(g) In the event that Licensee demonstrates that an existing or future Cable Service provider or similar wireline based video service provider in the Town has been provided relief by the Issuing Authority from any obligation of its license, then Licensee shall be awarded an equivalent amount of relief from the material obligations herein. Such relief shall be in writing and in the form of an amendment to this License. The Issuing Authority shall convene a public hearing on the issue within sixty (60) days of Licensee's notification to the Issuing Authority requiring such relief, unless otherwise mutually agreed to. License shall provide reasons for its belief in the notification. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to demonstrate that any existing or future service providers in the Town have been provided relief by the Issuing Authority from any obligation of its cable television license or other similar lawful authorization. With respect to areas of the Town which are currently served by Licensee from a contiguous cable television system or currently unserved but could be served by abutting Town(s) served by Licensee, Licensee shall have the option to serve such areas from its cable television system in such abutting Town.

(b) Installation costs shall conform with the Cable Act. Any dwelling unit within an aerial one hundred fifty feet (150 ft.) of the Trunk and Distribution Cable shall be entitled to a Standard Installation rate in accordance with applicable federal and state laws. Underground

(b) Licensee shall be available to be dispatched for maintenance and/or repair at the request of the Issuing Authority. If it is determined that the maintenance and/or repair issue is as a result of Town-owned equipment or municipal user error, the Licensee reserves the right to charge the Town for reasonable labor and material costs of the Licensee as agreed to by the parties prior to the commencement of work for I-Net maintenance. The demarcation point between the equipment owned and maintained by the Licensee and the equipment owned and maintained by the Town shall be the output of the modulator or optical transmitter at each origination site on the I-Net.

(c) If the Issuing Authority has deemed, based upon their belief that certain technical problems are related to the signal quality of the I-Net, itself, the Issuing Authority may request in writing that the Licensee evaluate such allegation, and repair the I-Net if needed. If it is deemed, however, by the Licensee that said certain technical problems are related to end user equipment, the Licensee shall charge the Town for the costs of such evaluation at a standard rate of time.
