Written and oral comments will be accepted at the hearing.

A Fact Sheet describing the licensing process, the company, its operation, and terms and conditions of this license is available for review at the Woburn Board of Health, the Woburn Public Library, the Department's Wilmington and Boston Offices and the USEPA New England - Region I Office in Boston, and on the MassDEP website at [MassDEP Public Hearings & Comment Opportunities | Mass.gov](#) under MassDEP Permits & Approvals. FINAL DECISION:

The Department will consider all written comments received during the comment period, all comments received at a hearing, if held, and the requirements of the Massachusetts Hazardous Waste Regulations, 310 CMR 30.000. The Department will then make a final decision regarding the issuance of a hazardous waste license to Murphy's Waste Oil Service, Inc. A notice of the final license decision will be sent to the applicant and to each person who has submitted written comments or has otherwise requested notice of the final license decision. If no comments requesting a change in the Draft License are received, a final license decision will become effective 21 (twenty-one) days after the date of the notice of the decision. The final license decision will be postponed if a request for an adjudicatory hearing before the Department is made within the 21-day period.
