2.2 Term

The Franchise and the rights, privileges and authority hereby granted shall be for a term of five (5) years, commencing on the Effective Date of this Franchise as set forth in subsection 15.12, unless otherwise lawfully terminated in accordance with the terms of this Franchise.

2.3 Franchise Requirements For Other Franchise Holders

(a) The Renewal License shall not affect the right of the Issuing Authority to grant to any other person a license or right to occupy or use the streets, or portions thereof, for the construction, installation, operation or maintenance of a Cable Television System within the Town, or the right of the Issuing Authority to permit the use of the public ways and places of the Town for any purpose whatever. Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses. Issuing Authority shall not permit or authorize any person or entity to operate a cable system without a License or franchise, as defined by 47 U.S.C. § 522(9).

(b) If the Town enters into any contract, license, agreement, or the like with a cable system operator, which is not an affiliate of Licensee, the terms of that contract, license or agreement shall be on substantially equivalent terms and conditions contained in this agreement or such terms and conditions equitably modified to reflect any differences between the License and any additional license, contract or agreement in terms of benefit to the respective cable system, including, but not limited to, such considerations as (i) length of term; (ii) extent of service area; (iii) system design and construction specifications; (iv) the payment of any franchise fees; (v) any payments for the support PEG access programming; (vi) any grants for capital equipment for PEG access programming; (vii) the provision of any service or service connections to schools or public buildings; (viii) the construction of an I-Net; and (ix) customer service standards. To the extent that the terms of the License are less favorable and more burdensome to the Licensee than those of the provision of such subsequent or additional license, contract, or agreement when such terms are taken as a whole, the Town, upon written request of the Licensee, after providing public notice, shall hold a public hearing to afford Licensee the opportunity to demonstrate the disparate nature of the terms of the additional license(s) and, following said hearing, the Town shall take actions to rectify said differences, including, but not limited to, amending the additional license, contract, or agreement so that they are not on more favorable or less burdensome terms than the terms of the License or amending this License so that its terms are not less favorable or more burdensome than those of any additional license, contract, or agreement when taken as a whole. In devising an appropriate remedy, the Town shall consider that, in certain instances, eliminating ongoing obligations after the implementing construction has been undertaken may be inadequate to provide meaningful relief.

2.4 Police Powers and Conflicts with Franchise

By executing the Renewal License, the Licensee acknowledges that its rights are subject to the powers of the Town to adopt and enforce general by-laws necessary to the safety and welfare of the public. The Licensee shall comply with all applicable State and Town laws, by-laws, rules, and regulations governing construction within a Public Way. In the event of any conflict between this Franchise and any Franchising Authority ordinance or regulation, this Franchise will prevail. This Franchise is a contract and except as to those changes, which are the result of the Franchising Authority's exercise of its general police power, the Franchising Authority may not take any unilateral action, which materially changes the explicit mutual promises in this contract. Nor may the Franchisee take any unilateral action, which materially changes the explicit mutual promises in this contract. Any changes to this Franchise must be made in writing signed by the Licensee and the Franchising Authority.

2.5 Cable System Franchise Required

(b) The Licensee shall meet with the Issuing Authority or the Cable Advisory Committee, if so designated, to review the Licensee's compliance with the License as well and to review other issues related to this License. Such meetings may be requested by the Issuing Authority, the Cable Advisory Committee, or the Licensee.

3 Franchise Renewal

3.1 Procedures for Renewal

In the event any such claim arises, the Issuing Authority shall tender the defense thereof to the Licensee and the Licensee shall have the right to defend, settle or compromise any claims arising hereunder and the Issuing Authority shall cooperate fully herein. If the Issuing Authority determined in good faith that its interests cannot be represented by the Licensee, the Licensee shall be excused from any obligation to represent the Town. Notwithstanding the foregoing, the Licensee shall not be obligated to indemnify the Town, its officers, boards, commissions, agents, and employees for any damages, liability or claims resulting from the willful misconduct or negligence of the Town or for the Town's use of the Cable System, including any PEG channels.

(b) In order for the Town to assert its rights to be indemnified, defended and held harmless, the Town must:

(i) Timely notify Licensee of any claim or legal proceeding which gives rise to such right;

(ii) If the Licensee is obligated to defend and indemnify the Town against such claims or actions, the Licensee shall in its sole discretion control such defense, compromise or settlement or other resolution or disposition of such claim or proceeding. The Licensee agrees to make every effort to include the Town in the participation of any such compromise, settlement or other such resolution or disposition of such claim or proceeding. In the event the Town determines its interests cannot be represented in good faith by the Licensee, the Town may otherwise seek legal representation;

iii) The Town shall fully cooperate with the reasonable requests of the Licensee in its participation in, and control, compromise, settlement or resolution or other disposition of such claim or proceeding subject to subparagraph (ii) above.

(c) The Town hereby reserves to itself, and the Licensee acknowledges the Town's right, to the extent, authorized by applicable law or regulation, to intervene in any suit, action or proceeding directly relating to the provisions of this License.

Said bond shall be a continuing obligation throughout the entire term of this Renewal License, and thereafter until the Licensee has satisfied all of its obligations to the Town that may have arisen from the grant of the Renewal License or from the exercise of any privilege herein granted. In the event that the Town recovers from said surety, the Licensee shall take immediate steps to reinstate the performance bond to the appropriate amount required herein. Neither this section, any bond accepted pursuant thereto, nor any damages recovered thereunder shall limit the liability of the Licensee under the Renewal License.

5 Subscriber Rights and Consumer Protection

5.1 Customer Service Office/Payment Center/Telephone Answering Service

(a) Licensee, at its sole discretion, will maintain and operate a customer service office in the Town of Northborough, for accepting payments, handling equipment returns, processing complaints and related services.. The parties acknowledge that any such office in Northborough or a nearby town shall be available for use by Northborough subscribers and subscribers from other Towns.

(b) The Licensee shall maintain a publicly listed toll-free telephone number for Subscriber access to customer service representatives and its hours of service shall meet or exceed the F.C.C.'s requirements for service during normal business hours. Customer service representatives will answer Subscriber calls during normal business hours as defined by the F.C.C. in the F.C.C. definition of normal business hours, see 47 Code of Federal Regulations, s. 76.309 (c)(4).

(c) Qualified customer service representatives will be available to respond to customer telephone inquiries in accordance with this License. Such representatives will provide information to help Subscribers troubleshoot basic problems including VCR/DVR cable interconnect problems.

(d) Under normal operating conditions, telephone answer time by a customer service representative, including wait time, and the time required to transfer the call, shall not exceed 30 seconds, 90% of the time 24 hours per day, 7 days a week, as measured on a quarterly basis. In enforcing this provision, the Issuing Authority shall take into considerations any temporary special circumstance effecting the Licensee's ability to comply (such as upgrading or expansion of the call center or the deployment of advanced services requiring additional personnel training and customer education) provided always that the Licensee can show that such circumstances will result only in temporary effects upon compliance. Licensee agrees to maintain an automated call distribution system capable of monitoring compliance with this standard and shall provide the Town, upon written request, with quarterly printouts of telephone response data. For the purposes of this paragraph and Article 7 generally, the term normal operating conditions shall be defined in accordance with F.C.C. customer service standards, 47 C.F.R. s. 76.309.

5.2 Initial Installation and Service Call Procedures in Wired Areas

(a) The Licensee shall install cable service in all areas of the Town to those residents whose homes are passed by the Cable System and who have requested service within seven (7) business days of said request for standard aerial installations and within ten (10) business days, weather permitting, of a request for underground installation, subject to Licensee's receipt of necessary permits and easements on reasonable terms.

(b) The Licensee shall specify to the Subscriber, in advance, whether said installation visit or service call will occur in a weekday morning block, weekday afternoon block, weekday evening block, or a Saturday block. If Licensee cannot make an appointment, Licensee shall call the Subscriber in advance to cancel. The Licensee shall give priority for next day or next "available time" installation or service appointments to Subscribers who cannot be scheduled within the aforementioned time periods. Unless caused by a Subscriber's failure to make the premises available to the Licensee at the time scheduled, failure to make the installation or service call as scheduled shall require the Licensee to automatically offer a priority cable installation or service visit to the affected Subscriber at a time mutually agreeable to the Licensee and said Subscriber, but in no case later than twenty-four (24) hours following the initial installation date, or 24 hours following the service date, unless mutually agreed to otherwise by said Subscriber and the Licensee. In the event a service problem is attributable to technical problems in the Cable System but are wholly within parts of the Cable System that are not on private property, Licensee shall not require Subscribers to be at home at the time of the service call.

(c) Under normal operating conditions, the Licensee shall respond within 24 hours to service complaint calls or requests for repair service where there is a loss of picture or audio on all Channels. Under normal operating conditions, all other service complaint calls or requests for repair service shall be responded to within thirty-six (36)

hours, except that Subscribers can schedule service visits beyond this time frame at the Subscriber's option. These standards shall be met in accordance with FCC standards in effect as of the execution of this License.

(d) The Licensee shall ensure that there are stand-by service personnel on call at all times after normal business hours. The answering service shall be required to notify the stand-by personnel of an unusual number of calls or a number of similar calls or a number of calls coming from the same area.

(e) System Outages, deemed to occur upon the failure of service to five (5) or more Subscribers at or about the same time and in the vicinity of each other that are served by the same amplifier, shall be responded to immediately, twenty-four (24) hours a day by Licensee personnel.

(f) Licensee shall supply a telephone number to a designee of the Issuing Authority, if requested, which shall not be available to the general public, and which is capable of reaching appropriate management personnel in the event that emergency repair service is needed and which is to be used only if normal Licensee lines do not allow a rapid connection to appropriate Licensee personnel. The term emergency in the foregoing sentence shall mean events involving potential injury to persons or property, or loss of service to substantial areas. Licensee shall maintain a staff of stand-by technicians who are ready to make the necessary repairs in the event of such an emergency; and such emergency request shall be responded to immediately, twenty-four (24) hours a day by Licensee personnel.

Nothing herein shall be construed to preclude Licensee from charging a fee to any Subscriber or potential Subscriber for a standard or non-standard installation, as may be applicable. The Licensee may elect to provide Cable Service to areas not meeting the above standard. Licensee retains full ownership rights and interest in all portions of its Cable Television System, including, but not limited to, converters that it leases to subscribers, the Distribution Plant, the Cable Drops, the Outlets, the Subscriber Network, and the Trunk and Distribution System, as authorized in accordance with applicable law.

6.2 Standard Drops

- (a) Installation costs shall conform with the 1992 Cable Act, and regulations thereunder. Any dwelling unit within 150 aerial feet of the Cable System distribution plant shall be entitled to a standard installation rate, and the additional costs associated with completing installations located more than 150 feet from the Cable System distribution plant shall be charged to the Subscriber, after provision of a written itemization, on a cost of labor and materials basis only. The amount by which the cost of underground installation exceeds the average cost of a 150 foot aerial installation, shall, consistent with the 1992 Cable Act, and regulations thereunder, be charged to Subscribers on a cost basis in accordance with F.C.C. rules.
- (b) the Licensee will provide service to all areas with an average of 25 homes per aerial mile or greater without contribution in aid of construction by subscribers; In cases of a request for service not meeting the above criteria, the Franchisee will extend service to prospective subscribers who are willing to contribute to the cost of construction in accordance with the formula $C/LE - CA/P = SC$ where C equals the cost of construction of new plant; CA equals the average cost of construction per mile in the primary service area; P equals the minimum number of dwelling units per mile which would require the Franchisee to provide service in the primary service area; LE equals the number of dwelling units requesting service in the line extension area; SC equals subscriber contribution-in-aid of construction in the line extension area.
- (c) Whenever a potential subscriber located in a line extension area requests service, the Franchisee shall, within 30 days of the request, conduct a survey to determine the number of potential subscribers located in the line extension area and shall inform each of the potential subscribers of the contribution-in-aid of construction. During a three year period commencing with initiation of service to a particular line extension, a pro-rated refund shall be paid to previous subscribers of said extension as new subscribers are added to the extension. The amount of such refund, if any, shall be determined by application of the SC formula each time a new subscriber is added. The refunds shall be paid annually to subscribers, or former subscribers entitled to receive them.
- (d) Provided Licensee has at least sixty (60) days prior notice concerning the approximate time of opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, it shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame, provided in either case that necessary easements are made available to Licensee in the same manner as made available to other utilities. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, the Licensee shall be allowed additional time for said installation. The Issuing Authority shall exercise reasonable efforts to have the Planning Board and developers give timely notice of subdivision trenching to the Licensee and Licensee shall exercise reasonable efforts to periodically check with the Planning Board to identify such subdivision trenching and conduit installation. To facilitate the orderly development of new residential subdivisions with underground utilities, the Issuing Authority shall use its reasonable efforts to have the Planning Board (i) require that subdivision developers work with the Licensee

during the planning of subdivisions to provide for distribution plant installation; (ii) require that a plan for the distribution plant be included in the subdivision plan as a condition for Planning Board approval; and (iii) require that the developer provide a copy of the approved plans to the Licensee.

6.3 New Development Underground

In cases of new construction or property development where utilities are to be placed underground, the Franchising Authority agrees to make all reasonable efforts to have the permitting authority require as condition of issuing a permit for open trenching to any developer or property owner that such developer or property owner give Licensee at least thirty (30) days prior notice of such construction or development, and of the particular dates on which open trenching will be available for Licensee's installation of conduit, pedestals and/or vaults, and laterals to be provided at Licensee's expense. Licensee shall also provide specifications as needed for trenching. In the event of disputes between Licensee and subdivision developer concerning the costs of trenching and easements required to bring service to the development, the Issuing Authority or its designee shall be available to provide reasonable informal mediation, except that if Licensee fails to install its conduit, pedestals and/or vaults, and laterals within five (5) working days of the date the trenches are available, as designated in the notice given by the developer or property owner, then should the trenches be closed after the five-day period, the cost of new trenching is to be borne by Licensee. Issuing authority may satisfy the foregoing obligation by providing a copy of this section to the permitting authority.

6.4 Leased Access

Pursuant to the Cable Act, 47 U.S.C. 532 (b)(iii)(B), Licensee shall make available Channel capacity for commercial use by persons unaffiliated with Licensee.

Any such inspection shall be conducted at reasonable times on reasonable notice to Licensee, except that notice may be waived for public safety reasons involving need to inspect street conditions on time sensitive basis as may be customary for Department of Public Works. Licensee shall have the right to be present at any inspection except where street inspection is for safety purposes and involving customary right-of-way management and/or street restoration inspection as may be customary for Dept. of Public Works. Any such inspection shall not interfere with the Licensee's operations.

b) Any tests conducted by the Town shall be at the sole cost and expense of the Town and shall have the prior written approval of the Licensee, and be conducted in the presence of a representative of Licensee. Unless otherwise mutually agreed upon, the Town shall give at least seven (7) days prior notification to the Licensee of its intention to conduct any testing. Any such testing shall take place at a time that is least disruptive to subscribers.

7 Construction and Technical Standards

7.1 Compliance with Codes

(a) Licensee shall maintain and operate the Cable System in existence as of the expiration of the prior license and the Institutional Network ("I-Net"), with the Cable System continuing to have not less than 750 MHz. The Cable System shall be able to receive and transmit community-specific programming independent from that offered in other Towns. Subsequent to the effective date hereof, Licensee shall continue to maintain the availability of not less than seventy-eight programmed Channels, subject to applicable must-carry rules and other applicable law, unless Licensee finds that said number of Channels cannot be provided in a commercially practicable way. Licensee shall be reasonably available to meet with the Issuing Authority and discuss for informational purposes only any program changes in advance of the implementation of such changes. The Licensee shall construct and operate a Cable Television System and render service to Subscribers consistent with the following laws and regulations during the term of this License. The construction, maintenance and operation of the Cable Television System shall be in conformance with the applicable provisions of the National Electrical Code, the Massachusetts Electrical Code, the National Electrical Safety Code, the NCTA Safety Manual, the National Television Standards Code and the applicable rules and regulations of the Occupational Safety and Health Administration (OSHA), the Massachusetts Department of Telecommunications and Cable and the FCC and all Town building and zoning codes, land use restrictions, and street opening and grant of location laws of general applicability.

(b) All FCC regulations and standards concerning signal quality and technical standards are incorporated as independent standards in this License, including but not limited to 47 CFR 76.601 sub-part K, et seq. incorporated herein by reference, however, the parties acknowledge that pursuant to the Telecommunications Act of 1996, said standards are only locally enforceable to the extent allowed by federal law. Notwithstanding the foregoing, Licensee will, upon request of the Issuing Authority, review Licensee's compliance with said standards. Copies of any technical performance tests that may be required under FCC rules and regulations shall be submitted forthwith, upon request, to the Issuing Authority. Upon request of Issuing Authority, Licensee shall apprise Issuing Authority of known signal quality problems, if any, and disclose Licensee plans with respect to same.

(c) Licensee shall take appropriate measures to minimize audio variations among Channels in the Cable System.

(d) In the event of Subscriber complaints about signal quality resulting from problems, if any, with the Subscriber drop, Licensee will replace the Subscriber's drop at the residence of the complaining Subscriber if needed to remedy the signal problem at no cost to the Subscriber.

(e) With respect to a seven or more complaints of signal quality problems involving the same or substantially similar matter within a 21 day period, the Issuing Authority may require Licensee to report on same within 10 calendar days of a request by the Issuing Authority. Licensee shall report on the nature of the problem and on any corrective action to be taken. If after that the Issuing Authority has reasonable basis for finding that Licensee appears not to be in compliance with technical specifications, the Issuing Authority shall have the right to require that Licensee's senior engineer shall conduct additional tests and issue a detailed report to the Issuing Authority pertaining to such tests.

(f) All structures, lines, equipment, and connections in, over, under, and upon streets, sidewalks, alleys, and public ways and places of the Town, wherever situated or located, shall at all times be kept and maintained in a safe condition, in good order and repair and in a satisfactory aesthetic appearance acceptable to the Town.

(g) This Section shall be applicable to the existing I-Net as well as the residential Cable System.

7.2 Construction Standards and Requirements

The Cable System shall be designed, constructed and operated so as to meet those technical standards adopted by the FCC relating to Cable Systems contained in Part 76 of the FCC's rules and regulations as may, from time to time, be amended.

7.3 Safety

The Licensee shall at all time employ ordinary care and shall use commonly accepted methods and devices preventing failures and accidents, which are likely to cause damage.

7.4 Network Technical Requirements

The Cable System shall be operated so that it is capable of continuous twenty-four (24) hour daily operation, capable of meeting or exceeding all applicable federal technical standards, as they may be amended from time to time, and operated in such a manner as to comply with all applicable FCC regulations.

7.5 Performance Monitoring

Licensee shall test the Cable System consistent with the FCC regulations.

7.6 Performance Evaluations.

The Issuing Authority shall at its discretion but not more than once a year, hold a performance evaluation session on or about the anniversary of the effective date of this License. All such evaluation sessions shall be open to the public. The purpose of said evaluation sessions shall be to, among other things, review Licensee's compliance to the terms and conditions of this License, and hear comments, suggestions or complaints from the public. The Issuing Authority shall provide the Licensee with sixty (60) days, advance written notice of such performance evaluation session.

7.7 Institutional Network

(a) The Licensee shall maintain, at its sole cost and expense, the coaxial Institutional Network, ("I-Net") existing on the effective date of this License, to be used by the Town and organizations designated by the Issuing Authority and by Licensee.

(b) The Town shall have unlimited use of the I-Net for noncommercial and governmental purposes over the channels used by and available to it as of the expiration of the Prior License.

(c) The I-Net shall be capable of carrying video, audio, text and data transmission(s) between the public buildings and the locations specified in Schedule 7.7 of this License. (d) The Licensee shall maintain the I-Net sites and origination points along the I-Net route listed in Schedule 7.7 of this License, attached hereto and made a part hereof. Licensee shall extend the I-Net to municipal or PEG buildings designated by the Issuing Authority during the term of this License at Licensee's actual cost of said extension, which shall be borne by the Town. Licensee shall disclose such costs prior to construction. Any additional drop requests shall require cost reimbursement by the Town for Licensee's actual costs for time and materials. Construction, installation and activation of each designated Drop and Outlet shall be completed within sixty (60) days of designation and design approval by the Town, for aerial Drops, and within ninety (90) days of designation and design approval by the Town, for underground Drops, weather permitting, or such later date as may be mutually agreed upon by the parties. The Licensee shall discuss the location of each connection with the appropriate officials in each of the buildings designated to receive a Drop or Outlet, prior to the installation of such a Drop or Outlet.

(e) The I-Net shall be interconnected with the Subscriber Network in order that signals originating from I-Net origination points can be sent upstream and then switched to a downstream Subscriber Network channel. There shall be no charge to the Town for such switching; however, the foregoing does not preclude Licensee from externalizing costs in accordance with applicable law. If a municipal or public school building is along the I-Net route and can be connected with a standard installation drop, Licensee shall interconnect said municipal or school building to the I-Net for the standard installation charge.

(f) The Licensee shall have the sole responsibility, at its sole cost and expense, for maintaining the I-Net for the term of this Renewal License, except for equipment not directly under its control, but including all necessary inspections and performance tests. The Licensee shall be responsible, at its sole cost and expense, for maintaining all existing switching of video signals between the Subscriber Network and the I-Net. Any future switching requirements would

be reviewed by the Licensee for feasibility and cost considerations and based on these factors, may require negotiation between the Licensee and the Issuing Authority in order to implement such future requirements.

(g) The I-Net shall be operated in compliance with the System Technical Specifications found in FCC Part 76, Subpart K, 76.601 et seq. In the event that there are technical problems with the I-Net, the Licensee and the Issuing Authority shall negotiate, in good faith, a resolution of any such problems. The Issuing Authority shall have the right to request a performance test of the I-Net, should such problems persist.

(h) The Licensee or its affiliate, Charter Business, shall negotiate with the Issuing Authority an extension of the existing Data Service Agreement for continued use by the Town of the Licensee's dedicated fiber network for a period of time coterminous with this License Renewal Agreement.

8 Conditions on Street Occupancy

8.1 General Conditions

Licensee shall have the right to utilize existing poles, conduits and other facilities subject to applicable law, and shall not construct or install any new, different, or additional poles, conduits, or other facilities on public property until the written approval of the Franchising Authority is obtained, which approval shall not be unreasonably withheld.

8.2 Underground Construction

Upon receiving due notice of the installation of telephone, electric and all other utility lines underground, the Licensee shall likewise place its facilities underground at its sole cost and expense unless a developer is installing or is otherwise required to install compatible cable. Underground cable lines shall be placed according to any Public Works Department or other Town or State by-law or regulation and in accordance with applicable state law. It is the policy of the Town that existing poles for electric and communication purposes be utilized wherever possible and that underground installation is preferable to the placement of additional poles; however, said underground construction shall be required only if and when it is required of all utilities and on the same street. When possible, Licensee shall be able to use the underground conduit maintained by the Town provided that such use is i) found by the Issuing Authority to be reasonable, ii) at the sole cost and expense of the Licensee, iii) does not interfere with the Town's use or anticipated use of said conduit(s), and iv) the Town has authority to allow such use. Any such use by the Licensee shall be subject to the advance notification and approval of the Town and the right of the Town to supervise any such use. Licensee shall maintain membership and participate in the Massachusetts "DIG-SAFE" program pursuant to MGL c.82, §. 40.

The Franchising Authority shall cooperate with the Licensee by conducting permitting proceedings in accordance with applicable law.

8.4 System Construction

All transmission lines, equipment and structures shall be so installed and located as to cause minimum interference with the rights and reasonable convenience of property owners and at all times shall be kept and maintained in a safe, adequate and substantial condition, and in good order and repair. The Licensee shall, at all times, employ reasonable care and use commonly accepted methods and devices for preventing failures and accidents which are likely to cause damage, injuries, or nuisances to the public. Suitable barricades, flags, lights, flares or other devices shall be used at such times and places as are reasonably required for the safety of all members of the public. Any poles or other fixtures placed in any public way by the Licensee shall be placed in such a manner as not to interfere with the usual travel on such public way.

8.5 Restoration of Streets

Whenever the Licensee takes up or disturbs any pavement, sidewalk or other improvement of any public way or public place, it shall be replaced and the surface restored to essentially as good a condition as before entry but to such standards required of utilities operating within the Town and as soon as practicable. If the Licensee fails to make such restoration within a reasonable time, the Town may fix a reasonable time and notify the Licensee in writing of the required restoration and the time for performance. Upon failure of the Licensee to comply within the time specified, the Town may make or contract for restoration and repairs and the reasonable and itemized expenses of such work shall be paid by the Licensee upon demand by the Town. Any damages to private property shall be determined in accordance with M.G.L. c. 166A, § 22 and applicable law.

8.6 Removal in Emergency

If, at any time, in case of fire or disaster in the Town, it shall become necessary in the exercise of police powers of the Issuing Authority or any public safety or other designated public official, to cut or move any of the wires, cables, amplifiers, appliances or appurtenances of the Cable System, the Town shall have the right, within its police power, to do so at the sole cost and expense of Licensee. In such case, the Town shall notify Licensee of the cables which have been cut or removed.

8.7 Tree Trimming

In the installation, maintenance, operation and repair of the poles, cables, wires and all appliances or equipment of the cable system, the Licensee shall avoid damage to trees whether on public or private property in the Town and shall cut or otherwise prune such trees only to the least extent necessary. No cutting of tree on Town property shall be done except upon a permit in writing from the Town Department of Public Works or other appropriate municipal official or in accordance with the applicable regulations or requirements of the Town. Licensee shall secure the permission of the property owner prior to reasonable tree trimming of trees on private property.

8.8 Relocation for the Franchising Authority

The Licensee shall, at its expense, temporarily or permanently relocate any part of the Cable System when required by the Town for good reasons which are within the Town's police power, such as public safety, street construction, change or establishment of street grade or layout, installation of sewers, drains, water pipes, power or signal lines, setting of new or replacement utility poles and the construction of any public improvement or structure. In this respect, the Licensee shall be treated on par with any affected utilities.

It is further agreed that in no instance shall the total combined payments of all licensed cable operators in the Town exceed the following amounts during the term of this License: \$126,500 for the period March 1, 2009 through February 28, 2010; \$130,000 for the period March 1, 2010 through February 2011; \$133,900 for the period March 1,

2011 through February 28, 2012: \$137,900 for the period March 1, 2012 through February 28, 2013; and \$142,000 for the balance of the term being the period from March 1, 2013 through the Expiration date, prorated in proportion to the length of said final period (\$142,000 multiplied by a fraction equal to the number of days in the remainder of the license term divided by 365). In the event that the total combined payments from all licensed cable operators in the Town exceeds the foregoing amounts for said particular years as set forth above, the excess amount will be credited against the required payments by Licensee(s) for the subsequent year subject to and in accordance with the worksheet and procedures set forth in Exhibit 13.4. It is provided, however, that in any future year, if Licensee's total franchise fee payments exceed five percent (5%) of Licensee's Gross Annual Revenues, such payments shall be reduced proportionately in order that they not exceed the 5% limit set out under federal law. The foregoing five percent (5%) cap shall apply to the annual aggregate of annual payments for the PEG Access as required under this paragraph and payments to the Issuing Authority and State pursuant to M.G.L. c. 166A, § 9, and the intent hereof is to codify the Cable Act 5% cap on payments within the Cable Act definition of subject franchise fees; however, payments for PEG Access equipment, facilities and capital payable under Section 13.5 shall not be counted toward said 5% cap.

(b) Consistent with Section 622(h) of the Cable Act, any Person, including a Leased Access User, who or which distributes any Service over the Cable System for which charges are assessed to Subscribers but not received by the Licensee, shall pay an amount equal to five percent (5%) of such Person's Gross Annual Revenues. The Licensee shall notify any such Person of this five percent (5%) payment requirement and shall notify the Issuing Authority and the Access Designee of such use of the Cable System by such Person(s). The Licensee's responsibility under this Section ceases upon the Licensee's completion of the notifications required under this subsection.

(c) In the event that the payments required of Licensee under this Article 13 are not tendered on or before the dates fixed herein, interest due on such payments shall accrue from the date due at the rate of one percent (1%) above the Prime Rate.

(d) Licensee shall externalize and line-item the payments including, but not limited to, the computation, collection, interest paid on and/or allocation of any such costs, as permitted under Federal law.

13.5 Public, Educational and Governmental Access Equipment/Facilities Fund

(a) No later than sixty days from the date the License has been signed by both parties, the Execution Date, the Licensee shall make a facilities and equipment payment to the Issuing Authority or the Access Designee, as directed by the Issuing Authority in writing, in the amount of \$50,000.00, with an additional payment of \$30,000.00 to be made on the first anniversary of the Execution Date, and final payment of \$20,000.00 to be made on the second anniversary of the Execution Date.

(b) In the event that applicable state and/or federal laws and/or regulations allow the Licensee to externalize, line-item and/or otherwise pass-through such capital/equipment costs to Subscribers, the Licensee may only do so, including, but not limited to, the computation, collection, interest paid on and/or allocation of any such costs, strictly in compliance with said laws and/or regulations.

(c) Under no circumstances shall said capital/equipment payments be counted against the annual funding payable to the Access Designee pursuant to Section 13.4 above.

(e) In the event that the equipment payments required herein are not tendered to the Access Designee within thirty (30) days of the dates fixed herein, interest due on such equipment payments shall accrue from the date due at the rate of one percent (1%) above the Prime Rate.

(f) The annual and capital payments for access provided pursuant to this Article 13 shall be payable either to the Access Designee so designated by the Issuing Authority, if so directed in writing by the Issuing Authority, or into a restricted account, restricted to use for PEG Access purposes, and not payable for general fund purposes, if and to the extent authorized by the Issuing Authority in accordance with applicable law.

13.6 Recomputation

(a) No acceptance of any franchise fee payment by the Franchising Authority shall be construed as an accord and satisfaction that the amount paid is in fact the correct amount or a release of any claim that the Franchising Authority may have for further or additional sums payable under this Agreement, and all amounts paid shall be subject to audit and recomputation of the Franchising Authority. The audit period shall cover no more than the previous three (3) years.

13.7 Equipment Ownership and Maintenance

The Town and/or the Access Designee, as determined by the Issuing Authority, shall own all PEG Access equipment purchased with funding pursuant to Section 13.5 including such equipment provided for PEG purposes under the Prior License. The Licensee shall have no obligation, to maintain, insure, replace or repair any such PEG Access equipment. Any Access Designee use of such equipment shall be subject to the Access Designee first ensuring customary liability insurance for use of said equipment for PEG access and related purposes. Licensee shall be responsible for three PEG Access channel(s) video origination site modulators.

13.8 Editorial Control

(a) Neither the Licensee nor the Issuing Authority may engage in any editorial control of the content of the access programming on the Cable System, except as otherwise required or permitted by applicable Law. In furtherance thereof, the Town will require program producers to assume individual responsibility for any program-based liability, subject to the Cable Act, FCC requirements or other applicable law. Nothing herein shall be construed to limit the Licensee's right or ability to cablecast local programming at the Licensee's sole discretion.

(b) It is the intent hereof that individual public access producers be responsible for the content of their own programming, acts and omissions and that neither the Town, the Licensee nor the Access Designee shall be liable for the foregoing individual public access potential liabilities. Further, the parties acknowledge that the Access Designee shall require individual producers to sign User Forms acknowledging individual producer responsibility for producer public access programming and that the Access Designee shall adopt guidelines or rules relevant to programming to the extent consistent with applicable law.

(c) Consistent with the current underwriting standards for non-commercial television stations, notices of support and underwriting may be permitted on the access Channel(s).

13.9 Access Designee

(a) In order that the Access Designee can cablecast its Programming over the PEG Access Downstream Channels, each PEG channel shall be modulated (subject to negotiations upon review of locations), then transmitted from the locations as listed in Schedule 7.7 hereto, including the Access Designee studio, to the Cable System Headend or Hub, on an Upstream Channel, with one such upstream channel for each PEG access channel, made available, without charge, to the Town and the Access Designee for their use. Town will provide portable or fixed modulators as needed at origination sites and Licensee will provide any other necessary equipment. Licensee will assist town in testing modulators if needed.

(b) The Licensee shall ensure that PEG Access Programming is sent from the origination locations to the subscriber in an efficient and timely manner at no charge to the Issuing Authority or its Access Designee.

(c) The Licensee shall provide and maintain all necessary processing equipment in the Cable System Headend and hub site in order to switch Upstream Signals from the Access Designee to the designated Downstream Access Channel, so long as such switching occurs within the Town of Northborough and does not require switching to neighboring towns. Nothing herein shall require the Licensee to provide end-user equipment, however, Licensee shall continue to be responsible for providing and maintaining the modulators and demodulators (or equivalent technology and capability) for access channel use as provided as of the expiration of the Prior License.

14 Enforcement or Revocation

14.1 Determination of Breach and Penalties

(a) In the event that the Issuing Authority has reason to believe that the Licensee has defaulted in the performance of any material provision of this Renewal License, except as excused by force majeure, the Issuing Authority shall notify the Licensee in writing, by certified mail, of the provision or provisions of which the Issuing Authority believes Licensee to be in default and the details relating thereto. The Licensee shall have thirty (30) days from the receipt of such notice to:

- i) Respond to the Issuing Authority in writing, contesting the Issuing Authority's assertion of default and providing such information or documentation as may be necessary to support the Licensee's position; or
- ii) Cure any such default within thirty (30) days of notice thereof, or, in the event that by nature of the default, such default cannot be cured within such thirty (30) day period, to take reasonable steps to cure said default and diligently continue such efforts until said default is cured.

(b) In the event that the Licensee fails to respond to such notice of default, to cure the default or to take reasonable steps to cure the default, the Issuing Authority shall promptly schedule a public hearing no sooner than fourteen (14) days after a determination has been made by the Issuing Authority that Licensee has not appropriately responded, cured, nor taken appropriate measures to attempt to cure the default, and written notice, by certified mail, of such has been delivered to the Licensee. The Licensee shall be provided reasonable opportunity to offer evidence and be heard at such public hearing. If the Issuing Authority determines after public hearing that a continuing state of default exists, and that its cure is unlikely or untimely, Issuing Authority may determine to pursue any of the remedies available to it under law.

(c) Within thirty (30) days after said public hearing, the Issuing Authority shall determine whether or not the licensee is in default of any provision of the Renewal License. In the event that the Issuing Authority, after public hearing, determines that a continuing state of default exists and that its cure is unlikely or untimely, the Issuing Authority may determine to pursue one of the following:

- (i) seek specific performance of any provision in this Renewal License which reasonably lends itself to such remedy as an alternative to damages;
- (ii) foreclose on all or any appropriate part of the security (performance bond) provided pursuant to sec. 4.3 herein;
- (iii) declare the Renewal License to be revoked subject to Sec. 14.3 below and applicable law
- (iv) invoke any other lawful remedy available to the Town.

(d) For the violation of any of the following provisions of this Renewal License, Penalties shall be paid by the Licensee to the Issuing Authority, subject to subsections (a) through (c) above. Any such penalties shall be assessed as of the date the Licensee receives written notice, by certified mail, of the provision or provisions which the Issuing Authority believes are in default.

14.2 Abandonment

(a) Licensee shall comply with Section 627 of the 1984 Cable Act, 47 U.S.C. 547, with respect to proceedings upon expiration or revocation.

(b) Licensee shall comply with M.G.L. ch. 166A, s. 5(f) with respect to removal and abandonment.

Annual payments to the Access Designee are subject to Annual Payment Caps in the amounts set forth in Section 13.4 above, and payments in excess of the caps shall be credited to Charter and Verizon if calculated pursuant to the following worksheet and the instructions herein.

Summary of How to Implement the Annual Payment Cap Worksheet

By way of brief summary, the worksheet requires 1) adding annual Charter and Verizon PEG Access annual payments for a PEG payment year, commencing March 1, 2009 through February 28, 2010; 2) subtracting the amount of the annual cap for that year (with the cap amount as specified in License Section 13.4); and 3) if the annual payment was greater than the cap amount for that year ("the Surplus"), each Licensee is entitled to a credit against the next year's payment, with the Surplus (if any) divided between Charter and Verizon in proportion to the number of subscribers each had as of February 28th of the year subject to the calculation.

The Worksheet

A. Charter's annual PEG payment for PEG Payment Year 1
March 1, 2009 – February 28, 2010 as certified in writing by Charter
and as reasonably verified by Access Designee = \$ _____

*(Note: For subsequent years during the Charter License,
substitute the subsequent PEG Payment Year, e.g., March 1, 2010
through February 28, 2011; March 1, 2011 through February 28, 2012, etc.)*

B. Verizon's annual PEG Payment for PEG Payment Year 1
March 1, 2009 - February 28, 2010 [the sum of 4 quarterly payments]
as certified in writing by Verizon = \$ _____
And as reasonably verified by Access Designee

*(Note: For subsequent years during the Verizon License,
substitute the subsequent PEG Payment Year, e.g., March 1, 2010
through February 28, 2011; March 1, 2011 through February 28, 2012, etc.)*

C. Charter & Verizon combined/total annual PEG Payments
For PEG Payment Year 1 (add lines A + B) = \$ _____

D. Annual PEG Payment Cap for Year (from License Section 13.4*) = \$ _____
*Year 1 cap: \$126,500; Yr 2 cap: \$130,000, Yr 3 cap: \$133,900 Yr 4 cap: \$137,900
Yr 5 cap: \$142,000

E. Surplus = Line C [Charter/Verizon combined payments]
Minus Line D [Annual Cap] = Total Surplus Amount, if any; = \$ _____

F. Allocation of Total Surplus Amount, if any (Line E) shall
be in proportion to the number of subscribers each Licensee had
as of February 28 of the applicable year, as follows:

Total number of Charter subscribers on Feb. 28 of applicable year: _____

Total number of Verizon subscribers on Feb 28 of applicable year: _____

Charter subscribers as a % of total subscribers: ____%

Verizon subscribers as a % of total subscribers: ____%

Charter share of surplus = Total Surplus X Charter % = \$__

Verizon share of surplus = Total Surplus X Verizon % = \$__

Notes on Implementation

Note: Licensee's eligibility for an allocated portion of the Surplus (if any) calculated above shall be subject to said Licensee providing a certified statement to the Access Designee, copied to the Issuing Authority, stating the number of Licensee's subscribers as of the end of each franchise fee year under the cap, being February 28 of each year; and stating the annual PEG payment made to the Town or Access Designee during the subject year, including any reporting of the categories of revenue sources as may be required pursuant to its License from the Town of Northborough, with all of the foregoing subject to reasonable verification by the Issuing Authority and its Access Designee, and subject to the Issuing Authority or its Designee providing Licensee with a copy of the above worksheet showing the amount of the credit due to Licensee for its share of the surplus, if any. Said allocated surplus, if any, shall be taken by the Licensees in the form of a credit against the next annual PEG payment (or quarterly PEG payment if applicable) due from Licensee to the Town, subject to its making such next payment accompanied by a statement to the Town indicating the amount of any such credit taken. The parties agree to cooperatively work together as reasonably needed to implement the foregoing to resolve disputes and/or questions the parties may have, and in the event of any unresolved dispute, the parties agree to seek mediation of the matter at no charge to either party from the Massachusetts Department of Telecommunications and Cable or such other mediator as may be available at no charge to the parties, and subject further to the Issuing Authority and Access Designee reserving such rights as they may have to audit payments to the Town or to the Access Designee.

Note on implementation of worksheet for final year of license which is less than twelve months. For the period March 1, 2013 through the expiration of the license (October 16, 2013), payments of the Licensee shall be properly prorated to determine the amount paid to the Town or its Access Designee for said period, and the cap for said final period shall likewise be properly prorated by multiplying said final year cap by a fraction the denominator of which shall be 365, the numerator of which shall be the number of days from March 1, 2013 to the expiration of this License. The Worksheet for said final license year shall use the foregoing annual payments and annual payment caps as prorated, and the surplus shall, if any shall be in proportion to the subscribers Charter and Verizon have as of the last day of the Charter license.

14.3 Enforcement

Subject to applicable federal and state law, in the event the Franchising Authority, after the hearing set forth in subsection 14.1 above, determines that the Licensee is in default of any provision of the Franchise, the Franchising Authority may:

- A. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages; or
- B. Commence an action at law for monetary damages or seek other equitable relief; or
- C. In the case of a default of a material provision of the Franchise, seek to revoke the Franchise itself in accordance with subsection 14.2 above.

No decision by the Issuing Authority or the Town to invoke any remedy under this License or under any statute, law or ordinance shall preclude the availability of injunctive relief or revocation remedies available under applicable laws.

14.4 No Waiver – Cumulative Remedies

(a) No failure on the part of the Issuing Authority, the Town nor the Licensee to exercise, and no delay in exercising, any right in this Renewal License shall operate as a waiver thereof, nor shall any single or partial exercise of any such right preclude any other right, all subject to the conditions and limitations contained in this Renewal License.

(b) The payment of damages for violations under this License shall not be deemed to excuse Licensee from having to cure the violation, if said violation is reasonably established in accordance with law and the matter is reasonably subject to cure.

(c) Failure of the Town to enforce the performance of any term of this License shall not be deemed a waiver of its right to insist upon the subsequent performance of that term. With respect to non-performance of Licensee obligations not involving monetary payments or actual provision of materials and equipment, the failure to enforce performance for a significant period of time and the lack of complaint concerning same, shall be deemed a factor relevant to mitigating the assessment of the amount of damages, if any, for such non-performance.

15 Miscellaneous Provisions

15.2 Action of Parties

In any action by the Franchising Authority or the Licensee that is mandated or permitted under the terms hereof, such party shall act in a reasonable, expeditious and timely manner. Furthermore, in any instance where approval or consent is required under the terms hereof, such approval or consent shall not be unreasonably withheld.

15.6 Acts or Omissions of Affiliates

During the term of the Renewal License, the Licensee shall be liable for the acts or omission of its Affiliates while such Affiliates are involved directly or indirectly in the construction, installation, maintenance or operation of the Cable System as if the acts or omissions of such Affiliates were the acts or omissions of the Licensee.

All agreements, covenants, representations and warranties, express and implied, oral and written, of the parties with regard to the subject matter hereof are contained herein.
