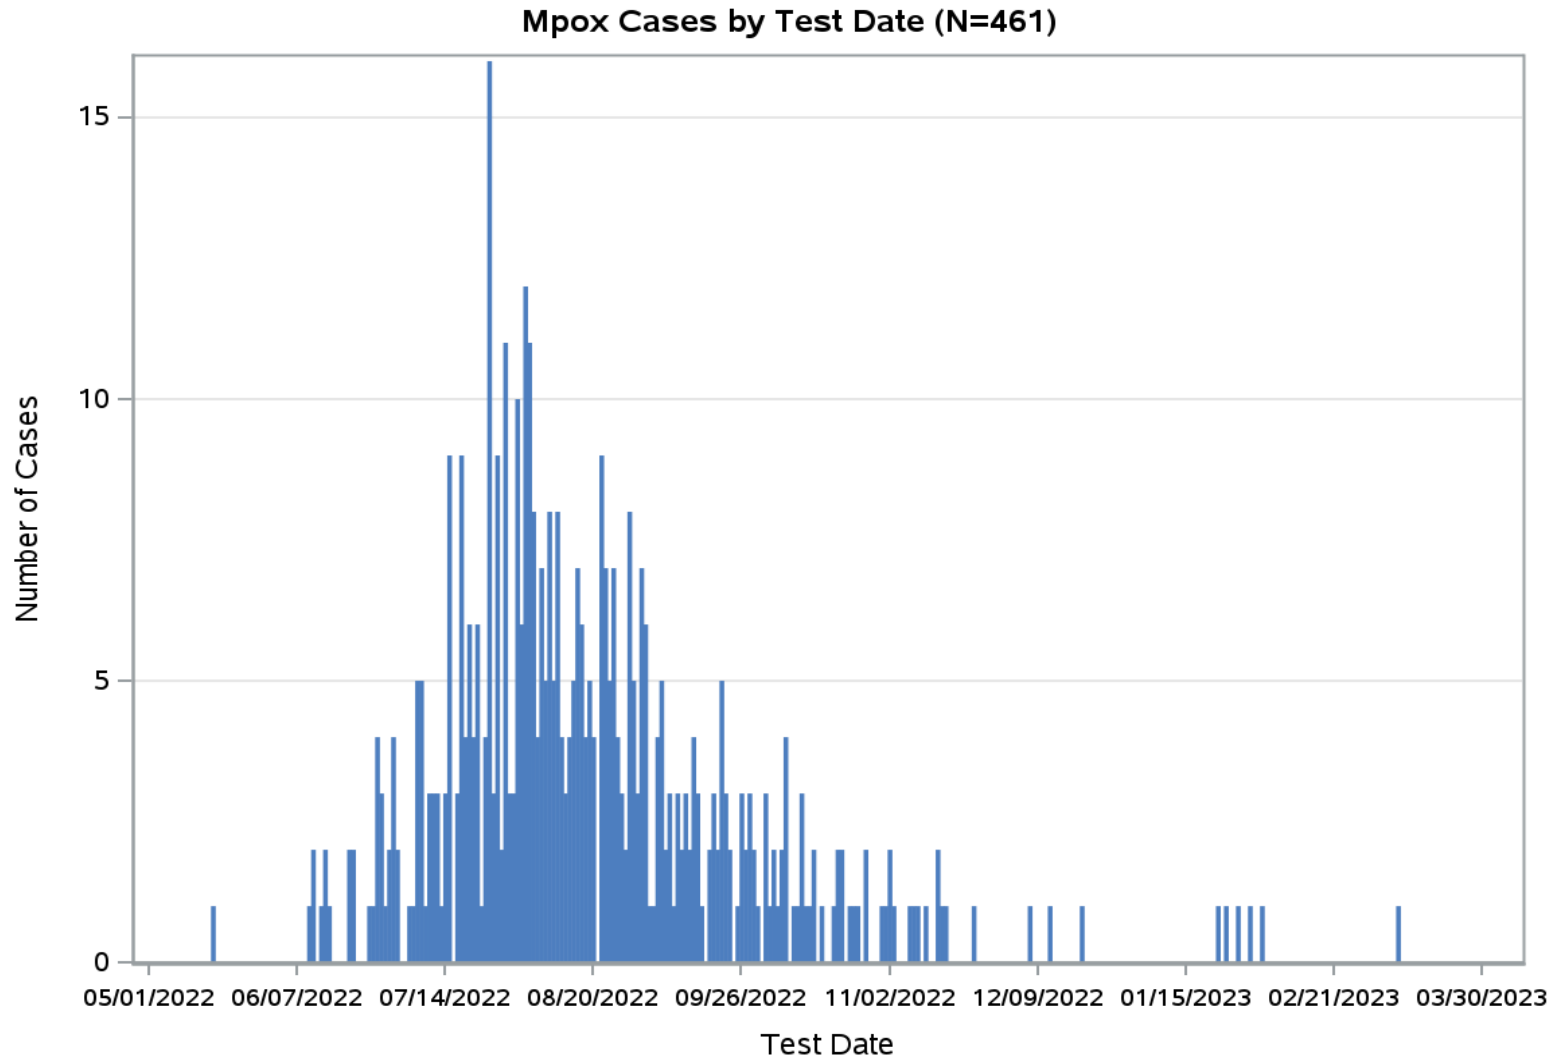

The Mpox Cases and People Vaccinated by Age, Sex and Race/Ethnicity Report is updated monthly and posted on the first Thursday of the month

All data included in this report are preliminary and subject to change. Data on demographics of cases is obtained through electronic reports by healthcare providers and laboratories and from cases during case interviews and entered into the Massachusetts Electronic Disease Surveillance System (MAVEN). Data on demographics of people vaccinated is obtained through provider reports into the Massachusetts Immunization Information System (MIIS).

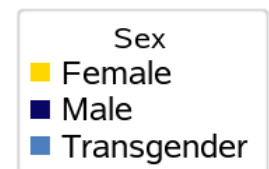

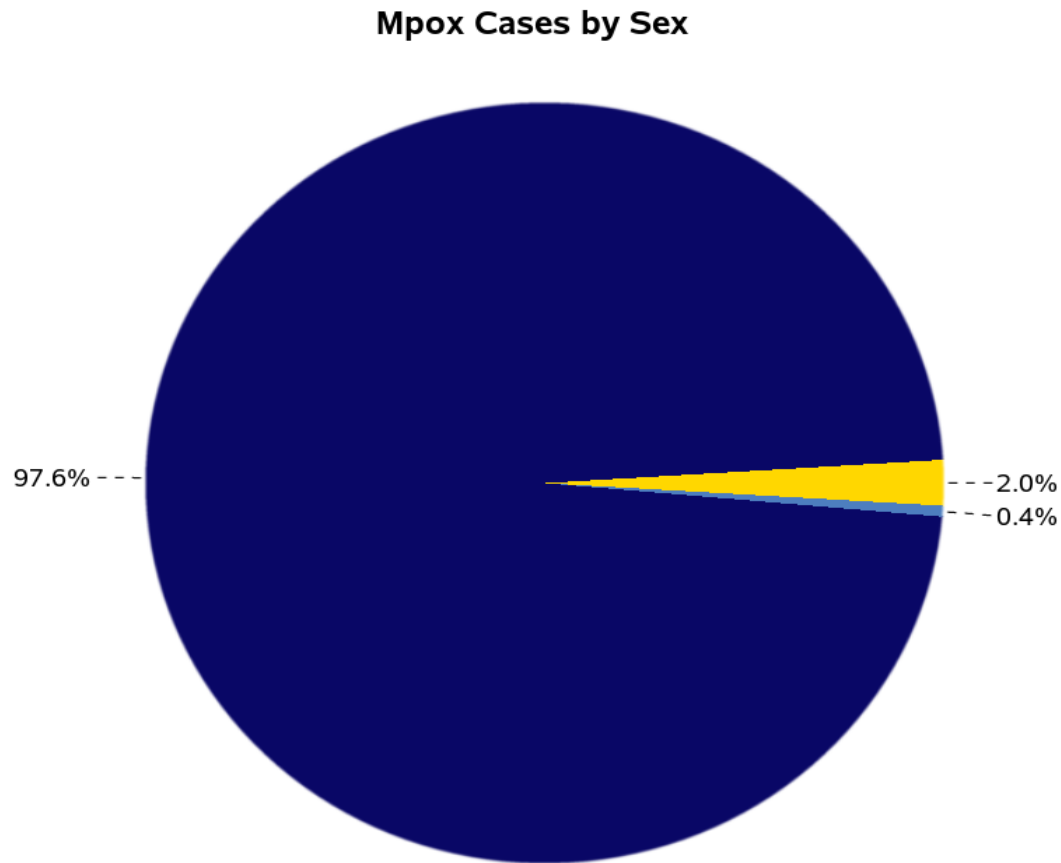

Mpox Cases – Epidemic Curve

- **461** confirmed and probable cases of mpox have been reported in MA as of 4/5/2023
- There has been **1** new case since the last report on 3/2/2023

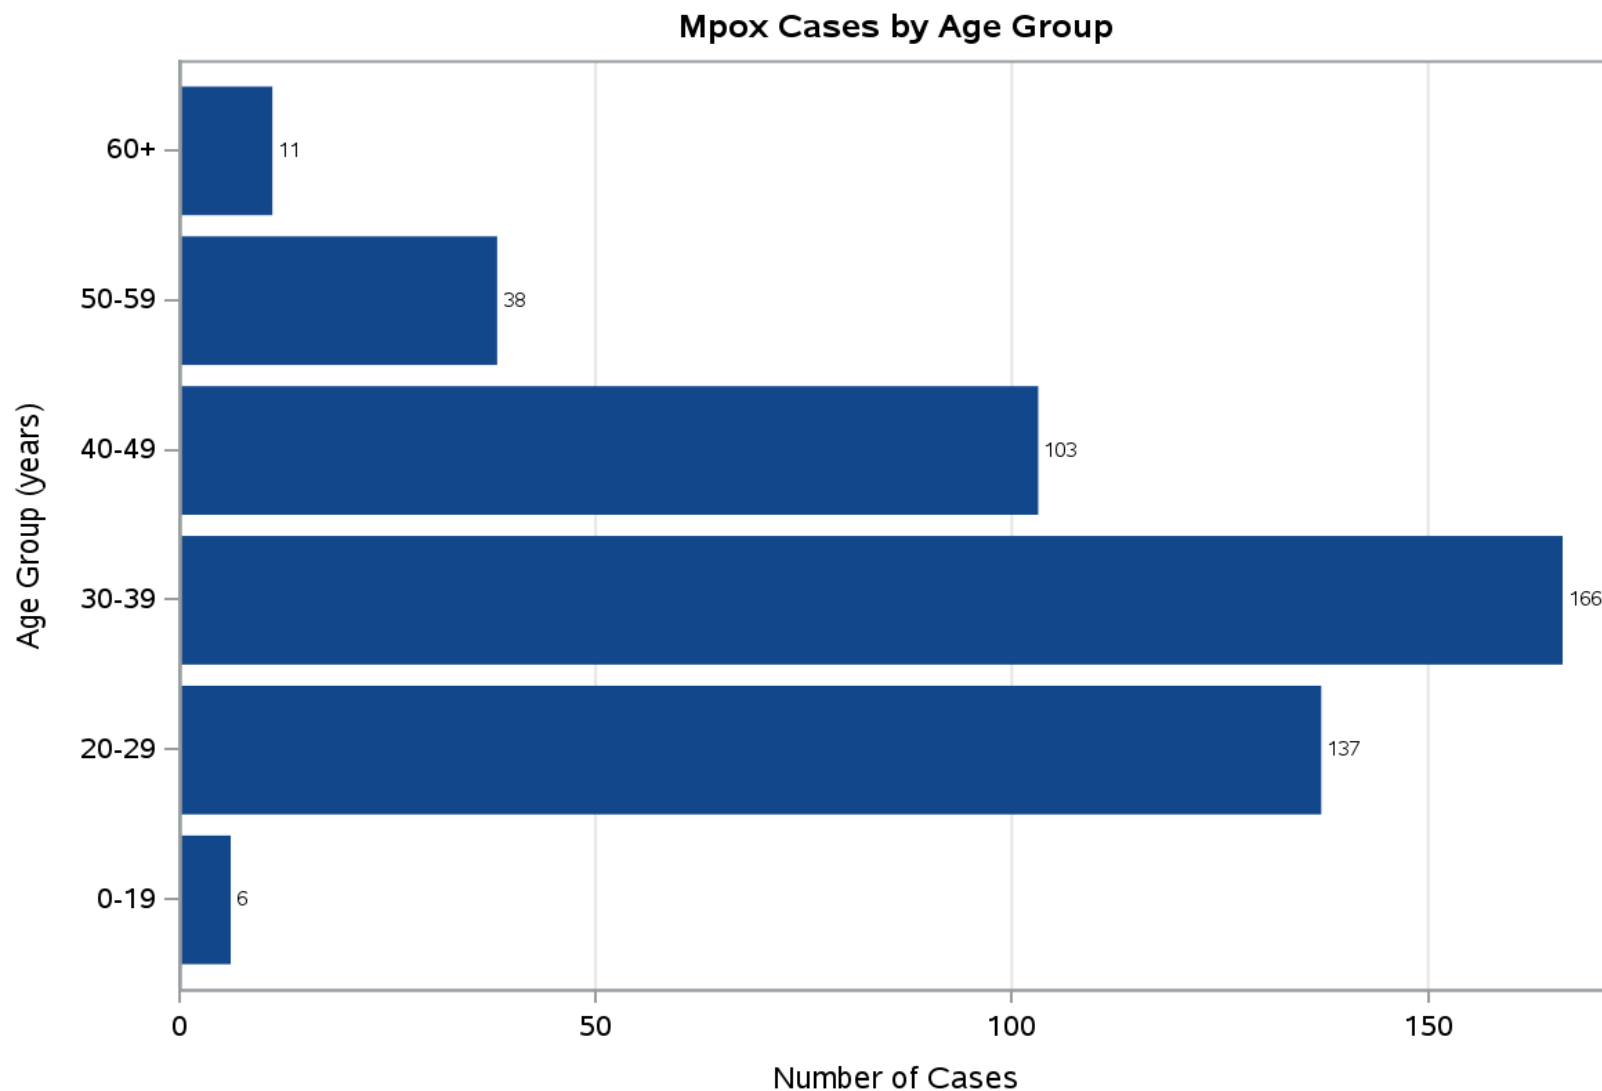

Data as of 04/05/2023 and subject to change.
