

New Beginnings at Mattacheese Middle School

With donations from the Cape & Islands District Attorney Michael O'Keefe and pediatrician Dr. Kenneth Colmer, the Mattacheese Middle School Administration was able to host Bill Phillips and his New Beginnings Program at the school. New Beginnings is an evidence based awareness program to address healthy choices for our youth and encouraging them to make responsible decisions regarding drugs and alcohol. Bill brought along 3 recovering youths who spoke to their peers about their ordeals with addiction and their success overcoming them.
