Margaret	Walsh	<p>The oak trees are one of the best parts of the playground; please DO plant more trees as planned and be sure to keep as many existing trees as possible.</p> <p>Carry in/Carry Out results in trash being thrown on the ground. Is there any way for trash/ recycling cans to be installed and maintained?</p> <p>Will there be water fountains added? This would be beneficial.</p>	Boston	02136
Nathaniel	Thomas	DCR has been incredibly supportive, which is key as over 70% of open space in Hyde Park is DCR-owned. As such land primarily serves environmental justice populations, investments by DCR are appreciated and remain critical to an area where residents benefit mostly from DCR land. This includes parks, playgrounds, hard courts, and Core Habitat. As a playground near a school in a socioeconomically mixed place filled with families, Moynihan Playground deserves additional, critical attention. Community efforts have raised well over \$300K to improve the playground over tireless years of advocacy. I encourage DCR to commit resources towards completely replacing and modernizing the nearly twenty-year-old existing playground structures. This will honor, leverage, and compliment this year's improvements spearheaded by the community.	Hyde Park	02136
