

## Notice of Proposed Agency Action

**SUBJECT:** MassHealth: Payment for Out-of-State Acute Hospital Services, and In-State Acute Hospital Services, effective October 1, 2014

**AGENCY:** Massachusetts Executive Office of Health and Human Services (EOHHS), Office of Medicaid

### Introduction

*Part I* of this Notice describes and summarizes proposed changes in MassHealth payment for services provided by out-of-state acute hospitals, effective October 1, 2014 (see Attachment A to Part I for out-of-state acute hospital rates, effective October 1, 2014). *Part II* of this Notice describes and summarizes proposed changes in MassHealth payment for services provided by in-state acute hospitals, effective for rate year 2015 (RY2015) which begins October 1, 2014. A complete description of the RY2015 MassHealth in-state acute hospital inpatient and outpatient payment methods and rates is attached to Part II (see Attachment B for RY2015 in-state acute hospital rates). For further information regarding MassHealth acute hospital payment methods and rates, you may contact Kiki Feldmar at the Executive Office of Health and Human Services, MassHealth Office of Providers and Plans, 100 Hancock Street, 6th Floor, Quincy, MA 02171, or by email at [kiki.feldmar@state.ma.us](mailto:kiki.feldmar@state.ma.us).

### PART I: Proposed Changes in Out-of-State Acute Hospital Payment Methods

#### **1. Out-of-State Acute Hospital Inpatient Services**

Except as provided in Section 3 of Part I, below (Services Not Available In-State), payment to out-of-state acute hospitals for inpatient services will be based on new payment methods as follows. These methods are effective for admissions on or after October 1, 2014, unless otherwise specified.

- Out-of-state acute hospitals will be paid an adjudicated payment amount per discharge (“Out-of-State APAD”), which will cover the MassHealth member’s entire acute inpatient stay from admission through discharge. The 20-day coverage limit in effect prior to October 1, 2014, for members 21 years of age or older will be eliminated. The discharge-specific Out-of-State APAD will equal the sum of the statewide operating standard per discharge and the statewide capital standard per discharge both as in effect for in-state acute hospitals, multiplied by the MassHealth DRG Weight<sup>1</sup> assigned to the discharge by MassHealth using information contained on a properly submitted inpatient claim.
- For qualifying discharges, out-of-state acute hospitals will also be paid an outlier payment in addition to its Out-of-State APAD if the calculated cost of the discharge, as determined by MassHealth, exceeds the discharge-specific outlier threshold (“Out-of-State Outlier Payment”). The Out-of-State Outlier Payment is equal to the marginal cost factor in effect for in-state acute hospitals multiplied by the difference between the calculated cost of the discharge and the discharge-specific outlier threshold, as determined by MassHealth. The “calculated cost of the discharge” equals the out-of-state acute hospital’s allowed charges for the discharge, as determined

---

<sup>1</sup> The MassHealth DRG Weight is the MassHealth relative weight determined by EOHHS for each unique combination of All Patient Refined-Diagnostic Related Group (APR-DRG) and severity of illness.

by MassHealth, multiplied by the applicable inpatient cost-to-charge ratio. For High MassHealth Volume Hospitals,<sup>2</sup> the cost-to-charge ratio is hospital-specific; for all other out-of-state acute hospitals, the median in-state acute hospital inpatient cost-to-charge ratio in effect, based on MassHealth discharge volume, is used. The “discharge-specific outlier threshold” equals the sum of the hospital’s Out-of-State APAD for the discharge, and the fixed outlier threshold in effect for in-state acute hospitals.

- For MassHealth members transferred to another acute hospital, the transferring out-of-state acute hospital will be paid at a transfer per diem rate (“Out-of-State Transfer Per Diem”), and no other payment methods will apply. The Out-of-State Transfer Per Diem will equal the sum of the transferring hospital’s Out-of-State APAD plus, if applicable, any Out-of-State Outlier Payment that would have otherwise applied for the period that the member was an inpatient at the transferring hospital as calculated by MassHealth, divided by the mean in-state acute hospital all payer length of stay for the particular APR-DRG assigned, as determined by MassHealth. Payments made on an Out-of-State Transfer Per Diem basis are capped.
- Effective for dates of service on or after October 1, 2014, if an out-of-state acute hospital admits a MassHealth patient primarily for behavioral health services, the out-of-state acute hospital will be paid an all-inclusive psychiatric per diem equal to the psychiatric per diem in effect for in-state acute hospitals, and no other payment methods apply.

## **2. Out-of-State Acute Hospital Outpatient Services**

The out-of-state acute hospital payment method for outpatient services is not changing. Except as provided in Section 3 of Part I, below, out-of-state acute hospitals will continue to be paid a payment per episode of care equal to the median outpatient payment amount per episode (“PAPE”) in effect for in-state acute hospitals on the date of service for those same services, based on episode volume, as determined by EOHHS, or according to the applicable fee schedules in regulations adopted by EOHHS for services for which in-state acute hospitals are not paid the PAPE.

## **3. Services Not Available In-State**

This payment method is not changing. For medical services MassHealth determines are not available in-state, an out-of-state acute hospital that is not a High MassHealth Volume Hospital will be paid the rate of payment established for the medical service under the other state’s Medicaid program, as determined by MassHealth, or such other rate as MassHealth determines is necessary to ensure member access to services. For an inpatient service MassHealth determines is not available in-state, payment to the out-of-state acute hospital under this method will also include acute hospital outpatient services MassHealth determines are directly related to the service not available in-state.

---

<sup>2</sup> An out of state “High MassHealth Volume Hospital” is one that had at least 150 MassHealth discharges during the most recent federal fiscal year for which complete data is available, as determined by MassHealth at least 90 days prior to the start of the federal fiscal year.

**ATTACHMENT A**

**Out-of-State Acute Hospital Rates**

Effective October 1, 2014, out-of-state acute hospital rates are as follows:

**I. INPATIENT:**

<b>Components of Out-of-State APAD, Outlier Payment, Transfer Per Diem Rates</b>									<b>Other</b>
	1. In-state Statewide Operating Standard Per Discharge	2. In-state Statewide Capital Standard Per discharge	Sum of Columns 1 and 2	MassHealth DRG Weight*	In-State Marginal Cost Factor	Cost-to- Charge Ratio	In-State Fixed Outlier Threshold	Mean In- State All- Payer Length of Stay*	Out-of- State Psych Per Diem
<b>High MassHealth Volume Hospitals:</b>									
Women and Infants' Hospital (RI)	\$9,309.45	\$637.04	\$9,946.49	See Chart 1*	80%	38.00%	\$24,000	See Chart 1*	\$869.84
Rhode Island Hospital	\$9,309.45	\$637.04	\$9,946.49	See Chart 1*	80%	35.00%	\$24,000	See Chart 1*	\$869.84
<b>All Other Out-of-State Acute Hospitals**</b>	\$9,309.45	\$637.04	\$9,946.49	See Chart 1*	80%	46.80%	\$24,000	See Chart 1*	\$869.84

\* See Chart 1 for the RY15 MassHealth DRG Weights and Mean All-Payer Lengths of Stay.  
Click here: [Chart 1-Acute Hospital RY2015 MassHealth DRG Weights and Mean All-Payer Lengths of Stay](#)

**II. OUTPATIENT PAPE:**

**All Out-of-State Acute Hospitals:\*\*** Out-of-State Payment Amount Per Episode -- \$300.43.

\*\* For medical services payable by MassHealth that MassHealth determines are not available in-state, out-of-state acute hospitals that are not High MassHealth Volume Hospitals will be paid as described in Section 3 of Part I of this Notice, above.

## **PART II: Proposed Changes in In-State Acute Hospital Payment Methods**

### **1. In-State Acute Hospital Inpatient Services**

#### **A. Summary of Proposed Rate Year 2015 (RY15) In-State Methodology for Calculating the Adjudicated Payment Amount per Discharge (APAD) and other Inpatient Hospital Service Payments**

During RY15, the payment methods that will apply to in-state acute hospitals for inpatient services are as follows.

Except as otherwise indicated for Critical Access Hospitals (see below), in-state acute hospitals will be paid an adjudicated payment amount per discharge (“APAD”), which is an all-inclusive facility payment that will cover the MassHealth member’s entire acute inpatient stay from admission through discharge. The discharge-specific APAD is determined by the following steps: (1) adding the statewide operating standard per discharge, adjusted for the hospital’s wage area, to the statewide capital standard per discharge, (2) multiplying that sum by the MassHealth DRG Weight assigned to the discharge by MassHealth using information contained on a properly submitted inpatient claim, (3) adding to that product a Hospital-specific per discharge “pass-through” payment for malpractice and organ acquisition costs, and (4) adjusting that result, if applicable, by the hospital’s per discharge percentage payment reduction for potentially preventable readmissions (PPRs).

- The statewide operating standard per discharge is derived from the statewide average hospital cost per admission using federal fiscal year (FFY) 2012 data, standardized for casemix differences and area wage variation. An efficiency standard is determined by capping hospital costs, weighted by FFY13 MassHealth discharges, at the 65% level of costs. The statewide average is adjusted for inflation and outliers. Costs EOHHS determines are routine outpatient costs associated with admissions from the emergency department and routine and ancillary outpatient costs resulting from admissions from observation status are included in the calculation of the statewide average hospital cost per admission. For each hospital, this statewide average is then adjusted for each hospital’s wage area index. Direct pass-through costs (malpractice and organ acquisition) are excluded from the statewide average and efficiency adjustments.
- The statewide capital standard per discharge is derived from the statewide weighted average hospital capital cost per discharge using FFY 2012 data, standardized for casemix differences. An efficiency standard is determined by capping hospital casemix-adjusted capital costs, weighted by FFY13 MassHealth discharges, at the 50% level of costs. Each hospital’s capital cost per discharge was then held to the lower of its capital cost per discharge or the casemix-adjusted efficiency standard, and a statewide weighted average capital cost per discharge is calculated, and adjusted for inflation to the current year to produce the statewide capital standard per discharge.

- The MassHealth DRG Weight is the MassHealth relative weight determined by EOHHS for each unique combination of APR-DRG and severity of illness, using the 3M APR-DRG grouper version 30 and Massachusetts weights.
- The inpatient portion of hospital-specific costs for malpractice insurance and organ acquisition are treated as “pass-throughs” and are derived from the hospital’s FFY 2013 -403 Cost Report. The hospital-specific pass-through payment amount per discharge that is included in a hospital’s APAD calculation is derived by dividing the hospital’s inpatient portion of those costs by the hospital’s total volume of all-payer days, which is based on FFY12 data obtained by the Center for Health Information and Analysis (CHIA), and then multiplying the resulting cost per diem by the hospital-specific FFY13 MassHealth average length of stay, which is based on data obtained from Medicaid Management Information System (MMIS).
- Each hospital with an actual PPR volume which exceeds its expected PPR volume will be subject to a per-discharge percentage payment reduction, up to a maximum of 4.4%. The reduction will be proportional to the hospital’s ratio of excess PPR volume to its total discharge volume. The calculation also includes a multiplier of 3 as an incentive for hospitals to reduce PPRs. The per-discharge percentage reduction is partially offset if the hospital improved its PPR rate from its RY14 PPR rate.

For qualifying discharges, in-state acute hospitals will also be paid an outlier payment in addition to the APAD if the calculated cost of the discharge (the “discharge-specific case cost”), exceeds the discharge-specific outlier threshold. The outlier payment is calculated by multiplying the marginal cost factor of 80%, by the difference between the discharge-specific case cost and the discharge-specific outlier threshold. The discharge-specific case cost equals the hospital’s allowed charges for the discharge, as determined by MassHealth, multiplied by the hospital’s FFY13 inpatient cost-to-charge ratio. The discharge-specific outlier threshold is the sum of the hospital’s pre-adjusted APAD for the discharge (the amount prior to any PPR reduction), and the fixed outlier threshold, which is \$24,000.

EOHHS pays acute hospitals on a per diem basis under certain circumstances. Inpatient services delivered to individuals who transfer among hospitals or among certain settings within a hospital, are paid on a transfer per diem basis. The transfer per diem will equal the sum of the transferring hospital’s total case payment amount, calculated by MassHealth using the APAD and, if applicable, outlier payment methodologies corresponding to the period for which the hospital is being paid on a transfer per diem basis, divided by the mean acute hospital all payer length of stay for the particular APR-DRG assigned. Transfer per diem payments are subject to a total transfer case payment cap.

Psychiatric services delivered in DMH-licensed psychiatric beds of acute hospitals are paid an all-inclusive statewide psychiatric per diem rate and acute hospitals are paid a rehabilitation per diem rate for services delivered in Rehabilitation Units. Administrative days are also paid a per diem rate.

Final payment to Critical Access Hospitals will be calculated to provide an amount equal to 101% of the Critical Access Hospital’s allowable costs as determined by EOHHS utilizing the Medicare

cost-based reimbursement methodology for both inpatient and outpatient services. Interim inpatient APAD, Outlier Payment and Transfer per Diem rates, and interim outpatient PAPE rates, will be paid to Critical Access Hospitals, which are calculated generally to approximate 101% of such costs utilizing the hospitals' FFY2013 -403 cost reports, and which are subject to final settlement. There is no adjustment for PPRs.

## **B. Summary of Proposed Changes**

The RY15 payment methods for in-state acute inpatient hospital services include the following changes from the RY14 payment methods:

- (1) In place of a hospital's single standard payment amount per discharge (SPAD) or Pediatric SPAD, which covered the first twenty days of an admission, each Hospital will be paid an APAD, which will reflect the case weight assigned to that specific discharge and will cover the entire length of the acute stay from admission to discharge.
- (2) For qualifying discharges, a Hospital will also be paid a discharge-specific Outlier Payment in addition to the APAD, if certain cost thresholds are met. Outlier Payments will apply to the entire length of the acute stay and to members of all ages, rather than hospitals being paid an outlier per diem for days beyond 20 days of an admission for members under 21 only.
- (3) Transfer per Diem rates will now be calculated based on the APAD (and Outlier Payment, if applicable) amounts corresponding to the specific case.
- (4) To calculate the APAD:
  - The base year (APAD Base Year) for the inpatient statewide operating and capital standards per discharge was updated to FFY12, and inflation applied for price changes between RY12 and RY15.
  - The inflation factor applied for price changes between RY14 and RY15 was 1.611% for operating costs and 1.5% for capital costs.
  - The 3M APR-DRG Grouper was updated to version 30.
  - The MassHealth DRG Weight for a specific discharge will be based on information included on a properly submitted claim and determined using the 3M APR-DRG Grouper and Massachusetts weights; these weights were updated using more recent MMIS claims data and all-payer hospital discharge data.
- (5) The 20-day coverage limitation for members aged 21 or older will be eliminated.
- (6) The PPR methodology is unchanged, but the per discharge percentage payment reduction will be applied against the total case payment amount for the discharge (which would include Outlier Payments, if applicable). The adjustments also apply when calculating the transfer per diem rates and the total transfer payment cap.
- (7) For reported provider preventable conditions (PPCs), if non-PPC-related services are also provided during the same inpatient admission, payment will be adjusted to remove PPC-related

costs/services for APAD, Outlier Payment and Transfer per Diem claims, including such claims from the same hospital for related follow-up care.

- (8) The non-payment method for serious reportable events (SREs) has been updated to reflect the changes to the new APAD methodology, and to clarify that non-payment for SREs also applies to administrative day (AD) per diems.
- (9) The median nursing facility rate utilized in the calculation of the administrative day (AD) per diem rate was updated, and an inflation update of 1.611% was applied.
- (10) An inflation update of 1.611% was applied to the psychiatric per diem rate.
- (11) The RY15 median Rehabilitation Hospital rate was used for the per diem for Acute Hospital Rehabilitation Units.
- (12) The two hospitals first enrolled in November 2012 will be paid using the same methodology as all other hospitals.

## **2. In-State Acute Hospital Outpatient Services**

### **A. Summary of Proposed Rate Year 2015 (RY15) In-State Methodology for Calculating the Payment Amount per Discharge (PAPE) and other Outpatient Hospital Service Payments**

The Payment Amount Per Episode (PAPE) methodology establishes a hospital-specific episodic rate for most MassHealth acute outpatient hospital services. Except for Critical Access Hospitals, each hospital-specific RY15 PAPE is a blended rate that equally weights the hospital's RY14 PAPE in effect on 9/30/14 and the preliminary RY15 PAPE determined as described below; provided, however, that no hospital's RY15 PAPE shall be less than 90% of the hospital's RY14 PAPE in effect on September 30, 2014.

The hospital-specific preliminary RY15 PAPE is based on an outpatient standard payment adjusted for hospital-specific casemix. Certain services, including laboratory services, are carved out of the PAPE calculation and payment. Laboratory and other carve-out services are paid for in accordance with the applicable fee schedules in regulations adopted by EOHHS.

Calculation of the outpatient statewide standard is based on MassHealth payments for outpatient services in the PAPE Base Year, as adjusted by (1) including outlier payments, (2) excluding payments for laboratory services, and (3) bundling only services received on the same day. The result of this calculation is adjusted for inflation to obtain the outpatient statewide standard for Hospital Rate Year 2015. The hospital-specific preliminary RY15 PAPE is determined by multiplying the outpatient statewide standard by each hospital's casemix index calculated by EOHHS.

Payment to Critical Access Hospitals for services for which a PAPE is paid will be calculated based on the methodology described in Part II, Section 1.A., above.

## **B. Summary of Proposed Changes**

The RY15 payment method for in-state acute outpatient hospital services includes the following changes from the RY14 payment method:

- (1) The RY15 PAPE is an equal blend of the Hospital's RY14 PAPE and the preliminary RY15 PAPE calculation; provided that, no Hospital's RY15 PAPE shall be less than 90% of its RY14 PAPE.
- (2) To calculate the preliminary RY15 PAPE, an inflation update of 1.611% for operating costs was applied.
- (3) The RY15 PAPE for the two hospitals first enrolled in November 2012 will be calculated using the same methodology as that of the other acute hospitals.

## **3. In-State Supplemental Hospital Payments**

In addition to the payments specified above, EOHHS makes supplemental payments to certain qualifying in-state hospitals. The state plan supplemental payment methods to hospitals that qualify as Essential MassHealth Hospitals, Acute Hospitals with High Medicaid Discharges (outpatient payment method), High Medicaid Volume Freestanding Pediatric Acute Hospitals, and Hospitals with High Volume Neonatal and Pediatric Intensive Care Unit (ICU) Services are substantially similar to the RY14 supplemental payment methods, as are the payment methods for the Disproportionate Share Hospital (state-defined) Supplemental Payment<sup>3</sup>, Freestanding Pediatric Acute Hospital High Complexity Supplemental Payment, and Pediatric Specialty Unit High Complexity Supplemental Payment, except that payments will be based on more recent data (FFY14).

Proposed RY15 changes include the following:

- Disproportionate Share Hospital (state-defined) Behavioral Health Services Supplemental Payment-- EOHHS will make a supplemental payment in the aggregate amount of \$12,307,769 to qualifying state-defined disproportionate share hospitals that provide behavioral health services to MassHealth members in FFY14. The amount paid to each qualifying hospital will be based on a formula which has an emphasis on pediatric and adolescent members. This is a new supplemental payment method.
- Acute Hospitals with High Medicaid Discharges Supplemental Payment -- the inpatient payment method to qualifying hospitals will be the lower of (1) the variance between the hospital's inpatient Medicaid payments and costs, or (2) the Hospital's Health Safety Net Trust Fund-funded payment amount.

---

<sup>3</sup> A state-defined disproportionate share hospital is a hospital that received more than 63% of its gross patient service revenue in FFY13 from government payers and free care as determined by MassHealth based on the hospital's FFY13 -403 cost report.

#### **4. In-State Pay for Performance**

The Pay-for-Performance (P4P) program provides a method for quality scoring and converting quality scores to payments contingent upon hospital adherence to quality standards and achievement of performance thresholds and benchmarks in accordance with the provisions of G.L. c. 118E, sec. 13B. The maximum allocated amount for P4P for RY15 remains at \$50.0M, which is planned to be paid in a subsequent rate year following finalization of RY15 P4P data. The P4P method includes an option for EOHHS to make interim RY15 P4P payments, followed by subsequent review and settlement of final amounts owed or overpayment made. The Emergency Department measure set will be eligible for pay-for-performance rather than pay for reporting in RY15, which is a change from RY14.

#### **Justification**

Except as specified above, the MassHealth acute hospital payment methods for Rate Year 2015 are otherwise substantially similar to those for Rate Year 2014. All changes to hospital payment rates and methods are in accordance with state and federal law and are within the range of reasonable payment levels to acute hospitals.

#### **Estimated Fiscal Effect**

EOHHS estimates that the changes described herein will result in an overall \$52.6M increase in estimated annual aggregate in-state and out-of-state acute hospital state plan expenditures, as follows: an estimated \$47.7 million increase in estimated annual aggregate *in-state* acute inpatient and outpatient hospital state plan expenditures; and an estimated \$4.9 million increase in estimated annual aggregate *out-of-state* acute inpatient and outpatient hospital state plan expenditures.

**Statutory Authority:** M.G.L. c. 118E; St. 2014, c. 165; St. 2012, c. 224; 42 USC 1396a; 42 USC 1396b.

**Related Regulations:** 130 CMR 410, 415, 450; 42 CFR Parts 431 and 447

## **In-State Acute Hospitals**

### **Section 2: Definitions**

The following terms appearing capitalized throughout this RFA and its appendices shall be defined as follows, unless the context clearly indicates otherwise.

**Adjudicated Payment Amount Per Discharge (APAD)** — a Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge, which is the complete fee-for-service payment for such acute hospitalization, excluding the additional payment of any Outlier Payment. The APAD is not paid for Administrative Days or for Inpatient Services that are paid on a per diem basis under this RFA (for example, Transfer per diem).

**Administrative Day (AD)** — a day of inpatient hospitalization on which a Member's care needs can be provided in a setting other than an Acute Hospital, and on which the Member is clinically ready for discharge, but an appropriate institutional or non-institutional setting is not readily available.

**All Patient Refined–Diagnostic Related Group (APR-DRG or DRG)** -- the All Patient Refined Diagnosis Related Group and Severity of Illness (SOI) assigned to a claim by the 3M APR-DRG Grouper, Version 30, unless otherwise specified.

**APAD Base Year** — the hospital-specific base year for the Adjudicated Payment Amount per Discharge (APAD) is FY12, using the FY12 -403 cost reports as screened and updated as of June 9, 2014. The APAD Base Year cost report of the Acute Hospital from North Adams, MA, that ceased operations in FY14 was excluded.

**Behavioral Health (BH) Contractor** — the entity with which EOHHS contracts to provide Behavioral Health Services to enrolled Members.

**Behavioral Health Services** — services provided to Members who are being treated for psychiatric disorders or substance-related disorders.

**Casemix** — the description and categorization of a hospital's patient population according to criteria approved by EOHHS including, but not limited to, primary and secondary diagnoses, primary and secondary procedures, illness severity, patient age and source of payment.

**Center for Health Information and Analysis (CHIA)** – The Center for Health Information and Analysis established under M.G.L. c. 12C, or its predecessor agency, the Division of Healthcare Finance and Policy.

**Centers for Medicare & Medicaid Services (CMS)** — the federal agency under the Department of Health and Human Services that is responsible for administering the Medicare and Medicaid programs.

**Charge** — the uniform price for each specific service within a Revenue Center of an Acute Hospital.

**Clinical Laboratory Service** — Microbiological, serological, chemical, hematological, biophysical, radio bioassay, cytological, immunohematological, immunological, pathological, or other examinations of

## **In-State Acute Hospitals**

materials derived from the human body, to provide information for the assessment of a medical condition or for the diagnosis, prevention, or treatment of any disease.

**Coinsurance** — a percentage of cost or a fee established by a Third-Party Insurance carrier for a specific service or item for which an individual is responsible when the service or supply is delivered. This cost or fee varies according to the individual's insurance carrier.

**Commonwealth Care Health Insurance program (Commonwealth Care)** — a program administered by the Connector, in consultation with the Office of Medicaid, which provides subsidies to assist eligible individuals in purchasing health insurance.

**Commonwealth Health Insurance Connector (Connector)** — the authority established by G.L. chapter 176Q, section 2.

**Community-Based Physician** — any physician or physician group practice, excluding interns, residents, fellows, and house officers, who is not a Hospital-Based Physician. For purposes of this definition and related provisions, the term physician includes dentists, podiatrists, and osteopaths.

**Contract** (also **Hospital Contract** or **Agreement**) — the agreement executed between each selected Hospital and EOHHS, which is contained in **Appendix A** attached hereto, and incorporates all of the provisions of this RFA. Unless the context indicates that the term "RFA" refers exclusively to the procurement document as such, references to RFA shall constitute references to the Contract (or Agreement).

**Contractor** — each Hospital that is selected by EOHHS after submitting a satisfactory application in response to this RFA and that enters into a Contract with EOHHS to meet the purposes specified in this RFA.

**Copayment** — a predetermined fee that the Member is responsible for paying directly to the Provider for specific services.

**Critical Access Hospital (CAH)** – An Acute Hospital that is certified by CMS and designated as a Critical Access Hospital under 42 U.S.C. 1395i-4.

**Deductible** — the amount an individual is required to pay in each calendar year, as specified in their insurance plan, before any payments are made by the insurer.

**Department of Mental Health (DMH)** — a department of the Commonwealth of Massachusetts, Executive Office of Health and Human Services.

**Department of Public Health (DPH)** — a department of the Commonwealth of Massachusetts, Executive Office of Health and Human Services.

**Discharge-Specific Case Cost** — The product of the Hospital's MassHealth allowed charges for a specific discharge, as determined by EOHHS, and the Hospital's inpatient cost to charge ratio as calculated by EOHHS using the Hospital's FY 13 -403 cost report.

## In-State Acute Hospitals

**Discharge-Specific Outlier Threshold** — The sum of the Pre-Adjusted APAD for a specific discharge, as determined by EOHHS, and the Fixed Outlier Threshold.

**DMH-Licensed Bed** — a bed in a Hospital that is located in a unit licensed by the Department of Mental Health (DMH), pursuant to 104 CMR 27.00 et seq.

**Emergency Aid to the Elderly, Disabled and Children** — the program operated by the Department of Transitional Assistance, pursuant to M.G.L. c. 117A, that furnishes and pays for limited medical services to eligible persons.

**Emergency Department (ED)** — a Hospital's Emergency Room or Level I Trauma Center which is located at the same site as the Hospital's inpatient department.

**Emergency Medical Condition** — a medical condition, whether physical or mental, manifesting itself by symptoms of sufficient severity, including severe pain, that, in the absence of prompt medical attention, could reasonably be expected by a prudent layperson who possesses an average knowledge of health and medicine to result in placing the health of a Member or another person or, in the case of a pregnant woman, the health of the woman or her unborn child, in serious jeopardy, serious impairment to body function, or serious dysfunction of any bodily organ or part, or, with respect to a pregnant woman, as further defined in section 1867(e)(1)(B) of the Social Security Act, 42 U.S.C. § 1395dd(e)(1)(B).

**Emergency Services** — covered Inpatient and Outpatient Services, including Behavioral Health Services, which are furnished to a Member by a Provider that is qualified to furnish such services under Title XIX of the Social Security Act, and are needed to evaluate or stabilize a Member's Emergency Medical Condition.

**Enhanced Ambulatory Patient Group (EAPG)** — a group of Outpatient Services that have been bundled for purposes of categorizing and measuring casemix. It is based on the 3M Corporation's EAPG Grouper Version 3.6.

**Episode** — all Outpatient Services, except those described in **Section 4.C** and **Sections 5.C.3** through **5.C.8**, delivered to a MassHealth Member where the services were delivered on a single calendar day.

**Episode Cost** — a Hospital's cost for delivering an Episode of care as determined by MassHealth and calculated as follows: Episode Cost is the product of the Hospital's charges for those claim lines of an Episode that adjudicate to pay and the outpatient cost-to-charge ratio as calculated by EOHHS.

**Excluded Units** — Non-Acute Units as defined in this section; any unit which has a separate license from the Hospital; psychiatric and substance abuse units; and non-distinct observation units.

**Executive Office of Health and Human Services (EOHHS)** — the single state agency that is responsible for the administration of the MassHealth Program, pursuant to M.G.L. c. 118E and Titles XIX and XXI of the Social Security Act and other applicable laws and waivers.

## **In-State Acute Hospitals**

**Fiscal Year (FY)** - The time period of 12 months beginning on October 1 of any calendar year and ending on September 30 of the immediately following calendar year.

**Fixed Outlier Threshold** — For RY15, the Fixed Outlier Threshold is \$24,000.00.

**Freestanding Pediatric Acute Hospital** — an Acute Hospital which limits admissions primarily to children and which qualifies as exempt from the Medicare prospective payment system regulations.

**Gross Patient Service Revenue** — the total dollar amount of a Hospital's charges for services rendered in a fiscal year.

**High Medicaid Volume Freestanding Pediatric Acute Hospital** – a Freestanding Pediatric Acute Hospital with more than 1,000 Medicaid discharges in FY12 for which a SPAD was paid, as determined by paid claims in MMIS as of May 11, 2013, and for which MassHealth was the primary payer.

**Hospital (also Acute Hospital)** — any Hospital licensed under M.G.L. c. 111, § 51 and which meets the eligibility criteria set forth in **Section 3** of this RFA.

**Hospital-Based Physician** — any physician or physician group practice (excluding interns, residents, fellows, and house officers) who contracts with a Hospital to provide Hospital Services to Members at a site for which the hospital is otherwise eligible for reimbursement under this RFA. For purposes of this definition and related provisions, the term physician includes dentists, podiatrists, and osteopaths. Nurse practitioners, nurse midwives, physician assistants, and other allied health professionals are not Hospital-Based Physicians.

**Hospital Discharge Data (HDD)** — Hospital discharge filings, as provided and verified by each hospital and submitted to CHIA, including (1) FY12 Acute Hospital casemix data as screened and updated by CHIA as of June 9, 2014, for purposes of **Section 5.B.1**, on APAD rate development, (2) Acute Hospital casemix data as screened and updated by CHIA as of June 27, 2014, for the 13-month period of September 1, 2012 through September 30, 2013 for purposes of **Section 8.1** on 30-Day Potentially Preventable Readmissions; and (3) Acute Hospital casemix data as accepted by CHIA into CHIA's database as of a date that will be determined by EOHHS, for the period October 1, 2013 through September 30, 2014 (FY14 HDD) for purposes of **Section 7** on Pay-for-Performance Quality Reporting Requirements and Payment Methods.

**Hospital-Licensed Health Center (HLHC)** — a Satellite Clinic that (1) meets MassHealth requirements for reimbursement as an HLHC as provided at 130 CMR 410.413; and (2) is approved by and enrolled with MassHealth's Provider Enrollment Unit as an HLHC.

**Inflation Factors for Administrative Days** — an inflation factor that is a blend of the Center for Medicare and Medicaid Services (CMS) market basket and the Massachusetts Consumer Price Index (CPI). Specifically, the CPI replaces the labor-related component of the CMS market basket to reflect conditions in the Massachusetts economy. The Inflation Factor for Administrative Days is as follows:

## In-State Acute Hospitals

1.611% reflects the price changes between RY14 and RY15

**Inflation Factors for Capital Costs** — the factors used by CMS to update capital payments made by Medicare, which is based on the CMS Capital Input Price Index. The Inflation Factors for Capital Costs between RY04 and RY15 are as follows:

0.7% reflects the price changes between RY04 and RY05

0.7% reflects the price changes between RY05 and RY06

0.8% reflects the price changes between RY06 and RY07

0.9% reflects the price changes between RY07 and RY08

0.7% reflects the price changes between RY08 and RY09

1.4% reflects the price changes between RY09 and RY10

1.5% reflects the price changes between RY10 and RY11

1.5% reflects the price changes between RY11 and RY12

1.2% reflects the price changes between RY12 and RY13

1.4% reflects the price changes between RY13 and RY14

1.5% reflects the price changes between RY14 and RY15

**Inflation Factors for Operating Costs** — for price changes between RY04 and RY07, and between RY08 and RY15, a blend of the Center for Medicare and Medicaid Services (CMS) market basket and the Massachusetts Consumer Price Index (CPI) in which the CPI replaces the labor-related component of the CMS market basket to reflect conditions in the Massachusetts economy. For price changes between RY07 and RY08, the inflation factor for operating costs is the CMS market basket. The Inflation Factors for Operating Costs between RY04 and RY15 are as follows:

1.186% reflects price changes between RY04 and RY05

1.846% reflects price changes between RY05 and RY06

1.637% reflects price changes between RY06 and RY07

3.300% reflects price changes between RY07 and RY08

3.000% reflects price changes between RY08 and RY09 for the period October 1, 2008 through December 6, 2008

1.424% reflects price changes between RY08 and RY09 for the period December 7, 2008 through September 30, 2009

0.719% reflects the price changes between RY09 and RY10

1.820% reflects the price changes between RY10 and RY11

1.665% reflects the price changes between RY11 and RY12

1.775% reflects the price changes between RY12 and RY13

1.405% reflects the price changes between RY13 and RY14

1.611% reflects the price changes between RY14 and RY15

**Inpatient Admission** — the admission of a Member to an Acute Hospital for the purpose of receiving Inpatient Services in that Hospital.

**Inpatient Services** — medical services, including behavioral health services, provided to a Member admitted to an Acute Hospital. Payment rules regarding Inpatient Services are found in 130 CMR

## In-State Acute Hospitals

Parts 415 and 450, the regulations referenced therein, Appendix F to the MassHealth Acute Inpatient Hospital Manual, MassHealth billing instructions, and this RFA.

**Insurance Payment** — a payment received from any entity or individual legally responsible for paying all or part of the medical claims of MassHealth Members. Sources of payments include, but are not limited to: commercial health insurers, Medicare, MCOs, personal injury insurers, automobile insurers, and Workers' Compensation.

**Liability** — the obligation of an individual to pay, pursuant to the individual's Third-Party Insurance, for the services or items delivered (i.e., Coinsurance, Copayment or Deductible).

**Managed Care Organization (MCO)** — any entity with which EOHHS contracts to provide Primary Care and certain other medical services, including behavioral health services, to Members on a capitated basis and which meets the definition of an MCO as set forth in 42 CFR Part 438.2. MCOs include "traditional" MCOs, Senior Care Organizations (SCOs) and CarePlus MCOs. In addition, MCOs include One Care plans for all purposes under this RFA, except for **Section 4.A.2** and **Section 7**. MCOs also contract with the Connector to provide services to Commonwealth Care enrollees.

**Marginal Cost Factor** – As used in the calculation of an Outlier Payment, the percentage of payment made for the difference between the Discharge-Specific Case Cost and the Discharge-Specific Outlier Threshold. For RY15, the Marginal Cost Factor is 80%.

**MassHealth** (also **Medicaid**) — the Medical Assistance Program administered by EOHHS to furnish and pay for medical services pursuant to M.G.L. c. 118E and Titles XIX and XXI of the Social Security Act, and any approved waivers of such provisions.

**MassHealth Average Length of Stay (ALOS)** — the sum of non-psychiatric inpatient days for MassHealth discharges from October 1, 2012, through September 30, 2013, paid by MassHealth as determined utilizing MMIS paid claims where MassHealth is the primary payer, divided by the number of discharges using the casemix data residing in MMIS as of May 30, 2014.

**MassHealth DRG Weight**– The MassHealth relative weight determined by EOHHS for each unique combination of APR-DRG and severity of illness (SOI).

**Medicaid Management Information System (MMIS)** — the state-operated system of automated and manual processes, certified by CMS, that meets the federal guidelines in Part 11 of the State Medicaid Manual, used to process Medicaid claims from providers of medical care and services furnished to Members, and to retrieve and produce service utilization and management information for program administration and audit purposes.

**Member** — a person determined by EOHHS to be eligible for medical assistance under the MassHealth program.

**Non-Acute Unit** — a chronic care, rehabilitation, or skilled nursing facility unit within a Hospital.

## **In-State Acute Hospitals**

**Observation Services** — outpatient Hospital Services provided anywhere in an Acute Hospital to evaluate a Member’s condition and determine the need for admission to an Acute Hospital. Observation Services are provided under the order of a physician, consist of the use of a bed and intermittent monitoring by professional licensed clinical staff, and may be provided for more than 24 hours. Payment rules regarding Observation Services are found in 130 CMR 410.414, Appendix E to the MassHealth Acute Outpatient Hospital Manual, MassHealth billing instructions, and this RFA.

**One Care: MassHealth plus Medicare (One Care plan)** – a health plan or provider-based organization contracted with EOHHS and CMS, and accountable for providing integrated care to individuals age 21 through 64 at the time of enrollment who are eligible for both Medicare and MassHealth Standard or CommonHealth and who do not have any other comprehensive public or private health care coverage. A One Care plan is also known as an Integrated Care Organization (ICO).

**Outlier Day** — As used in the RY14 Acute Hospital RFA, each day beyond 20 acute days, during a single admission, for which a Member remains hospitalized at acute status, other than in a DMH-Licensed Bed or an Excluded Unit.

**Outlier Payment** – A payment made in addition to the APAD for qualifying discharges in accordance with **Section 5.B.2**.

**Outpatient Department (also Hospital Outpatient Department)** — a department or unit located at the same site as the Hospital’s inpatient facility, or at a School-Based Health Center that operates under the Hospital’s license and provides services to Members on an ambulatory basis. Hospital Outpatient Departments include day surgery units, Primary Care clinics, specialty clinics, and Emergency Departments.

**Outpatient Services (also Outpatient Hospital Services)** — medical services, including behavioral health services, provided to a Member on an outpatient basis, by or under the direction of a physician or dentist, in a Hospital Outpatient Department or Satellite Clinic for which a reimbursement method is specified in **Section 5.C**. Such services include, but are not limited to, Emergency Services, Primary Care services, Observation Services, ancillary services, and day surgery services. Payment rules regarding services provided to Members on an outpatient basis are found in 130 CMR Parts 410 and 450, Appendix F to the MassHealth Acute Outpatient Hospital Manual, MassHealth billing instructions, and this RFA.

**PAPE Base Year** — FY13, paid as of April 30, 2014. PAPE Base Year payments to the Acute Hospital from North Adams, MA, that ceased operations in FY14 were excluded.

**PAPE Covered Services** — MassHealth-covered Outpatient Services provided by Hospital Outpatient Departments or Satellite Clinics, except those services described in **Section 4.C** and **Sections 5.C.3** through **5.C.8**

**Pass-Through Costs** — organ acquisition and malpractice costs that are paid on a cost-reimbursement basis and are included in the calculation of the APAD.

**Patient** — a person receiving health care services from a hospital.

## In-State Acute Hospitals

**Pay-for-Performance Program for Acute Hospitals (P4P)** — MassHealth’s method for quality scoring and converting quality scores to rate payments contingent upon Hospital adherence to quality standards and achievement of performance thresholds and benchmarks in accordance with the provisions of G.L. c. 118E, sec. 13B.

**Payment Amount Per Episode (PAPE)** — a Hospital-specific payment for all PAPE Covered Services provided by a Hospital to a MassHealth Member on an outpatient basis in one Episode except those services described in **Section 4.C** and **Sections 5.C.3** through **5.C.8**.

**Pediatric Specialty Unit** — a designated pediatric unit, pediatric intensive care unit, or neonatal intensive care unit in an Acute Hospital other than a Freestanding Pediatric Acute Hospital, in which the ratio of licensed pediatric beds to total licensed Hospital beds as of July 1, 1994, exceeded 0.20.

**Pre-Adjusted APAD** — The amount calculated by EOHHS utilizing the APAD payment methodology set forth in **Section 5.B.1**, below, for a specific discharge, but excluding the final step of applying any adjustment for Potentially Preventable Readmissions pursuant to **Section 8.1**.

**Primary Care** — all health care services customarily furnished by or through a general practitioner, family physician, internal medicine physician, obstetrician/gynecologist, pediatrician, nurse practitioner, or nurse midwife to the extent the furnishing of those services is legally authorized in the Commonwealth.

**Primary Care Clinician (PCC)** — a physician, independent nurse practitioner, group practice organization, community health center, Hospital-Licensed Health Center or Acute Hospital Outpatient Department with an executed MassHealth PCC Plan Provider contract.

**Primary Care Clinician Plan (PCC Plan)** — a comprehensive managed care plan, administered by EOHHS, through which enrolled MassHealth Members receive Primary Care, behavioral health, and other medical services. See 130 CMR 450.118.

**Provider** — an individual or entity that has a written contract with EOHHS to provide medical goods or services to Members.

**Psychiatric Per Diem** — a statewide per diem payment for psychiatric services provided to members in DMH-Licensed beds who are not enrolled with the BH Contractor or MCO.

**Psychiatric Per Diem Base Year** — the base year for the psychiatric per diem is FY04, using FY04-403 cost reports as screened and updated as of March 10, 2006.

**Quality and Performance Initiatives** — data-driven systemic efforts, anchored on measurement-driven activities, including Pay-for-Performance (P4P) initiatives, to improve performance of health-delivery systems that result in positive outcomes and cost-effective care.

**Rate Year (RY)** — generally, the period beginning October 1 and ending the following September 30. RY15 will begin on October 1, 2014, and end on September 30, 2015.

## In-State Acute Hospitals

**Rehabilitation Services** — services provided in an Acute Hospital that are medically necessary to be provided at a Hospital level of care, to a member with medical need for an intensive rehabilitation program that requires a multidisciplinary coordinated team approach to upgrade his/her ability to function with a reasonable expectation of significant improvement that will be of practical value to the Member measured against his/her condition at the start of the rehabilitation program.

**Rehabilitation Unit** — a distinct unit of rehabilitation beds in a Department of Public Health (DPH)-licensed Acute Hospital that provides comprehensive Rehabilitation Services to Members with appropriate medical needs.

**Revenue Center** — a functioning unit of a Hospital that provides distinctive services to a patient for a charge.

**Satellite Clinic** — a facility that operates under a Hospital's license, is subject to the fiscal, administrative, and clinical management of the Hospital, provides services to Members solely on an outpatient basis, is not located at the same site as the Hospital's inpatient facility, and demonstrates to EOHHS' satisfaction that it has CMS provider-based status in accordance with 42 CFR 413.65.

**School-Based Health Center (SBHC)** — a center located in a school setting which: (1) provides health services to MassHealth Members under the age of 21; (2) operates under a Hospital's license; (3) is subject to the fiscal, administrative, and clinical management of a Hospital Outpatient Department or HLHC; and (4) provides services to Members solely on an outpatient basis.

**Standard Payment Amount Per Discharge (SPAD)** — A payment methodology that was utilized in prior Acute Hospital RFAs. The SPAD was a Hospital-specific all-inclusive payment for the first twenty cumulative acute days of an inpatient hospitalization, which was the complete fee-for-service payment for an acute episode of illness, excluding the additional payment of Outlier Days (as that term was defined in prior Acute Hospital RFAs), Transfer Per Diems, Administrative Days and Physician Payments. This payment methodology has been replaced by the APAD payment methodology for RY15.

**Third-Party Insurance** — any insurance, including Medicare, that is or may be liable to pay all or part of the Member's medical claims. Third-Party Insurance includes a MassHealth Member's own insurance.

**Title XIX** — Title XIX of the Social Security Act, 42 U.S.C. § 1396 et seq., or any successor statute enacted into federal law for the same purposes as Title XIX.

**Total Case Payment:** The sum, as determined by EOHHS, of the Pre-Adjusted APAD and, if applicable, any Outlier Payment, adjusted for Potentially Preventable Readmissions pursuant to **Section 8.1**.

**Total EAPG Payment** — an adjusted calculation of total payment for PAPE Covered Services provided to MassHealth Members in the PAPE Base Year using the EAPG grouper, and calculating the Episode Cost using the FY13 outpatient cost-to-charge ratio.

## **In-State Acute Hospitals**

**Total Transfer Payment Cap:** The Total Case Payment amount calculated by EOHHS utilizing the APAD and, if applicable, Outlier Payment methodology(ies) set forth in **Sections 5.B.1** and **5.B.2**, for the period for which the Transferring Hospital is being paid on a Transfer per diem basis under **Section 5.B.3**.

**Transfer Patient** — any inpatient who meets any of the following criteria: (1) is transferred between Acute Hospitals; (2) is transferred between a DMH-Licensed Bed and a medical/surgical unit in an Acute Hospital; (3) is receiving treatment for a substance-related disorder or mental health-related services and whose enrollment status with the BH Contractor changes; (4) who becomes eligible for MassHealth after the date of admission and prior to the date of discharge; (5) is a Member who exhausts other insurance benefits after the date of admission and prior to the date of discharge; (6) who transfers, after the date of admission, from the PCC Plan or non-managed care to an MCO, or from an MCO to the PCC Plan or non-managed care; or (7) has a primary diagnosis of a psychiatric disorder in a non-DMH-Licensed Bed.

**Transferring Hospital** —an Acute Hospital that is being paid on a Transfer per diem basis, pursuant to **Section 5.B.3**.

**Usual and Customary Charge** — a routine fee that Hospitals charge for Acute Inpatient and Outpatient Services, regardless of payer source.

## **In-State Acute Hospitals**

### **Section 3: Eligible Applicants**

- A.** In-state Acute Hospitals are eligible to apply for a Contract pursuant to this RFA if they:
- 1.** Operate under a Hospital license issued by the Massachusetts Department of Public Health (DPH);
  - 2.** Are Medicare-certified and participate in the Medicare program;
  - 3.** Have more than 50% of their beds licensed as medical/surgical, intensive care, coronary care, burn, pediatric (Level I or Level II), pediatric intensive care (Level III), maternal (Obstetrics), or neonatal intensive care beds (Level III), as determined by DPH; and
  - 4.** Currently utilize more than 50% of their beds exclusively as either medical/surgical, intensive care, coronary care, burn, pediatric (Level I or Level II), pediatric intensive care (Level III), maternal (Obstetrics), or neonatal intensive care beds (Level III), as determined by EOHHS.

In determining whether a Hospital satisfies the utilization requirement set forth in **Section 3.A.4**, EOHHS may evaluate, pursuant to an on-site audit or otherwise, a number of factors including, but not limited to, the average length of patient stay (see **Section 11.B.5**) at that Hospital.

- B.** The Hospital shall apply on behalf of all Inpatient Departments, Outpatient Departments, Emergency Departments and Satellite Clinics.
- C.** The Hospital is not permitted to apply on behalf of, or claim payment for services provided by, any other related clinics, Provider groups, or other entities, except as otherwise provided in **Sections 5.B.5** and **5.C**.

## **In-State Acute Hospitals**

### **Section 4: Non-Covered Services, Program Initiatives and Ambulatory Services Not Covered by the RFA**

#### **A. Non-Covered Services**

EOHHS will reimburse MassHealth-participating Hospitals at the rates established in this RFA and accompanying Contract for all covered Inpatient, Outpatient, and Emergency Services provided to MassHealth Members *except* for the following:

##### **1. Behavioral Health Services for Members Enrolled with the BH Contractor**

EOHHS' BH Contractor contracts with providers to form a network through which behavioral health services are delivered to MassHealth Members enrolled with the BH Contractor. Hospitals in the BH Contractor's network qualify for payments solely by the BH Contractor for services to Members enrolled with the BH Contractor, pursuant to contracts between the BH Contractor and each contracting Hospital.

Hospitals that are not in the BH Contractor's network (hereinafter "non-network Hospitals") do not qualify for MassHealth payment for Members enrolled with the BH Contractor who receive non-Emergency or Post-Stabilization Behavioral Health Services, except in accordance with a service-specific agreement with the BH Contractor.

Non-network Hospitals that provide medically necessary behavioral health Emergency and Post-Stabilization Services to Members enrolled with the BH Contractor qualify for payment solely by the BH Contractor. Such payment is available only if the Hospital complies with the BH Contractor's billing requirements and any applicable service authorization requirements that are permissible under federal law at 42 USC 1396u-2(b)(2), 42 CFR 438.114, and 42 CFR 422.113(c). In accordance with the preceding federal law, and with 42 CFR 422.214(b), if a Member enrolled with the BH Contractor receives inpatient or outpatient behavioral health Emergency and Post-Stabilization Services and the BH Contractor offers to pay the non-network Hospital a rate equal to that Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education, the non-network Hospital must accept the BH Contractor's rate offer as payment in full for such behavioral health Emergency and Post-Stabilization Services. Nothing in this paragraph prohibits the BH Contractor from negotiating to pay any non-network Hospital at rates lower than the non-network Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for Behavioral Health Emergency and Post-Stabilization Services.

Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services that are BH Contractor-covered services or are otherwise reimbursable by the BH Contractor. Any such payment by EOHHS shall constitute an overpayment as defined in 130 CMR 450.235. Under such circumstances, EOHHS may also exercise its authority under 130 CMR 450.238 et seq. to impose sanctions for improper billing.

## **In-State Acute Hospitals**

### **2. MCO Services**

Hospitals that provide medically necessary MCO-covered services, including Emergency and Post-Stabilization Services, qualify for payment solely by the MCO for services to Members enrolled with the MCO pursuant to contracts between the MCO and each contracting Hospital.

In accordance with 42 USC 1396u-2(b)(2), 42 CFR 438.114, 42 CFR 422.113(c), and 42 CFR 422.214(b), if an MCO offers to pay a non-network Hospital a rate equal to the Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for all Emergency and Post-Stabilization Services for all of the MCO's MassHealth enrollees, that non-network Hospital must accept the MCO's rate offer as payment in full. This requirement does not prohibit an MCO from negotiating to pay any non-network Hospital at rates lower than the non-network Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for Emergency and Post-Stabilization Services.

Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services that are MCO-covered services or are otherwise reimbursable by the MCO. Any such payment by EOHHS shall constitute an overpayment as defined in 130 CMR 450.235. Under such circumstances, EOHHS may also exercise its authority under 130 CMR 450.238 et seq. to impose sanctions for improper billing.

### **3. Commonwealth Care MCO Services**

Hospitals that provide medically necessary MCO-covered services, including Emergency and Post-Stabilization Services, qualify for payment solely by the MCO.

If an MCO under contract with the Connector offers to pay a non-network Hospital a rate equal to the Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for all Emergency and Post-Stabilization Services for all of the MCO's Commonwealth Care enrollees, that non-network Hospital is required to accept the MCO's rate offer as payment in full. This requirement does not prohibit an MCO from negotiating to pay any non-network Hospital at rates lower than the non-network Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for Emergency and Post-Stabilization Services.

Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services provided to Commonwealth Care enrollees. Any payment by EOHHS for such services shall constitute an overpayment as defined in 130 CMR 450.235. Under such circumstances, EOHHS may also exercise its authority under 130 CMR 450.238 et seq. to impose sanctions for improper billing.

### **4. Medical Security Plan Direct Coverage Health Plan Services**

Hospitals that provide medically necessary Health Plan-covered services, including Emergency and Post-Stabilization Services, qualify for payment solely by the Health Plan for services to Members enrolled with the Health Plan pursuant to contracts between the Health Plan and each contracting Hospital.

## In-State Acute Hospitals

If a Health Plan under contract with the Connector or the Department of Unemployment Assistance offers to pay a non-network Hospital a rate equal to the Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for all Emergency and Post-Stabilization Services for all of the Health Plan's Medical Security Plan Direct Coverage enrollees, that non-network Hospital is required to accept the Health Plan's rate offer as payment in full. This requirement does not prohibit a Health Plan from negotiating to pay any non-network Hospital at rates lower than the non-network Hospital's applicable fee-for-service RFA rate less any amount for graduate medical education for Emergency and Post-Stabilization Services.

Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services provided to Medical Security Plan Direct Coverage enrollees. Any payment by EOHHS for such services shall constitute an overpayment as defined in 130 CMR 450.235. Under such circumstances, EOHHS may also exercise its authority under 130 CMR 450.238 et seq. to impose sanctions for improper billing.

For purposes of this **Section 4.A.4**, the following terms have the following meanings:

**Health Plan** – any entity that enters into a contract with the Connector or the Department of Unemployment Assistance for the provision of health insurance plans or the arrangement of health care services under the MSP Direct Coverage Health Insurance Program, as defined in M.G.L. c. 151A and 430 CMR 7.07(1)(b).

**Medical Security Plan Direct Coverage Enrollee** – an individual, and any of the individual's qualified dependents as defined in 430 CMR 7.00, determined by the Department of Unemployment Assistance to be eligible for participation in the MSP Direct Coverage Program, as defined in M.G.L. c. 151A and 430 CMR 7.07(1)(b), and enrolled by the Department of Unemployment Assistance or its designee in a health insurance plan offered by a Health Plan.

### 5. One Care Plan Services

Hospitals that provide medically necessary One Care plan-covered services, including Emergency and Post-Stabilization Services, qualify for payment solely by the One Care plan for services to Members enrolled with the One Care plan pursuant to contracts between the One Care plan and each contracting Hospital.

If a One Care plan offers to pay a non-network Hospital a rate equal to the amount allowed under original Medicare less any amount for graduate medical education for all Emergency and Post-Stabilization Services for all of the One Care plan's enrollees, that non-network Hospital must accept the One Care plan's rate offer as payment in full. This requirement does not prohibit a One Care plan from negotiating to pay any non-network Hospital at rates lower than original Medicare less any amount for graduate medical education for Emergency and Post-Stabilization Services.

## **In-State Acute Hospitals**

Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services that are One Care plan-covered services or are otherwise reimbursable by the One Care plan. Any such payment by EOHHS shall constitute an overpayment as defined in 130 CMR 450.235. Under such circumstances, EOHHS may also exercise its authority under 130 CMR 450.238 et seq. to impose sanctions for improper billing.

### **6. Air Ambulance Services**

In order to receive reimbursement for air ambulance services, Hospitals must have a separate contract with EOHHS for such services.

### **7. Non-Acute Units and Other Separately Licensed Units in Acute Hospitals**

Unless otherwise specified in this RFA, EOHHS shall not reimburse Acute Hospitals through this RFA and the accompanying contract for services provided to Members in Non-Acute Units, other than Rehabilitation Units, and any units which have a separate license, such as a skilled nursing unit, or any unit which is licensed to provide services other than Acute Hospital services as described in **Section 3.A.4**.

### **8. Claims for Outpatient Professional Services (Primary Care Payment Reform (PCPR))**

For any Hospital Outpatient Department, HLHC, or other Satellite Clinic site participating in the Primary Care Payment Reform (PCPR) initiative, outpatient Hospital-Based Physician services are governed by the site's executed MassHealth PCC Plan Provider contract or MCO provider agreement, and are not payable through this Acute Hospital RFA and Contract.

## **B. Program Initiatives**

### **1. Hospital Services Reimbursed through Other Contracts or Regulations**

The Commonwealth may institute special program initiatives, other than those in this RFA, which provide, through contract or regulation, alternative reimbursement methodologies for Hospital services or certain Hospital services. In such cases, payment for such services is made pursuant to the contract or regulations governing the special program initiative, and not through this RFA and resulting Contract.

### **2. Demonstration Projects**

It is an EOHHS priority to ensure that MassHealth Members receive quality medical care at sites of service that promote delivery of such medical care in a cost-effective and efficient manner. In furtherance of this objective, and subject to state and federal approval requirements, if any, EOHHS may, through separate contracts or through this RFA, institute demonstration projects with Hospitals to develop innovative approaches to delivery of services and payment for services. Such demonstration projects will be designed to focus on ensuring that Hospitals provide or facilitate the provision of quality services to MassHealth Members in a manner that

## **In-State Acute Hospitals**

is efficient and cost-effective and that may include alternative reimbursement methodologies for Hospital services or certain Hospital services.

### **3. MassHealth Drug List**

To help ensure consistency in medication regimens and services, prescribers should conform to the MassHealth Drug List (see [www.mass.gov/druglist](http://www.mass.gov/druglist)) whenever medically appropriate for inpatients, outpatients, and upon discharge.

## **C. Ambulatory Services Not Covered by the RFA**

The following services provided by Hospitals to MassHealth Members on an outpatient basis are not paid pursuant to the Acute Hospital RFA and Contract: ambulance services, psychiatric day treatment, early intervention, home health, adult day health and adult foster care, and outpatient covered drugs processed through the Pharmacy On-Line Processing System (POPS). Hospitals must continue to conform to the separate provider participation and reimbursement requirements for those MassHealth programs.

## In-State Acute Hospitals

### Section 5: Reimbursement System

#### A. General Provisions

Acute Hospitals that participate in the MassHealth program under the terms of the Hospital Contract and its accompanying payment methodology shall accept payment at the rates established in this RFA as payment in full for services reimbursable by EOHHS that are rendered to MassHealth Members admitted as inpatients or treated as outpatients on or after October 1, 2014.

Non-acute units, other than Rehabilitation Units, and units within Hospitals that operate under separate licenses, such as skilled nursing units, will not be affected by this methodology.

Pursuant to M.G.L. c. 118E, §9, which describes pre-admission counseling for long-term care, Hospitals will undertake the following activities in connection with instructions that may be issued from time to time by EOHHS: (i) inform patients of the availability of EOHHS-approved counseling services; (ii) identify patients who might benefit from counseling; (iii) distribute informational materials to patients; and (iv) participate in training events organized by EOHHS.

A Hospital with a DMH-licensed inpatient psychiatric unit must accept into its DMH-licensed inpatient psychiatric unit all referrals of MassHealth members that meet the established admission criteria of the inpatient unit.

#### B. Payment for Inpatient Services

A Hospital will be paid in accordance with **Section 5.B** for Inpatient Services.

Except as otherwise provided in **Sections 5.B.2 through 5.B.8** and in **Section 5.D.7**, fee-for-service payments to Hospitals for Inpatient Services provided to MassHealth Members not enrolled in an MCO will be an Adjudicated Payment Amount Per Discharge (APAD), calculated as described more fully in **Sections 5.B.1.a through g**, below.

For qualifying discharges, Hospitals may also be paid an Outlier Payment in addition to the APAD, under the conditions set forth in, and calculated as described in, **Section 5.B.2**.

For Critical Access Hospitals, payment for Inpatient Services is in accordance with **Section 5.D.7**.

Payment for psychiatric services provided in DMH-Licensed Beds to MassHealth Members who are not served either through a contract between EOHHS and its BH Contractor or an MCO shall be made through an all-inclusive Psychiatric Per Diem (see **Section 5.B.4**).

Payment for psychiatric services provided in beds that are not DMH-Licensed Beds shall be made at the Transfer Per Diem rate, capped at the Total Transfer Payment Cap (see **Sections 5.B.3 and 5.B.4**).

For Inpatient Services paid on a per diem basis, MassHealth pays the lesser of (i) the per diem rate or (ii) 100% of the Hospital's actual charge submitted.

## **In-State Acute Hospitals**

Payment for physician services rendered by Hospital-Based Physicians will be made as described in **Section 5.B.5**.

### **1. Adjudicated Payment Amount per Discharge**

#### **a. Overview**

The Adjudicated Payment Amount per Discharge (APAD) is a Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge. The components that make up the APAD include (1) the Statewide Operating Standard per Discharge, adjusted for the Hospital's Massachusetts-specific wage area index; (2) the Statewide Capital Standard per Discharge; (3) the discharge-specific MassHealth DRG Weight; (4) a per-discharge, Hospital-specific payment amount for expenses related to malpractice and organ acquisition costs equal to the Hospital's Pass-Through Amount Per Discharge; and (5) a Hospital-specific adjustment, where applicable, for Potentially Preventable Readmissions (PPR) pursuant to **Section 8.1**. These components and the calculation of the APAD are described further below in **Sections 5.B.1.b** through **5.B.1.g**. Components based on data from all Hospitals excluded data from the Acute Hospital from North Adams, MA, that ceased operations in FY14.

#### **b. Calculation of the Statewide Operating Standard per Discharge**

In the development of the RY15 Statewide Operating Standard per Discharge, EOHHS used APAD Base Year all-payer costs and FY12 HDD as the primary sources of data to develop operating costs per discharge.

The Statewide Operating Standard per Discharge is based on the statewide average payment amount per discharge, which is derived from the actual statewide costs of providing Inpatient Services as reflected in the APAD Base Year cost report. The average payment amount per discharge for each Hospital was derived by dividing total inpatient Hospital costs by total inpatient Hospital discharges, omitting those costs and discharges from Excluded Units. Routine outpatient costs associated with admissions from the Emergency Department and routine and ancillary outpatient costs resulting from admissions from observation status were included. The cost centers which are identified as the supervision component of physician compensation and other direct physician costs were included; professional services were excluded. All other medical and non-medical patient care-related staff expenses were included.

Malpractice costs, organ acquisition costs, capital costs, and direct medical education costs were excluded from the calculation of the statewide average payment amount per discharge.

The labor portion of the average payment amount per discharge for each Hospital was adjusted by the Hospital's Massachusetts-specific wage area index and by the Hospital-specific FY12 all-payer Casemix Index that was determined by using FY12 discharges and using APR-DRG version 30 of the 3M grouper and Massachusetts weights. Massachusetts Hospitals' wages and hours were determined based on CMS's

## **In-State Acute Hospitals**

FY\_2015\_Proposed\_Rule\_Wage\_Index\_PUFs file, downloaded May 2, 2014 from the CMS web site at [www.cms.hhs.gov](http://www.cms.hhs.gov).

Wage areas were assigned according to the same CMS file unless redesignated in a written decision from CMS to the Hospital provided to EOHHS by May 22, 2014. Each area's average hourly wage was then divided by the statewide average hourly wage to determine the area's wage index. For the calculation of the Springfield area index, Baystate Medical Center's wages and hours were included. These steps result in the calculation of the standardized costs per discharge for each Hospital.

All Hospitals were then ranked from lowest to highest with respect to their standardized costs per discharge; a cumulative frequency of FY13 MassHealth discharges for the Hospitals was produced from MMIS claims data on file as of May 30, 2014, with a status of adjudicated and paid and for which MassHealth was the primary payer. Discharges and costs from Excluded Units were omitted. The efficiency standard was established at the cost per discharge corresponding to the position on the cumulative frequency of discharges that represents 65% of the total number of statewide discharges in the MMIS. The RY15 efficiency standard is \$10,796.35.

The Statewide Operating Standard per Discharge was then determined by multiplying (a) the weighted mean of the standardized cost per discharge, as limited by the efficiency standard; by (b) the outlier adjustment factor of 93%; and by (c) the Inflation Factors for Operating Costs between RY12 and RY15. The resulting RY15 Statewide Operating Standard per Discharge is \$9,309.45.

When groupers are changed and modernized, it may be necessary to adjust the base payment rate so that overall payment levels are not affected solely by the grouper change. EOHHS may make adjustments to assure budget neutrality for such grouper changes. EOHHS reserves the right to update to a new grouper.

### **c. Calculation of the Statewide Capital Standard per Discharge**

In the development of the RY15 Statewide Capital Standard per Discharge, EOHHS used APAD Base Year all-payer costs and FY12 HDD as the primary sources of data to develop capital costs per discharge.

For each Hospital, the total inpatient capital costs include building and fixed equipment depreciation, major moveable equipment depreciation, major moveable equipment, and long- and short-term interest. Total capital costs are allocated to Inpatient Services through the square-footage-based allocation formula of the FY12 -403 cost report. Capital costs for Excluded Units were omitted to derive net inpatient capital costs. The capital cost per discharge was calculated by dividing total net inpatient capital costs by FY12 total inpatient hospital discharges net of Excluded Unit capital costs and discharges.

The casemix-adjusted capital cost per discharge was determined by (a) dividing the cost per discharge by the All-Payer APR-DRG version 30 Casemix Index; (b) sorting these adjusted

## **In-State Acute Hospitals**

costs in ascending order; and (c) producing a cumulative frequency of FY13 MassHealth discharges from MMIS claims data on file as of May 30, 2014, with a status of adjudicated and paid and for which MassHealth was the primary payer. Discharges and costs from Excluded Units were omitted. The casemix-adjusted efficiency standard was established at the capital cost per discharge corresponding to the position on the cumulative frequency of discharges that represents 50% of the total number of discharges. The RY15 efficiency standard is \$709.85.

Each Hospital's capital cost per discharge was then held to the lower of its capital cost per discharge or the casemix-adjusted efficiency standard, to arrive at a capped capital cost per discharge. Each Hospital's capped capital cost per discharge is then multiplied by the Hospital's FY13 number of MassHealth discharges. The product of the capped capital cost per discharge and the number of MassHealth discharges for each Hospital was then summed and divided by the total number of MassHealth discharges statewide, to arrive at a statewide weighted average capital cost per discharge.

The statewide weighted average capital cost per discharge was then updated by the Inflation Factors for Capital Costs between RY12 and RY15. The resulting RY15 Statewide Capital Standard per Discharge is \$637.04.

### **d. Determination of MassHealth DRG Weight**

The MassHealth DRG Weight is the MassHealth relative weight determined by EOHHS for each unique combination of APR-DRG and severity of illness (SOI). The discharge-specific MassHealth DRG Weight is assigned to the discharge based on information contained in a properly submitted inpatient Hospital claim and determined using the 3M APR-DRG version 30 and Massachusetts weights.

### **e. Calculation of the Pass-Through Amounts per Discharge**

The inpatient portion of malpractice insurance and organ acquisition costs was derived from each Hospital's FY13 -403 cost report as screened and updated by CHIA as of June 6, 2014. This portion of the Pass-Through amount per discharge is the sum of the Hospital's per-discharge costs of malpractice and organ acquisition costs. In each case, the amount is calculated by dividing the Hospital's inpatient portion of expenses by the number of total, all-payer days for the APAD Base Year and then multiplying the resulting cost per diem by the Hospital-specific MassHealth Average Length of Stay. The costs and days associated with Excluded Units are omitted. The result is the Hospital's Pass-Through Amount per Discharge.

### **f. Potentially Preventable Readmissions (PPR).**

See **Section 8.1** for the calculation of any PPR adjustment.

## In-State Acute Hospitals

### g. Calculation of the APAD

Each APAD is determined by the following steps: (1) multiplying the labor portion of the Statewide Operating Standard per Discharge by Hospital’s Massachusetts-specific wage area index, (2) adding this amount to the non-labor portion of the Statewide Operating Standard per Discharge, (3) adding this sum to the Statewide Capital Standard per Discharge, (4) multiplying the sum of these three amounts by the discharge-specific MassHealth DRG Weight, (5) adding to that product a Hospital-specific per discharge payment amount for expenses related to malpractice and organ acquisition costs equal to the Hospital’s Pass-Through Amount Per Discharge; and (6) then adjusting that result, where applicable, for Potentially Preventable Readmissions under **Section 8.1**.

The Hospital’s Massachusetts-specific wage area index which is used to adjust the Statewide Operating Standard per Discharge was derived from the CMS file referenced in **Section 5.B.1.b**.

The following is an illustrative example of the calculation of the Total Case Payment for a standard APAD claim that does not also qualify for an Outlier Payment under **Section 5.B.2**, below.

Table 1: Standard APAD claim			
(Values are for demonstration purposes only)			
Hospital:	Sample Hospital		
DRG:	203, Chest Pain. Severity of Illness (SOI) = 2.		
Line	Description	Value	Calculation or Source
1	Statewide Operating Standard per Discharge	\$9,309.45	Determined annually
2	Hospital wage area	1.0125	Varies by hospital, determined annually
3	Labor Factor	0.69587	Determined annually
4	Wage Adjusted Operating Standard per Discharge	\$9,390.43	(Line 1 * Line 2 * Line 3) + (Line 1 * (1.0-Line 3))
5	Statewide Capital Standard per Discharge	\$637.04	Determined annually
6	Sum of Wage Adj. Oper. Standard and Statewide Capital Standard per Discharge	\$10,027.47	Line 4 + line 5
7	MassHealth DRG Weight	0.3668	Appendix C, Chart 1
8	Hospital's Pass-Through Amount per Discharge	\$25.30	Varies by hospital, determined annually
9	Pre-Adjusted APAD	\$3,703.38	((Line 6 * Line 7) + Line 8)
10	Potentially Preventable Readmission adjustment	-1.2%	Varies by hospital, determined annually
11	<b>Total Case Payment = Adjudicated Payment Amount per Discharge (APAD)</b>	<b>\$3,658.94</b>	Line 9 * (100% + Line 10)

## 2. Outlier Payments

A Hospital qualifies for a discharge-specific Outlier Payment in addition to the APAD if *all* of the following conditions are met:

- a. The Hospital’s Discharge-Specific Case Cost exceeds the Discharge-Specific Outlier Threshold for that discharge;
- b. The Hospital continues to fulfill its discharge planning duties as required in MassHealth regulations;
- c. The patient is not a patient in a DMH-Licensed Bed for any part of the discharge; and

## In-State Acute Hospitals

- d. The patient is not a patient in an Excluded Unit within an Acute Hospital.

If a Hospital qualifies for an Outlier Payment, the Outlier Payment will equal the product of the Marginal Cost Factor and the amount by which the Discharge-Specific Case Cost exceeds the Discharge-Specific Outlier Threshold. In such a case, the adjustment under **Section 8.1** for Potentially Preventable Readmissions, if applicable, is applied against the sum of the Pre-Adjusted APAD and the Outlier Payment.

The following is an illustrative example of the calculation of the Total Case Payment for a claim involving an Outlier Payment.

Table 2: Claim with Outlier Payment			
(Values are for demonstration purposes only)			
Hospital:	Sample Hospital		
DRG:	203, Chest Pain. Severity of Illness (SOI) = 2.		
Line	Description	Value	Calculation or Source
1	Pre-Adjusted APAD	\$3,703.38	Table 1, line 9, above
2	Allowed charges	\$50,000.00	Determined from claim
3	Hospital Cost-to-Charge Ratio	72.00%	Varies by hospital, determined annually
4	Discharge-Specific Case Cost	\$36,000.00	Line 2 * line 3
5	Fixed Outlier Threshold	\$24,000	Determined annually
6	Discharge-Specific Outlier Threshold	\$27,703.38	Line 1 + line 5
7	Does Discharge-Specific Case Cost exceed Discharge-Specific Outlier Threshold?	TRUE	Is line 4 > line 6
8	Marginal Cost Factor	80%	Determined annually
9	If Line 7 = True, then Outlier Payment is due Outlier Payment	\$6,637.30	(Line 4 - Line 6) * Line 8
10	Pre-Adjusted APAD + Outlier Payment	\$10,340.68	Line 1 + line 9
11	Potentially Preventable Readmission adjustment	-1.2%	Varies by hospital, determined annually
12	<b>Total Case Payment</b>	<b>\$10,216.59</b>	<b>Line 10 * (100% + Line 11)</b>

### 3. Transfer Per Diem Payments

#### a. Transfer Between Hospitals

In general, a Hospital that transfers a patient to another Acute Hospital will be paid on a transfer per diem basis, capped at the Hospital's Total Transfer Payment Cap.

In general, the Hospital that is receiving the patient will be paid (a) on a per-discharge basis in accordance with the RY15 APAD, and, if applicable, Outlier Payment methodology(ies) specified in **Section 5.B.1** and **5.B.2**, if the patient is actually discharged from that Hospital; or (b) on a transfer per diem basis, capped at the Hospital's Total Transfer Payment Cap, if the Hospital transfers the patient to another Acute Hospital or back to the Acute Hospital from which it received the patient.

The RY15 payment per day for Transfer Patients (the Transfer per diem) shall equal the Transferring Hospital's Total Case Payment amount, as determined by EOHHS, divided by the applicable DRG-specific mean all-payer length of stay from the APR-DRG v. 30 Massachusetts-specific weight file. For purposes of this calculation, the Total Case

## In-State Acute Hospitals

Payment amount is calculated utilizing the APAD, and, if applicable, Outlier Payment methodology(ies) set forth in **Sections 5.B.1 and 5.B.2** for the period for which the Transferring Hospital is being paid on a Transfer per diem basis pursuant to this **Section 5.B.3**. In all cases, payment on a Transfer per diem basis will be capped at the Transferring Hospital's Total Transfer Payment Cap.

See **Table 3: Claim with Transfer (APAD only)** and **Table 4: Claim with Transfer (APAD and Outlier)**, respectively, for illustrative examples of the calculation of the Transfer per diem, Total Transfer Payment Cap, and corresponding Total Transfer Case Payment, that would apply to the case. These illustrative examples apply to all subsections of **Section 5.B.3**.

Table 3: Claim with Transfer (APAD only)			
(Values are for demonstration purposes only)			
<b>Hospital:</b>	Sample Hospital		
<b>DRG:</b>	203, Chest Pain. Severity of Illness (SOI) = 2.

4	Transfer per diem	\$5,675.88	Line 1 / line 3
5	Transfer per diem x Patient length of stay (# of days)	\$11,351.76	Line 4 * line 2
6	Total Transfer Payment Cap	\$10,216.59	Table 4, line 1
7	<b>Total Transfer Case Payment</b>	<b>\$10,216.59</b>	<b>Lower of line 5 or line 6</b>

### b. Transfers within a Hospital

In general, a transfer within a Hospital is not considered a discharge. Consequently, in most cases a transfer between units within a Hospital will be reimbursed on a Transfer per diem basis capped at the Hospital's Total Transfer Payment Cap. This section outlines reimbursement under some specific transfer circumstances.

## **In-State Acute Hospitals**

**(1) Transfer to/from a Non-Acute, Skilled Nursing, or other Separately Licensed Unit within the Same Hospital**

If a patient is transferred from an acute bed to a Non-Acute bed, except for a DMH-licensed bed or any separately licensed unit in the same Hospital, the transfer is considered a discharge. EOHHS will pay the Hospital's discharge specific APAD for the portion of the stay that preceded the patient's discharge to any such unit.

**(2) MassHealth Payments for Newly Eligible Members, Members Who Change Enrollment in the PCC Plan, Fee-for-Service or MCO during a Hospital Stay; or in the Event of Exhaustion of Other Insurance**

When a patient becomes MassHealth-eligible, becomes eligible for managed care and is enrolled in an MCO or becomes ineligible for managed care and disenrolled from an MCO during the course of a Hospital stay, or exhausts other insurance benefits after the date of admission and prior to the date of discharge, the MassHealth-covered portion of the acute stay will be paid at the Transfer per diem rate, up to the Hospital's Total Transfer Payment Cap, or, if the patient is at the Administrative Day level of care, at the AD per diem rate, in accordance with **Section 5.B.6**.

**(3) Admissions Following Outpatient Surgery or Procedure**

If a patient who requires Inpatient Hospital Services is admitted following an outpatient surgery or procedure, the Hospital shall be paid at the Transfer per diem rate up to the Hospital's Total Transfer Payment Cap.

**(4) Transfer between a DMH-Licensed Bed and Any Other Bed within the Same Hospital**

Reimbursement for a transfer between a DMH-Licensed Bed and any other bed within a Hospital will vary depending on the circumstances involved, such as managed care status, BH network or non-network Hospital, or the type of service provided. See also **Section 5.B.3.b(5)**.

When a Member who is not enrolled with the BH Contractor transfers between a DMH-Licensed Bed and a non-DMH-Licensed Bed in the same Hospital during a single admission, EOHHS will pay the Hospital at the Transfer per diem rate capped at the Hospital's Total Transfer Payment Cap for the non-DMH-Licensed Bed portion of the stay, and at the psychiatric per diem rate for the DMH-Licensed Bed portion of the stay (see **Section 5.B.4**).

If the Member is enrolled with the BH Contractor, EOHHS will pay for the non-DMH-Licensed Bed portion of the stay, and only if it is for medical (i.e., non-psychiatric/substance-related disorder) treatment. In that case, such payment will be at the Transfer per diem rate capped at the Total Transfer Payment Cap.

## **In-State Acute Hospitals**

### **(5) Change of BH Managed Care Status during a Behavioral Health Hospitalization**

#### **(a) Payments to Hospitals without Network Provider Agreements with EOHHS' BH Contractor**

When a Member is enrolled with the BH Contractor during an Emergency or Post-Stabilization behavioral health admission at a non-network Hospital, the portion of the Hospital stay during which the Member is enrolled with the BH Contractor shall be paid by the BH Contractor provided that the Hospital complies with the BH Contractor's billing requirements and any applicable service authorization requirements that are permissible under federal law at 42 USC 1396u-2(b)(2), 42 CFR 438.114, and 42 CFR 422.113(c).

In accordance with the preceding federal law, and with 42 CFR 422.214(b), if the BH Contractor offers to pay the Hospital a rate equal to the applicable RFA rate less any amount for graduate medical education for Emergency and Post-Stabilization psychiatric or substance-related disorder services, the Hospital must accept the BH Contractor's rate offer as payment in full for all such Members.

This requirement does not prohibit the BH Contractor from negotiating to pay at a lower rate than the non-network Hospital's applicable RFA rate less any amount for graduate medical education for all such Emergency and Post-Stabilization psychiatric or substance abuse-related disorder services provided at a non-network hospital.

The portion of the Hospital stay during which the Member was not enrolled with the BH Contractor will be paid by EOHHS at the psychiatric per diem rate for psychiatric services in a DMH-Licensed Bed or at the Transfer per diem rate, capped at the Total Transfer Payment Cap, for substance-related disorder services and for psychiatric services in a non-DMH-Licensed Bed.

#### **(b) Payments to Hospitals that are in the BH Contractor's Provider Network**

When a Member is enrolled with the BH Contractor during an emergency or non-emergency behavioral health Hospital admission, the portion of the Hospital stay during which the Member was enrolled with the BH Contractor shall be paid by the BH Contractor at the rates agreed upon by the Hospital and the BH Contractor provided that the Hospital complies with the BH Contractor's service authorization and billing policies and procedures.

The portion of the Hospital stay during which the Member was not enrolled with the BH Contractor will be paid by EOHHS at the Psychiatric Per Diem rate for psychiatric services in a DMH-Licensed Bed; or at the Transfer per diem rate, capped at the Total Transfer Payment Cap, for substance-related disorder services and for psychiatric services in a non-DMH-Licensed Bed.

## **In-State Acute Hospitals**

### **4. Payments for Psychiatric Services**

Services provided to MassHealth Members in DMH-Licensed Beds who are not enrolled with the BH Contractor or an MCO shall be paid through an all-inclusive psychiatric per diem, as described below. This payment mechanism does not apply to cases in which psychiatric services are provided to Members enrolled with the BH Contractor or an MCO, except as set forth in **Sections 4.A.1 and 4.A.2.**

#### **a. Statewide Standard Psychiatric Per Diem**

The Statewide Standard Psychiatric Per Diem Rate is derived using the sum of the following: the Acute Hospital Psychiatric Standard for Overhead Costs, the Acute Hospital Psychiatric Standard for Direct Routine Costs, the Acute Hospital Psychiatric Standard for Direct Ancillary Costs, the Acute Hospital Psychiatric Standard for Capital Costs, plus the Adjustment to Base Year Costs.

#### **b. Data Sources**

The Psychiatric Per Diem Base Year is FY04. MassHealth utilizes the costs, statistics, and revenue reported in the FY04 -403 cost reports, as screened and updated as of March 10, 2006.

#### **c. Determination of Base Year Operating Standards**

- (1) The Standard for Inpatient Psychiatric Overhead Costs is the median of the Inpatient Psychiatric Overhead Costs Per Day for the array of acute hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days.
- (2) The Standard for Inpatient Psychiatric Direct Routine Costs is the median of the Inpatient Psychiatric Direct Routine Costs Per Day (minus direct routine physician costs) for the array of acute hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days.
- (3) The Standard for Inpatient Psychiatric Direct Ancillary Costs is the median of the Inpatient Psychiatric Direct Ancillary Costs Per Day for the array of acute hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days.

#### **d. Determination of Base Year Capital Standard**

- (1) Each hospital's base year capital costs consist of the hospital's actual Base Year patient care capital requirement for historical depreciation for building and fixed equipment, reasonable interest expenses, amortization, leases, and rental of facilities. Any gains from the sale of property will be offset against the hospital's capital expenses.

## **In-State Acute Hospitals**

(2) Each hospital's base year Psychiatric Capital Cost Per Day equals the base year psychiatric capital cost divided by the greater of: the actual base year psychiatric days or eighty-five percent (85%) of the base year maximum licensed psychiatric bed capacity, measured in days.

(3) The Standard for Inpatient Psychiatric Capital Costs is the median of the Inpatient Psychiatric Capital Costs Per Day for the array of acute hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days.

**e. Adjustment to Base Year Costs:** The Standards for Inpatient Psychiatric Overhead Costs, Direct Routine Costs, and Direct Ancillary Costs were updated by the Inflation Factors for Operating Costs between the Psychiatric Per Diem Base Year and RY07. The Standard for Inpatient Psychiatric Capital Costs was updated by the Inflation Factors for Capital Costs between the Psychiatric Per Diem Base Year and RY07.

The Inflation Factors for Operating Costs between RY08 and RY10 and between RY12 and RY15 were applied to the rate calculated above to determine the RY15 Statewide Standard Psychiatric Per Diem rate.

Payment for psychiatric services provided in beds that are not DMH-Licensed Beds shall be made at the Transfer per diem rate, capped at the Total Transfer Payment Cap. See **Sections 5.B.3.b(4)** and **5.B.3.b(5)** for payment rules involving transfers to and from DMH-Licensed Beds and BH managed care status.

### **5. Physician Payment**

For physician services provided by Hospital-Based Physicians to MassHealth patients, the Hospital will be reimbursed for the professional component of physician services in accordance with, and subject to, the Physician regulations at 130 CMR 433.000 et seq. Such reimbursement shall be at the lower of (1) the fee established in 101 CMR 317.00 (Medicine), 114.3 CMR 16.00 (Surgery and Anesthesia), 114.3 CMR 18.00 (Radiology) and 101 CMR 320.00 (Clinical Laboratory Services), or successor regulations as applicable (including the applicable facility fee for all services where such facility fee has been established); (2) the Hospital's Usual and Customary Charge; or (3) 100% of the Hospital's actual charge submitted.

Hospitals will be reimbursed for such physician services only if the Hospital-Based Physician took an active patient care role, as opposed to a supervisory role, in providing the Inpatient Service(s) on the billed date(s) of service. Physician services provided by residents and interns are not reimbursable separately. The Hospital-Based Physician may not bill for any professional component of the service that is billed by the hospital.

Hospitals shall not be reimbursed for inpatient physician services provided by community-based physicians.

## In-State Acute Hospitals

For primary care physician services provided by Section 1202-eligible Hospital-Based Physicians, payment for the professional component is in accordance with **Section 5.O**.

Physician fee schedules are available at the State House Bookstore and at <http://www.mass.gov/eohhs/gov/laws-regs/hhs/community-health-care-providers-ambulatory-care.html>.

### 6. Payments for Administrative Days

Payments for Administrative Days will be made on a per diem basis as described below. These per diem rates are all-inclusive and represent payment in full for all Administrative Days in all Acute Care Hospitals.

The AD rate is a base per diem payment and an ancillary add-on.

The base per diem payment is \$198.14, which represents the median nursing facility rate that was effective October 1, 2013 for all nursing home rate categories, as determined by EOHHS.

The ancillary add-on is based on the ratio of ancillary charges to routine charges, calculated separately for Medicaid/Medicare Part B-eligible patients and Medicaid-only eligible patients on AD status, using MassHealth paid claims for the period October 1, 1997 to September 30, 1998. These ratios are 0.278 and 0.382, respectively.

The resulting AD rates (base and ancillary) were then updated by the Inflation Factor for Administrative Days. The resulting AD rates for RY15 are \$257.30 for Medicaid/Medicare Part B-eligible patients and \$278.24 for Medicaid-only eligible patients.

MassHealth rules and regulations do not allow a patient to be admitted at an AD status, except in limited circumstances outlined in EOHHS regulations. In most cases, therefore, Administrative Days will follow an acute stay in the Hospital. Furthermore, the Hospital may not bill for more than one APAD even if the patient fluctuates between acute status and AD status in a single hospitalization.

### 7. Rehabilitation Unit Services in Acute Hospitals

A DPH-licensed Acute Hospital with a Rehabilitation Unit may bill a per diem rate for Rehabilitation Services provided at an Acute Hospital.

The per diem rate for such Rehabilitation Services equals the median MassHealth RY15 Rehabilitation Hospital rate for Chronic Disease and Rehabilitation (CDR) Hospitals. Acute Hospital Administrative Day rates will be paid in accordance with **Section 5.B.6** for all days that a patient remains in the Rehabilitation Unit while not at Hospital level of care. Such units shall be subject to EOHHS' screening program for chronic and rehabilitation hospitals as detailed in 130 CMR 435.408 and requirements detailed in 130 CMR 435.410 – 411.

## In-State Acute Hospitals

### 8. Infant and Pediatric Outlier Payment Adjustments

#### a. Infant Outlier Payment Adjustment

In accordance with 42 U.S.C. § 1396a(s), EOHHS will make an annual infant outlier payment adjustment to Acute Hospitals for Inpatient Services furnished to infants under one year of age involving exceptionally high costs or exceptionally long lengths of stay.

The Infant Outlier Payment is calculated using the data and methodology as follows:

- (1) **Data Source:** The prior year's claims data residing on EOHHS' MMIS is used to determine exceptionally high costs and exceptionally long lengths of stay.
- (2) **Eligibility:** Eligibility for the adjustment is determined as follows:
  - (a) **Exceptionally Long Lengths of Stay:** First, the statewide weighted average Medicaid inpatient length of stay is determined by dividing the sum of Medicaid days for all Acute Hospitals in the state by the sum of Medicaid discharges for all Acute Hospitals in the state. The statewide weighted standard deviation for Medicaid inpatient length of stay is also calculated. The statewide weighted standard deviation for the Medicaid inpatient length of stay is multiplied by two, and added to the statewide weighted average Medicaid inpatient length of stay. The sum of these two numbers is the threshold figure for Medicaid exceptionally long length of stay.
  - (b) **Exceptionally High Cost:** Exceptionally high cost is calculated for Hospitals providing services to infants less than one year of age as follows:
    1. The average cost per Medicaid inpatient discharge for each Hospital is calculated;
    2. The standard deviation for the cost per Medicaid inpatient discharge for each Hospital is calculated;
    3. The Hospital's standard deviation for the cost per Medicaid inpatient discharge is multiplied by two, and that amount is added to the Hospital's average cost per Medicaid inpatient discharge. The sum of these two numbers is each Hospital's threshold Medicaid exceptionally high cost.
  - (c) **Eligibility for an Infant Outlier Payment:** First, for each Hospital providing services to infants less than one year of age, the average Medicaid inpatient length of stay involving individuals less than one year of age is determined. If this Hospital-specific average Medicaid inpatient length of stay for infants less than one year of age equals or exceeds the threshold defined in **Section 5.B.8.a(2)(a)**, then the Hospital is eligible for an infant outlier payment.  
  
Second, the cost per inpatient Medicaid case involving infants less than one year of age is calculated. If a Hospital has a Medicaid inpatient case with a cost that equals or exceeds the Hospital's own threshold defined in **Section 5.B.8.a(2)(b)** above, then the Hospital is eligible for an infant outlier payment.

## **In-State Acute Hospitals**

- (d) **Payment to Hospitals:** Annually, each Hospital that qualifies for an infant outlier adjustment receives an equal portion of \$50,000. For example, if two Hospitals qualify for an outlier adjustment, then each Hospital receives \$25,000.

### **b. Pediatric Outlier Payment Adjustment**

In accordance with 42 U.S.C. §1396a(s), EOHHS will make an annual pediatric outlier payment adjustment to Acute Hospitals for Inpatient Services furnished to children more than one year of age and less than six years of age involving exceptionally high costs or exceptionally long lengths of stay.

The Pediatric Outlier Payment is calculated using the data and methodology as follows:

- (1) **Data Source:** The prior year's discharge data residing on EOHHS' MMIS is used to determine exceptionally high costs and exceptionally long lengths of stay.
- (2) **Eligibility:** Eligibility for the adjustment is determined as follows:
  - (a) **Exceptionally Long Lengths of Stay:** First, a statewide weighted average Medicaid inpatient length of stay is calculated. This is determined by dividing the sum of Medicaid days for all Acute Hospitals in the state by the sum of Medicaid discharges for all Acute Hospitals in the state. Second, the statewide weighted standard deviation for Medicaid inpatient length of stay is calculated. Third, the statewide weighted standard deviation for Medicaid inpatient length of stay is multiplied by two and added to the statewide weighted average Medicaid inpatient length of stay. The sum of these two numbers is the threshold Medicaid exceptionally long length of stay.
  - (b) **Exceptionally High Cost:** Exceptionally high cost is calculated for Hospitals providing services to children greater than one year of age and less than six years of age as follows:
    1. The average cost per Medicaid inpatient discharge for each Hospital is calculated.
    2. The standard deviation for the cost per Medicaid inpatient discharge for each Hospital is calculated.
    3. The Hospital's standard deviation for the cost per Medicaid inpatient discharge is multiplied by two and added to the hospital's average cost per Medicaid inpatient discharge. The sum of these two numbers is each Hospital's threshold Medicaid exceptionally high cost.
  - (c) **Eligibility for a Pediatric Outlier Payment:** For Acute Hospitals providing services to children greater than one year of age and less than six years of age, eligibility for a pediatric outlier payment is calculated as follows:
    1. The average Medicaid inpatient length of stay involving children greater than one year of age and less than six years of age. If this Hospital-specific average Medicaid inpatient length of stay equals or exceeds the threshold defined in **Section 5.B.8.b(2)(a)**, then the hospital is eligible for a Pediatric Outlier Payment.

## **In-State Acute Hospitals**

2. The cost per inpatient Medicaid case involving children greater than one year of age and less than six years of age. If this Hospital-specific Medicaid inpatient cost equals or exceeds the threshold defined in **Section 5.B.8.b(2)(b)**, then the Hospital is eligible for a Pediatric Outlier Payment.
3. Payment to Hospitals: Annually, each Acute Hospital qualifying for a pediatric outlier adjustment will receive \$1,000.

### **C. Outpatient Hospital Services**

*Note: Rates for all Outpatient Hospital Services (including Emergency Department services) that are covered under a contract between the Acute Hospital and EOHHS' BH Contractor and that are provided to MassHealth Members enrolled with EOHHS' BH Contractor, shall be governed by terms agreed upon between the Acute Hospital and the BH Contractor as set forth in **Section 4.A.1** of this RFA.*

A Hospital will be paid in accordance with **Section 5.C** for Outpatient Services provided by Hospital Outpatient Departments and Satellite Clinics.

Except as otherwise provided for Outpatient Services specified in **Sections 5.C.3** through **5.C.8**, Hospitals will receive a Hospital-specific payment for each Episode, known as the Payment Amount Per Episode (PAPE) (see **Section 5.C.1.a**, below).

For the two Acute Hospitals in Haverhill and Methuen, MA, that were merged to form one licensed hospital during RY14, the RY15 PAPE of the surviving hospital is the weighted average of the two hospitals' respective RY15 PAPE amounts, calculated in accordance with **Section 5.C.1.a**, with the weighted average being based on the combined Episode volumes of the two Hospitals from the PAPE Base Year.

For Critical Access Hospitals, payment for Outpatient Services is in accordance with **Section 5.D.7**.

Hospitals will not be reimbursed for Hospital services specified as non-payable in Subchapter 6 of the MassHealth Acute Outpatient Hospital Manual, unless such services are medically necessary services provided to a MassHealth Standard or CommonHealth Member under 21 years. Providers should refer to the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) regulations at 130 CMR 450.140 et seq., regarding provision of EPSDT services to MassHealth Standard or CommonHealth Members under 21 years.

#### **1. Payment Amount Per Episode (PAPE)**

##### **a. PAPE Rate Development**

Each Hospital's RY15 PAPE is a blended rate that equally weights the Hospital's RY14 PAPE and the preliminary RY15 PAPE determined as calculated in this **Section 5.C.1.a**, provided, however, that no Hospital's RY15 PAPE shall be less than 90% of the Hospital's RY14 PAPE in effect on September 30, 2014.

## **In-State Acute Hospitals**

The preliminary RY15 PAPE is the product of the Hospital-Specific Outpatient Casemix Index and the Outpatient Statewide Standard. These components are further described in subsections (1) and (2) of this **Section 5.C.1.a**, below. Components of the calculation that were based on data from all Hospitals excluded data from the Acute Hospital from North Adams, MA, that ceased operations in FY14.

- (1) **Hospital-Specific Outpatient Casemix Index:** The hospital-specific outpatient casemix index for the current Rate Year is an average of the monthly Average EAPG Weights per Episode for the PAPE Base Year for each hospital.

The monthly Average EAPG Weight per Episode for each month is the hospital's PAPE payments divided by the number of Episodes, then divided by the applicable conversion factor. PAPE payments are based on claims for MassHealth Episodes residing in MMIS as of April 30, 2014, for the PAPE Base Year, with a status of adjudicated and paid and for which MassHealth is the primary payer.

The applicable conversion factor is: October 1, 2012 through September 30, 2013 — \$136.12.

The sum of the monthly Average EAPG Weights Per Episode for the PAPE Base Year divided by 12 is the Hospital-Specific Outpatient Casemix Index for the current Rate Year.

- (2) **Outpatient Statewide Standard** — the PAPE Base Year Outpatient Statewide Standard is adjusted so that the total payment for PAPE Covered Services provided in the PAPE Base Year equals the Total EAPG Payment in the PAPE Base Year. The result of this calculation is a PAPE Base Year Outpatient Statewide Standard of \$126.05.

The PAPE Base Year Outpatient Statewide Standard is then adjusted to account for volume and casemix changes between the PAPE Base Year and the current Rate Year. This adjusted amount is then multiplied by the Inflation Factors for Operating Costs between RY14 and RY15. The resulting RY15 Outpatient Statewide Standard is \$159.88.

### **b. Payment System**

MassHealth processes and pays clean outpatient claims in accordance with 130 CMR 450 et seq.

## **2. Emergency Department Services**

### **a. Required Screening**

All Members presenting in the Emergency Department or dedicated emergency department as defined in 42 CFR 489.24 must be screened and stabilized in accordance with applicable

## **In-State Acute Hospitals**

requirements at 42 U.S.C. 1395dd et seq., M.G.L. c. 118E, section 17A, and all applicable regulations.

### **b. Payment for Emergency Services**

Hospitals will be reimbursed for Emergency Services provided in the Emergency Department in the same manner as other Outpatient Services.

## **3. Outpatient Hospital Services Payment Limitations and PCC Plan Notification Requirements**

### **a. Payment Limitations on Outpatient Hospital Services Preceding an Admission**

Hospitals will not be separately reimbursed for Outpatient Hospital Services when an Inpatient Admission to the same Hospital, on the same date of service, occurs following the provision of Outpatient Hospital Services. See **Section 5.B.3.b(3)**.

### **b. Payment Limitations on Outpatient Hospital Services to Inpatients**

Hospitals will not be reimbursed for Outpatient Services provided to any Member who is concurrently an inpatient of any Hospital. The Hospital is responsible for payment to any other Provider of services delivered to a Member while an inpatient of that Hospital.

### **c. Notification Requirements**

For all PCC Plan Members, Hospitals must notify the Member's PCC within 48 hours after providing Emergency Department services. The Hospital must also notify the Member's PCC within 48 hours of the Member's discharge from an Inpatient Admission. EOHHS reserves the right to specify the form and format for such notification. Said notice shall include, at a minimum, the Hospital discharge instructions that are provided to the patient, which includes the Member's diagnosis, treatment, and discharge instructions.

## **4. Physician Payments**

**a.** A Hospital may only receive reimbursement for physician services provided by Hospital-Based Physicians to MassHealth Members. The Hospital must claim payment for the professional component of physician services in accordance with, and subject to: (1) the Physician regulations at 130 CMR 433.000 et seq.; (2) the Acute Outpatient Hospital regulations at 130 CMR 410.000 et seq.; and (3) other rules regarding physician payment as set forth in this RFA.

**b.** Such reimbursement shall be the lower of (1) the fee established in 101 CMR 317.00 (Medicine), 114.3 CMR 16.00 (Surgery and Anesthesia), 114.3 CMR 18.00 (Radiology) and 101 CMR 320.00 (Clinical Laboratory Services), or successor regulations as applicable (including the applicable facility fee for all services where such facility fee has been established); (2) the Hospital's Usual and Customary Charge for physician fees; or (3) the Hospital's actual charge submitted. Hospitals will not be reimbursed separately for

## **In-State Acute Hospitals**

professional fees for practitioners other than Hospital-Based Physicians as defined in **Section 2**.

- c.** Hospitals will be reimbursed for physician services only if the Hospital-Based Physician took an active patient care role, as opposed to a supervisory role, in providing the Outpatient Service(s) on the billed date(s) of service. The Hospital-Based Physician may not bill for any professional component of the service that is billed by the Hospital.
- d.** Physician Services provided by residents and interns are not separately reimbursable.
- e.** Hospitals will not be reimbursed for physician services if those services are (1) provided by a Community-Based Physician; or (2) as further described in **Section 5.C**.
- f.** In order to qualify for reimbursement for physician services provided during the provision of Observation Services, the reasons for the Observation Services, the start and stop time of the Observation Services, and the name of the physician ordering the Observation Services, must be documented in the Member's medical record.
- g.** For primary care physician services provided by Section 1202-eligible Hospital-Based Physicians, payment for the professional component is in accordance with **Section 5.O**.

Physician fee schedules are available at the State House Bookstore and at <http://www.mass.gov/eohhs/gov/laws-regs/hhs/community-health-care-providers-ambulatory-care.html>.

### **5. Laboratory Services**

#### **a. Payment for Laboratory Services**

Hospitals will be reimbursed for laboratory services according to the Outpatient Hospital regulations at 130 CMR 410.455 through 410.459, subject to all restrictions and limitations described in regulations at 130 CMR 401.000.

The maximum allowable payment for a laboratory service shall be at the lowest of the following:

- (1)** The amount listed in the most current applicable Clinical Laboratory Services fee schedule at 101 CMR 320.00 and the Surgery & Anesthesia fee schedule at 114.3 CMR 16.00, or successor regulations as applicable (available at the State House Bookstore and at <http://www.mass.gov/eohhs/gov/laws-regs/hhs/community-health-care-providers-ambulatory-care.html>).
- (2)** The Hospital's Usual and Customary Charge; or
- (3)** The amount that would be recognized under 42 U.S.C. §13951(h) for tests performed for a person with Medicare Part B benefits.

## **In-State Acute Hospitals**

### **b. Physician Services**

No additional payment shall be made for any physician service provided in connection with a laboratory service, except for Surgical Pathology Services. The maximum allowable payment is payment in full for the laboratory service.

## **6. Audiology Dispensing**

### **a. Payment for Audiology Dispensing Services**

Hospitals will be reimbursed for the dispensing of hearing aids only by a Hospital-based audiologist according to the Audiologist regulations at 130 CMR 426.00 et seq., and according to the fees established in 101 CMR 323.00 (Hearing Aid Dispensers).

### **b. Physician Payment**

Hospitals may not bill for Hospital-Based Physician services related to the provision of audiology dispensing services.

## **7. Vision Care Dispensing**

### **a. Payment for Vision Care Services**

Hospitals will be reimbursed for the dispensing of ophthalmic materials only by a Hospital-Based optometrist, ophthalmologist or other practitioner licensed and authorized to write prescriptions for ophthalmic materials and services according to the Vision Care regulations at 130 CMR 402.000 et seq., and according to the fees established in 101 CMR 315.00 (Vision Care Services and Ophthalmic Materials).

### **b. Physician Payment**

Hospitals may not bill for Hospital-Based Physician services related to the provision of vision care services.

## **8. Dental Services**

### **a. Payment for Dental Services**

Hospitals will be reimbursed for covered dental services according to the Dental regulations at 130 CMR 420.000 et seq. according to the fees established in 114.3 CMR 14.00 et seq., or successor regulations, except when the conditions in 130 CMR 420.430(A)(2) or (D) apply. When these conditions apply, EOHHS will reimburse the Hospital according to **Section 5.C.1**. The Hospital-based Dentist may not bill for any professional component of the service that is billed by the hospital.

## **In-State Acute Hospitals**

### **b. Physician Payment**

Hospitals may not bill for Hospital-Based Physician (which, as defined in **Section 2**, includes dentists) services related to the provision of dental services, except when the conditions in 130 CMR 420.430(A)(2) or (D) apply. Under those circumstances, in addition to the PAPE payment under **Section 5.C.1**, when a Hospital-Based Physician provides physician services, the Hospital may be reimbursed for such physician services in accordance with **Section 5.C.4**. The Hospital-Physician may not bill for any professional component of the service that is billed by the hospital.

## **D. Reimbursement for Unique Circumstances**

### **1. Disproportionate Share Hospital Supplemental Payment**

#### **a. Qualification**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment to Hospitals that received more than 63% of their Gross Patient Service Revenue in FY 2013 from government payers and free care as determined by the Hospital's FY 2013 -403 cost report.

#### **b. Payment Methodology**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make supplemental payments to each qualifying Disproportionate Share Hospital equal to the sum of 10 percent of its total FY14 SPAD payments and 5 percent of its total FY14 PAPE payments based on Medicaid paid claims data on file as of March 31, 2015.

### **2. Essential MassHealth Hospitals**

#### **a. Qualification**

In order to qualify for payment as an Essential MassHealth Hospital, a Hospital must itself meet, or be within a system of hospitals, any one of which meets at least four of the following criteria, as determined by EOHHS, provided that all hospitals within such system are owned or controlled, directly or indirectly, by a single entity that (i) was created by state legislation prior to 1999; and (ii) is mandated to pursue or further a public mission:

- (1) The Hospital is a non-state-owned public Acute Hospital.
- (2) The Hospital meets the current MassHealth definition of a non-profit teaching hospital affiliated with a Commonwealth-owned medical school.
- (3) The Hospital has at least 7% of its total patient days as Medicaid days.

## **In-State Acute Hospitals**

- (4) The Hospital is an acute-care general Hospital located in Massachusetts that provides medical, surgical, Emergency and obstetrical services.
- (5) The Hospital enters into a separate contract with EOHHS relating to payment as an Essential MassHealth Hospital.

### **b. Reimbursement Methodology**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment to Essential MassHealth Hospitals. The payment amount will be (i) determined by EOHHS using data filed by each qualifying Hospital in financial reports as required by EOHHS, and (ii) specified in an agreement between EOHHS and the qualifying Hospital.

EOHHS reserves the right to make payments to Essential MassHealth Hospitals in such amounts and pursuant to such methods and using such funding sources as may be approved by CMS.

Acute Hospitals that receive payment as Essential MassHealth Hospitals shall be determined by EOHHS.

### **3. Acute Hospitals with High Medicaid Discharges**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment to Acute Hospitals with High Medicaid Discharges when compared with other participating MassHealth Hospitals. To be eligible for a payment pursuant to this section, a Hospital must have more than 2.7% of the statewide share of Medicaid discharges, as determined by dividing each Hospital's total Medicaid discharges as reported on the Hospital's -403 cost report by the total statewide Medicaid discharges for all Hospitals.

The payment amount for inpatient services is the lower of (1) the variance between the Hospital's inpatient Medicaid payments and costs, or (2) the Hospital's Health Safety Net Trust Fund-funded payment amount.

The payment amount for outpatient services is the lower of (1) the variance between the Hospital's outpatient Medicaid payments and costs, or (2) the Hospital's Health Safety Net Trust Fund-funded payment amount.

EOHHS reserves the right to make payments to Acute Hospitals with High Medicaid Discharges in such amounts and pursuant to such methods and using such funding sources as may be approved by CMS.

## **In-State Acute Hospitals**

Acute Hospitals that receive payment as Acute Hospitals with High Medicaid Discharges shall be determined by EOHHS.

### **4. Supplemental Payment for High Medicaid Volume Freestanding Pediatric Acute Hospitals**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, waiver provisions, and payment limits, and full federal financial participation, EOHHS will make a supplemental payment equal to \$3.85 million to High Medicaid Volume Freestanding Pediatric Acute Hospitals, to account for high Medicaid volume. Such payment amount is determined by EOHHS based on data filed by each qualifying Hospital in its financial and cost reports, and projected Medicaid volume for the Hospital Rate Year.

EOHHS reserves the right to make payments to High Medicaid Volume Freestanding Pediatric Hospitals in such amounts and pursuant to such methods and using such funding sources as may be approved by CMS.

Acute Hospitals that receive payment as High Medicaid Volume Freestanding Pediatric Acute Hospitals shall be determined by EOHHS.

### **5. Freestanding Pediatric Acute Hospital High Complexity Supplemental Payment**

#### **a. Qualification**

In order to qualify for the Freestanding Pediatric Acute Hospital High Complexity Supplemental Payment, a Hospital must limit its admissions primarily to children and qualify as exempt from the Medicare prospective payment system.

#### **b. Payment Methodology**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment to Freestanding Pediatric Acute Hospitals, to account for the complex pediatric cases they provide care for.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$11.8 million to qualifying hospitals on a pro-rata basis according to each qualifying hospital's number of inpatient discharges in FY 2014, based on Medicaid paid claims data on file as of March 31, 2015.

### **6. Pediatric Specialty Unit High Complexity Supplemental Payment**

#### **a. Qualification**

In order to qualify for the Pediatric Specialty Unit Payment High Complexity Supplemental Payment, a Hospital must have a Pediatric Specialty Unit as defined in **Section 2**.

## **In-State Acute Hospitals**

### **b. Payment Methodology**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment to Hospitals with Pediatric Specialty Units, to account for the complex pediatric cases they provide care for.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$3 million to qualifying hospitals on a pro-rata basis according to each qualifying hospital's number of inpatient discharges in FY 2014, based on Medicaid paid claims data on file as of March 31, 2015.

### **7. Critical Access Hospitals**

The payment methods set forth in this **Section 5.D.7** apply to Critical Access Hospitals. EOHHS will pay Critical Access Hospitals an amount equal to 101 percent of the Hospital's allowable costs, as determined by EOHHS utilizing the Medicare cost-based reimbursement methodology, for both inpatient and outpatient services, as more fully described below. Interim payments will be made to Critical Access Hospitals based on the rates and methods set forth herein, which payments are provisional in nature and subject to the completion of a cost review and settlement for the time period October 1, 2014 through September 30, 2015, as described in **Section 5.D.7.c**. Subject to this **Section 5.D.7**, all sections of this RY15 RFA otherwise apply to Critical Access Hospitals. If the Hospital loses its designation as a Critical Access Hospital during this period, the payments for inpatient and outpatient services shall revert to the standard inpatient and outpatient rate methodologies set forth in **Sections 5.B** and **5.C**, as determined by EOHHS, and payments may be adjusted accordingly. In no event shall the reversion to any such rate methodologies affect the payment rates to other participating acute hospitals for the applicable rate year.

#### **a. Payment for Inpatient Services**

For Inpatient Admissions occurring in RY15, Critical Access Hospitals (CAHs) will be paid for Inpatient Services in accordance with **Section 5.B** with the following changes.

Critical Access Hospitals (CAH) will be paid an Adjudicated Payment Amount per Discharge (APAD) for those Inpatient Services for which all other in-state acute hospitals are paid an APAD. Notwithstanding **Section 5.B.1**, for Inpatient Admissions occurring in RY15, the APAD for each Critical Access Hospital is calculated as follows:

- (1) EOHHS calculated a cost-to-charge ratio for inpatient services (Inpatient CCR) for each Critical Access Hospital, which was determined by dividing the amount reported on Schedule II, line 100, column 10 (PAT EXP-INC CAP SUBTOT IP) of the hospital's FY13 -403 cost report by the amount reported on Schedule II, line 100, column 11 (GPSR SUBTOT IP) of such report.

## In-State Acute Hospitals

- (2) EOHHS then calculated 101% of the Critical Access Hospital’s Medicaid (MassHealth) inpatient costs by multiplying the hospital’s Inpatient CCR by the amount reported on Schedule VA, line 57, column 6 (MCD NON-MGD TOT IP GPSR) of the hospital’s FY13 -403 cost report, and then subsequently increasing that amount by an additional 1%.
- (3) EOHHS then derived the Critical Access Hospital’s Medicaid cost per discharge by dividing the amount that equals 101% of the hospital’s Medicaid (MassHealth) inpatient costs as determined above by the hospital’s Medicaid (MassHealth) discharges. The hospital’s Medicaid (MassHealth) discharges were derived from Schedule VA, line 25, column 6 of the hospital’s FY13 -403 cost report.
- (4) EOHHS then divided each Critical Access Hospital’s Medicaid cost per discharge, as determined in **Section 5.D.7.a(3)**, by the average FY13 inpatient casemix index (CMI) for the three Critical Access Hospitals, as determined by EOHHS.
- (5) That result is the CAH-Specific Total Standard Rate per Discharge. This is an all-inclusive rate that replaces the Wage Adjusted Statewide Operating Standard per Discharge, the Statewide Capital Standard per Discharge, and the Hospital’s Pass-Through Amount per Discharge, used in the APAD calculations for all other Hospitals.
- (6) The Critical Access Hospital’s APAD for a specific discharge is then determined by multiplying the RY15 CAH-Specific Total Standard Rate per Discharge by the discharge-specific MassHealth DRG Weight.
- (7) Critical Access Hospitals will not be subject to any adjustment for Potentially Preventable Admissions under **Section 8.1**.

The following is an illustrative example of the calculation of the Total Case Payment for a CAH’s standard APAD claim that does not also qualify for an Outlier Payment.

Table 5: Critical Access Hospital Standard APAD claim			
(Values are for demonstration purposes only)			
Hospital:	Sample Critical Access Hospital		
DRG:	203, Chest Pain. Severity of Illness (SOI) = 2.		
Line	Description	Value	Calculation or Source
1	RY15 CAH-Specific Total Standard Rate per Discharge (value for demonstration purposes only)	\$17,900.61	All Inclusive Rate (Operating & Capital)
2	MassHealth DRG Weight	0.3668	Appendix C, Chart 1
3	Pre-Adjusted APAD	\$6,565.94	Line 1 * Line 2
4	Potentially Preventable Readmission adjustment	0.0%	Not Applicable to CAHs
5	<b>Total Case Payment = Adjudicated Payment Amount per Discharge (APAD)</b>	<b>\$6,565.94</b>	Line 3 * (100% + Line 4)

Outlier Payments and Transfer per diem rates for Critical Access Hospitals are calculated and paid as described in **Sections 5.B.2** and **Section 5.B.3**, respectively, except that the APAD used for purposes of those calculations is the CAH’s APAD calculated as set forth **Section 5.D.7.a**, above, and that **Section 8.1** does not apply to CAHs.

## **In-State Acute Hospitals**

### **b. Payment for Outpatient Services**

For dates of service in RY15, Critical Access Hospitals (CAHs) will be paid for Outpatient Services in accordance with **Section 5.C** with the following changes.

Critical Access Hospitals will be paid a hospital-specific Payment Amount Per Episode (PAPE) for those Outpatient Services for which all other in-state acute hospitals are paid a PAPE. Notwithstanding **Section 5.C.1.a**, the hospital-specific RY15 PAPE for each Critical Access Hospital was calculated as follows:

- (1) EOHHS calculated a cost to charge ratio for outpatient services (Outpatient CCR) for each Critical Access Hospital, which was determined by dividing the amount reported on Schedule II, line 114, column 10 (PAT EXP-INC CAP SUBTOT OP) of the hospital's FY13 -403 cost report by the amount reported on Schedule II, line 114, column 11 (GPSR SUBTOT OP) of such report, after setting to zero all direct expenses reported on Schedule IX, Line 51 (LAB), and all gross patient service revenues reported on Schedule VI, Column 12 (LABORATORY).
- (2) EOHHS then calculated 101% of the Critical Access Hospital's Medicaid (MassHealth) outpatient costs by multiplying the Outpatient CCR by the amount reported on Schedule VA, line 70, column 6 (MCD NON-MGD TOT OP GPSR) of the hospital's FY13 -403 cost report, and then subsequently increasing that amount by an additional 1%.
- (3) EOHHS then divided the amount that equals 101% of the hospital's Medicaid (MassHealth) outpatient costs as determined above, by the hospital's Medicaid (MassHealth) PAPE Base Year Episodes. The hospital's Medicaid (MassHealth) PAPE Episodes were derived from PAPE Base Year data.
- (4) The Inflation Factor for Operating Costs between RY13 and RY14 and between RY14 and RY15 was then applied to the calculation above, to derive the Critical Access Hospital's RY15 PAPE for dates of service in RY15.
- (5) The Critical Access Hospital's RY15 PAPE will not be blended with the Critical Access Hospital's RY14 PAPE, or subject to the 90% floor, but will be the result of the calculations set forth above.

### **c. Post-RY15 Cost Review and Settlement**

Each Critical Access Hospital must timely complete all Medicaid (Title XIX) data worksheets on CMS-2552 cost reports for FY15 in accordance with the CMS Provider Reimbursement Manual - Part 2 (CMS publication 15-2) ("CMS-2552 cost reports"), and any additional instructions provided by MassHealth, and submit copies of such completed reports to EOHHS no later than February 28, 2016, or such date as otherwise determined necessary by EOHHS. Critical Access Hospitals shall also complete and provide to EOHHS upon request all such other information, and in such format, as EOHHS determines necessary to perform the review described below.

EOHHS will perform a post-RY15 review to determine whether the Critical Access Hospital received aggregate interim payments in an amount equal to 101% of allowable

## **In-State Acute Hospitals**

costs utilizing the Medicare cost-based reimbursement methodology for both inpatient and outpatient services for RY15, as such amount is determined by EOHHS (“101% of allowable costs”). EOHHS will utilize the Critical Access Hospital’s FY15 CMS-2552 cost reports and such other information that EOHHS determines is necessary, to perform this post RY15 review. “Aggregate interim payments” for this purpose shall include all hospital payments under the RY15 RFA, as determined by EOHHS, but excluding any payments under **Sections 5.D.1, 5.D.8** and **7**.

If EOHHS determines that the Critical Access Hospital was paid less than 101% of allowable costs, EOHHS will pay the Critical Access Hospital the difference between the amount that EOHHS determines is 101% of allowable costs and the aggregate interim payments. If EOHHS determines that the Critical Access Hospital was paid more than 101% of allowable costs, the Critical Access Hospital shall pay to EOHHS, or EOHHS may recoup or offset against future payments, the amount that equals the difference between the aggregate interim payments and the amount that EOHHS determines is 101% of allowable costs.

This post RY15 review and settlement will take place within approximately twelve (12) months after the close of RY15, subject to the availability of data, or, if later, at such other time as EOHHS determines the necessary documentation is available.

### **8. Disproportionate Share Hospital Behavioral Health Services Supplemental Payment**

#### **a. Qualification**

To qualify for the behavioral health supplemental payment, an Acute Care Hospital (1) must have received more than 63 per cent of its Gross Patient Service Revenue in FY13 from governmental payers and free care as determined by the Hospital’s FY 2013 -403 cost report, and (2) must provide behavioral health services to MassHealth members in FY14.

#### **b. Methodology**

(1) Subject to federal approval, including compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and the availability of full federal financial participation, EOHHS will make a supplemental payment to qualifying Hospitals in the aggregate amount of \$12,307,769 to support access to behavioral health services for MassHealth Members, with particular emphasis on children and adolescents, in accordance with the formula in **Section 5.D.8.b.(2)** below. If EOHHS does not receive federal approval for this supplemental payment, or if federal financial participation is not available for any portion of this payment, then EOHHS will instead make a supplemental payment to qualifying Hospitals in the aggregate amount of \$6,153,885 in accordance with the formula in **Section 5.D.8.b(2)** below.

## In-State Acute Hospitals

(2) Each qualifying Hospital receives an amount equal to:

*Total Payment Amount* \*

$$\left[ \left[ \frac{\text{Total IP BH rev for all Hospitals}}{\text{Total BH rev for all Hospitals}} * \left[ \left[ \frac{\text{Hospital Specific IP Pedi Adol BH Days}}{\text{Total IP Pedi Adol BH Days for all Hospitals}} * 0.6 \right] + \left[ \frac{\text{Hospital Specific IP Adult BH Days}}{\text{Total IP Adult BH Days for all Hospitals}} * 0.4 \right] \right] \right] + \left[ \frac{\text{Total OP BH rev all Hospitals}}{\text{Total BH rev for all Hospitals}} * \left[ \left[ \frac{\text{Hospital Specific OP Pedi Adol BH Encounters}}{\text{Total OP Pedi Adol BH Encounters for all Hospitals}} * 0.6 \right] + \left[ \frac{\text{Hospital Specific OP Adult BH Encounters}}{\text{Total OP Adult BH Encounters for all Hospitals}} * 0.4 \right] \right] \right]$$

**Formula Notes:**

BH rev, days, and encounters - refer to MassHealth fee for service and PCC Plan behavioral health revenue, days, and encounters, respectively, in FY14.

Hospitals - refers to qualifying Hospitals that meet the requirements of **Section 5.D.8.a**, above.

Pedi Adol – is short for “pediatric and adolescent” and refers to MassHealth members under age 19.

Adult – refers to MassHealth members age 19 and older

IP – refers to inpatient

OP – refers to outpatient

Total Payment Amount – refers to \$12,307,769 or \$6,153,885, as applicable.

**9. Supplemental Payment for Hospitals with High Volume Neonatal and Pediatric Intensive Care Unit Services**

**a. Qualification**

In order to qualify for a Supplemental Payment for Hospitals with High Volume Neonatal and Pediatric Intensive Care Unit (ICU) Services, a Hospital must have at least 109 beds licensed as pediatric, pediatric ICU, or Neonatal ICU beds, of which at least 55 must be licensed as Neonatal ICU beds.

**b. Payment Methodology**

Subject to legislative appropriation or authorization, compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make a supplemental payment of \$200,000 to qualifying Hospitals to support their provision of inpatient neonatal and pediatric ICU services.

## **In-State Acute Hospitals**

### **E. Safety Net Care Acute Hospital Payments**

In accordance with the terms and conditions of the Commonwealth's 1115 waiver governing the Safety Net Care Pool (SNCP), and subject to compliance with all applicable federal requirements, the Commonwealth will make additional payments above the amounts specified in **Sections 5.B, 5.C, and 5.D** to Hospitals which qualify for payments under the SNCP. SNCP payments are authorized by the Centers for Medicare and Medicaid Services (CMS) on a state fiscal year basis for each applicable waiver year.

Only Hospitals that have an executed Contract with EOHHS, pursuant to this RFA, are eligible for SNCP payments.

All SNCP payments are subject to federal approval and the availability of federal financial participation.

### **F. Federal Financial Participation (FFP)**

#### **1. FFP Denials**

If any portion of the RFA payment methodology or any amount paid pursuant to this RFA is not approved or is the basis of a disallowance by CMS, such payments made to the Hospital by EOHHS in excess of the federally approved methodology or amounts will be deemed an overpayment and EOHHS may recoup, or offset such overpayments against future payments.

#### **2. Exceeding Limits**

##### **a. Hospital-Specific Limits**

If any payments made pursuant to this RFA exceed any applicable federal Hospital-specific payment limits, including, but not limited to, charge limits, upper payment limits, and limits based on federally approved payment methods, such amounts will be deemed an overpayment and EOHHS may recoup, or offset against future payments, any such overpayments.

##### **b. Aggregate Limits**

If any payments made pursuant to this RFA exceed applicable federal aggregate payment limits, including, but not limited to, upper payment limits provided for in federal law, regulations, and the Commonwealth's 1115 waiver, EOHHS may exercise its discretion to apportion disallowed amounts among the affected Hospitals and to recoup from, or offset against future payments to such Hospitals, or to otherwise restructure payments in accordance with approved payment methods.

## **In-State Acute Hospitals**

### **G. Billing**

The Provider shall submit claims for all non-professional services through an 837I or Direct Data Entry (DDE) and all professional components services for Hospital –Based Physician (Inpatient and Outpatient) Services through an 837P or DDE, except where otherwise indicated by MassHealth regulations, billing instructions, Provider bulletins, or other written statements of policy, and in compliance with all applicable regulations, billing instructions, Provider bulletins, and other written statements of policy, as they may be amended periodically. In the event that a provider's only means of submission is paper, the provider must meet the MassHealth requirements of a paper submission waiver request.

### **H. Treatment of Reimbursement for Members in the Hospital on the Effective Date of the Hospital Contract**

Participating Hospitals will be paid for services provided to MassHealth Members who are admitted on or after October 1, 2014, utilizing the APAD, Outlier Payment and Transfer Per Diem payment methods and rates, as applicable, established under this RY15 RFA. Participating Hospitals will be paid utilizing the RY15 RFA Administrative Day, Psychiatric and Rehabilitation per diem payment methods and rates, as applicable, for dates of service on or after October 1, 2014, and at the RY14 RFA payment methods and rates for dates of service prior to October 1, 2014. For admissions occurring prior to October 1, 2014, the RY14 RFA SPAD, Transfer Per Diem and Outlier Day per diem payment methods will continue to apply to dates of service in RY15, as applicable, for inpatient stays that extend into RY15 for those MassHealth Members; provided that Outlier Days on or after October 1, 2014, will be payable for such admissions regardless of age when all other requirements for payment of an Outlier Day per diem payment under the RY14 RFA are satisfied.

### **I. Future Rate Years**

Adjustments may be made each Rate Year to update rates and shall be made in accordance with the Hospital Contract in effect on that date.

All provisions of the RFA requiring continuing performance shall survive the termination of such RFA.

### **J. Compliance with Legal Requirements**

The parties agree to comply with, and are subject to, all state and federal statutes, rules, and regulations governing the MassHealth Program, and reimbursement and delivery of Acute Hospital services, including but not limited to Acute Inpatient Hospital regulations at 130 CMR 415.00 et seq., Outpatient Hospital regulations at 130 CMR 410.000 et seq., and Administrative and Billing regulations at 130 CMR 450.00 et seq.; provided, however, that in the event of any conflict between the documents that are part of the Hospital's Contract with EOHHS and any MassHealth regulation now existing or hereinafter adopted, the terms of the Contract shall prevail. All references to statutes and regulations refer to such statutes and regulations as they may be amended from time to time. In addition, the parties must comply with all applicable billing instructions and Provider bulletins, and

## **In-State Acute Hospitals**

other written statements of policy issued by EOHHS and its divisions, as they may be amended from time to time.

### **K. Eligibility Verification**

EOHHS will pay the Hospital only for a covered service delivered to a Member who, on the date of service, is (1) eligible under MassHealth to receive that service, and (2) not enrolled with a MassHealth managed care provider (including EOHHS' Behavioral Health contractor) that covers the service. Each day of an inpatient Hospital stay constitutes a discrete "date of service." A Member who meets the foregoing conditions on a given date of service may not meet such conditions on all dates of service comprising a Hospital stay. The Hospital is responsible for determining, through the MassHealth Eligibility Verification System (EVS), that the Member meets the conditions stated herein on each discrete date of service.

### **L. Errors in Calculation of Pass-Through Amounts, Outpatient Casemix or Potentially Preventable Readmissions**

As set forth below, EOHHS will make corrections to a Hospital's final Hospital-specific rate retroactive to the effective date of the Contract resulting from this RFA. Such corrections will not affect computation of any statewide average, or statewide standard amounts or of any of the efficiency standards applied to inpatient and outpatient costs, or to capital costs, and shall not affect the APAD or PAPE of any other Hospital.

A Hospital must meet the particular conditions of the applicable subsection set forth below in order to request a correction to an error. Hospitals are not allowed to combine the effect of an error under one subsection to the effect of an error under another subsection in order to meet a required threshold.

#### **1. Errors in Calculation of Pass-Through Costs**

- a.** If EOHHS makes a transcription error or if EOHHS transcribes the incorrect line in the calculation of the RY15 Pass-Through Costs, resulting in an amount not consistent with the methodology, a Hospital may request a correction, which shall be at the sole discretion of EOHHS.
- b.** To qualify for a correction, Hospitals must submit, no later than January 31, 2015, copies of the relevant report(s), as referenced in **Sections 5.B.1.e**, highlighting items found to be in error, to Kiki Feldmar at the following address:

Kiki Feldmar  
Executive Office of Health and Human Services  
MassHealth Office of Providers and Plans  
100 Hancock Street, 6<sup>th</sup> Floor  
Quincy, MA 02171  
[kiki.feldmar@state.ma.us](mailto:kiki.feldmar@state.ma.us)

## In-State Acute Hospitals

### 2. Incorrect Determination of Outpatient Casemix

- a. Casemix shall be calculated on claims for outpatient Episodes as described in **Section 5.C**. In the event of an error in the calculations of casemix made by EOHHS, for Outpatient Services, resulting in an amount not consistent with the methodology and where the effect of the error is a decrease in the Hospital's PAPE of 2% or more, a Hospital may request a correction to its RY15 casemix, which shall be at the sole discretion of EOHHS.
- b. To qualify for a correction, Hospitals must contact EOHHS in writing, no later than January 31, 2015, and must include with their request for a correction all of the necessary documentation for each and every contested claim that is part of the requested correction to demonstrate that an error has occurred. Requests for corrections that do not include all necessary documentation will not be considered.

Please contact Kiki Feldmar at the following address:

Kiki Feldmar  
Executive Office of Health and Human Services  
MassHealth Office of Providers and Plans  
100 Hancock Street, 6<sup>th</sup> Floor  
Quincy, MA 02171  
[kiki.feldmar@state.ma.us](mailto:kiki.feldmar@state.ma.us)

### 3. Incorrect Determination of 30-Day Potentially Preventable Readmissions (PPR)

- a. PPR calculations shall be made as described in **Section 8.1**. In the event of an error in the calculations of PPR made by EOHHS, resulting in an amount not consistent with the methodology and where the effect of the error is a decrease in the Hospital's estimated total RY15 APAD and Outlier Payments of 2% or more, a Hospital may request a correction to its RY15 PPR calculations, which shall be at the sole discretion of EOHHS.
- b. To qualify for a correction, Hospitals must contact EOHHS in writing, no later than January 31, 2015, and must include with their request for a correction all of the necessary documentation for each and every contested discharge used in the finalized HDD and PPR calculations. Hospital reporting errors in HDD data submitted by Hospitals and used in PPR calculations, as well as changes in claims status in MMIS that are not reflected in HDD, are not subject to correction. Requests for corrections that do not include all necessary documentation will not be considered.

Please contact Kiki Feldmar at the following address:

## **In-State Acute Hospitals**

### **M. Data Sources**

If data sources specified by this RFA are not available, or if other factors do not permit precise conformity with the provisions of this RFA, EOHHS shall select such substitute data sources or other methodology(ies) that EOHHS deems appropriate in determining Hospitals' rates.

### **N. New Hospitals/Hospital Change of Ownership**

For any newly participating Hospital, or any Hospital which is party to a merger, sale of assets, or other transaction involving the identity, licensure, ownership or operation of the Hospital during the effective period of this RFA, EOHHS, in its sole discretion, shall determine on a case-by-case basis: (1) whether the Hospital qualifies for reimbursement under this RFA; and, if so, (2) the appropriate rates of reimbursement. Such rates of reimbursement shall be determined in accordance with the provisions of this RFA to the extent that EOHHS deems possible. EOHHS' determination shall be based on the totality of the circumstances. In cases where any such rate may, in EOHHS' sole discretion, affect computation of any statewide average or statewide standard payment amount and/or any cost standard, MassHealth provider numbers are not assignable to new entities.

See **Sections II.5.a and II.5.d of Appendix A**, and **Appendix B, item 11**, for requirements in the event of Hospital change of ownership.

### **O. Primary Care Physician Payments Pursuant to Section 1202 of the Affordable Care Act**

Notwithstanding **Section 5.B.5, Physician Payment** (inpatient services) and **Section 5.C.4, Physician Payments** (outpatient services), for primary care physician services provided by Section 1202-eligible Hospital-Based Physicians to MassHealth patients in calendar years 2013 and 2014, the Hospital will be paid for the professional component of such physician services in accordance with, and subject to, the regulations at 101 CMR 317.03(11) (Medicine) (or successor regulations), and any other applicable federal and state laws, regulations, rules, policies, and contract requirements regarding implementation of Section 1202 of the Affordable Care Act.

Hospitals will be paid the Section 1202 rate for the professional component of such physician services only if the Section 1202-eligible Hospital-Based Physician completes MassHealth's enrollment and attestation form for Hospital-Based Physicians and otherwise satisfies the applicable MassHealth requirements for payment at the Section 1202 rate. Hospitals must ensure that the Section 1202-eligible Hospital-Based Physicians for whose services the Hospitals are billing receive the direct benefit of the entire payment increase for each of the Section 1202 primary care services they provide.

The Hospital shall comply with, and shall assist EOHHS in complying with the requirements of any audits related to the implementation of Section 1202, including but not limited to audits conducted by EOHHS, CMS, and other state and federal authorities. Such assistance may include, but is not limited to, providing all documentation reasonable and necessary for EOHHS and CMS to determine Section 1202 rates were paid and administered in accordance with Section 1202 and all applicable federal and state laws, regulations, rules, policies, and contract requirements related to the implementation of Section 1202 of the Affordable Care Act.

## **In-State Acute Hospitals**

For additional requirements for Hospital-Based Physicians, see **Section 5.B.5**, Physician Payment (inpatient services) and **Section 5.C.4**, Physician Payments (outpatient services).

## **In-State Acute Hospitals**

### **Section 6: Payment and Reporting Provisions**

All payments under this RFA are subject to the following provisions, as well as all other rules and regulations governing service limitations, claims payment, billing and claims processing procedures, utilization control requirements and all other MassHealth conditions of payment.

#### **A. Services Requiring Practitioner Prior Approval**

EOHHS will not reimburse a Hospital for services provided when the practitioner is required to, but fails to obtain prior authorization, referrals or other approval for the service. It is the Hospital's responsibility to ensure that a practitioner providing services in the Hospital has obtained the necessary approvals.

#### **B. Hospital Payments in the Event of Third-Party Coverage**

1. Except to the extent prohibited by 42 U.S.C. § 1396a(a)(25)(E) or (F), the Hospital must make diligent efforts, as defined under 130 CMR 450.316(A), to identify and obtain Insurance Payments before billing MassHealth.
2. For Inpatient Admissions, Outpatient Services, and Emergency Department Services where the Member has Third-Party Insurance coverage, EOHHS will pay the Hospital according to Third-Party Liability provisions at 130 CMR 450.316-321.

#### **C. Notification of Hospital Election to Offer Reduced Medicare Coinsurance Amounts**

Acute Hospitals have an option to elect to reduce a Medicare beneficiary's Coinsurance amount under the Medicare outpatient prospective payment system. Such election must be made in writing to the Hospital's fiscal intermediary (FI), specifying the services to which it applies. The first such election must have been made by June 1, 2000, and for future years by December 1 of the year preceding the calendar year for which the election is being made. See 42 CFR 419.42.

Hospitals electing to take such an option must forward a copy of their notification to the FI to:

Executive Office of Health and Human Services  
Office of Medicaid  
Attn.: Claims Coordination Unit  
UMass-CHCF  
The Schrafft Center  
529 Main Street, 3rd Floor  
Charlestown, MA 02129

## **In-State Acute Hospitals**

### **D. Sterilization**

EOHHS will pay for an inpatient stay for a sterilization or for outpatient sterilization services only when the Hospital meets all requirements regarding Member consent and service delivery as set forth in MassHealth regulations. For any sterilization for which the Hospital does not demonstrate compliance with Member consent requirements, including submission of all required documentation according to all applicable regulations, MassHealth will deduct an amount equal to the Hospital's PAPE from the applicable Hospital payment amount. Furthermore, the performance of a sterilization without meeting all such requirements may result in sanctions against the Hospital in accordance with 130 CMR 450.238 et seq. as well as the applicable provisions of this RFA.

### **E. Reporting Requirements**

All Acute Hospitals must furnish ownership, licensure, financial, and statistical documents relating to MassHealth participation, services, and payment, as required by EOHHS and other governmental entities. This shall include, but is not limited to, state and federal cost reports, charge books, merged billing and discharge filings, audited financial statements, and provider enrollment information. In addition, Critical Access Hospitals must timely complete and furnish all Medicaid (Title XIX) data worksheets on CMS-2552 cost reports in accordance with the CMS Provider Reimbursement Manual - Part 2 (CMS publication 15-2) (see **Section 5.D.7**). If a Hospital does not furnish required information within the applicable time period, or within a reasonable extension of time approved in writing by EOHHS, such Hospital may have a 5% reduction applied to its APAD and Outlier Payments beginning 45 days after the required submission date. This reduction shall accrue in a cumulative manner of 5% for each month of non-compliance.

For example, the downward adjustment to the Hospital's APAD and Outlier Payments for the first month would equal 5%; if the requested documentation is not received for another month, the downward adjustment to the Hospital's APAD and Outlier Payments for the second month shall equal 10%. The adjustment shall not, in any case, exceed 50% of the APAD and Outlier Payments. If a Hospital is not in full compliance with the submission of the aforementioned information at such time as the Hospital's rates are subject to change (i.e., at the start of a new Rate Year, or upon commencement of an amendment that affects the rates), at no time can the new rates exceed the adjusted current rates. If, however, the new rates are less than the rates currently in effect, then the new rates will become effective and potentially subject to further adjustment.

Hospitals must separately identify in the state cost report any costs associated with Rehabilitation Units, in accordance with all applicable instructions.

All Acute Hospitals must report their costs and payments using the Uniform Medicaid & Uncompensated Care Cost & Charge Report (UCCR), in accordance with the requirements of the federally approved cost limit protocol and instructions by EOHHS. Such cost reporting will be based on the provider's CMS 2552 cost report and will result in reconciliation and recovery of any overpayments.

## **In-State Acute Hospitals**

### **F. Accident Reporting**

Hospitals shall use reasonable efforts to determine whether a Member's injury is due to an accident or trauma (e.g., automobile accident, accident at work). In the event that a MassHealth Member is treated at a Hospital for injuries resulting from an accident or trauma, the Hospital shall notify EOHHS in writing of the following information, at the address below:

1. Patient's name, MassHealth number (SSN or RID), address, and date of birth;
2. Date(s) of service (*from-to*);
3. Date of injury;
4. Type of accident (e.g., auto accident, accident at work, slip and fall);
5. Insured's name and address;
6. Insurance company's name;
7. Insured's attorney's name, address and telephone number.

Such written notification shall be sent to the following address:

Office of Medicaid  
Accident Trauma Recovery Unit  
P.O. Box 15205  
Worcester, MA 01615-0203  
Phone: (800) 754-1864

### **G. MassHealth Co-payments**

For any Hospital service for which a Member co-payment is applied pursuant to 130 CMR 450.130, EOHHS shall deduct the co-payment amount from the applicable Hospital payment amount specified in this RFA. Hospitals may not refuse services to any Member who is unable to pay the co-payment at the time the service is provided, and must otherwise comply with all applicable state and federal requirements regarding co-payments.

## In-State Acute Hospitals

### Section 7. Pay-for-Performance Quality Reporting Requirements and Payment Methods

This section sets forth the MassHealth Pay-for-Performance (P4P) Program quality reporting requirements and payment methods. For RFA15, P4P payments described in **Section 7.5** are contingent upon the Hospital's performance of all applicable requirements specified in **Section 7**.

Notwithstanding anything to the contrary set forth in this **Section 7**, or in the applicable EOHHS Technical Specifications Manual, or otherwise, all P4P data reporting submission deadlines, and all data file format and other electronic submission requirements, and all web portal submission requirements (including web portal location for data submission) set forth herein or therein, are subject to subsequent written instruction by EOHHS to all Hospitals in the form of a letter or other issuance. To the extent a data submission deadline is extended for all Hospitals, each Hospital must continue to collect and maintain all required P4P data for reporting to EOHHS at such future date, as instructed.

#### 7.1 Pay-for-Performance Program Requirements

The MassHealth P4P program shall operate under the following principles:

- A. Reward Hospitals for excelling in and improving quality of care delivered to MassHealth members, including the reduction of racial and ethnic health disparities.
- B. Evaluate Hospital performance using quality measures for maternity, pediatric asthma, pneumonia, surgical care infection, care coordination, emergency department, and health disparities as set forth in **Section 7.3**.
- C. Assess Hospital performance for the applicable year, in accordance with methods set forth in **Section 7.4**, to calculate performance scores that will be converted to P4P payments.
- D. Make payments to Hospitals in accordance with the methods for calculating payments set forth in **Section 7.5** of this RFA.
- E. To be eligible to receive P4P payments, Hospitals must adhere to the following quality reporting standards:
  1. Submit complete data, as described in **Section 7.3**, for each required measure listed in **Table 7-1**;
  2. Comply with all data collection and submission guidelines published in the applicable EOHHS Technical Specifications Manual version listed in **Section 7.6.A** to ensure completeness and accuracy of data submitted;
  3. Meet data submission deadlines set forth in **Section 7.6.A**. Failure to timely submit all data and reporting in the form and formats required by EOHHS may render the Hospital ineligible for some or all payments under **Section 7** of this RFA;

## In-State Acute Hospitals

4. Identify and authorize individuals to conduct electronic data transactions, via the EOHHS designated secure portal, on the Hospital's behalf;
  5. Meet the minimum reliability standards for data elements and pass data validation as defined in **Section 7.4.B**; and
  6. Achieve quality standards and performance benchmarks on reported measures data.
- F. All Hospitals contracting with EOHHS are required to participate in P4P quality reporting for all applicable measures. A Hospital's performance with respect to the requirements in **Section 7** may affect its present and future participation in the MassHealth program and its rate of reimbursement.

### 7.2 Hospital Key Quality Representative Requirements

Each Hospital must identify and designate two key quality representatives, with the appropriate expertise to coordinate and communicate with EOHHS on all aspects of **Section 7** requirements during the Contract period. The two key quality representatives shall act in accordance with, but not be limited to, the following responsibilities:

- A. Serve as the primary contact for all correspondence pertinent to the Hospital's quality performance reports, including responding to all inquiries and requests made by EOHHS, in accordance with the timeframes and format specified by EOHHS.
- B. Notify EOHHS of any changes in the key quality representatives that occur during the Contract period as soon as the information becomes available, using the *Hospital Quality Contacts Form*;
- C. Use the mailbox address: [Masshealthhospitalquality@state.ma.us](mailto:Masshealthhospitalquality@state.ma.us) to expedite communication between EOHHS and the Hospital on **Section 7** requirements and comply with the following conditions that apply to use of this e-mail address:
  1. Only the two key quality representatives are automatically entered into the e-mail distribution list of the EOHHS mailbox system. Requests to add other staff not listed on the Hospital Quality Contact Form to this mailbox must be requested in writing.
  2. Key quality representatives will receive ongoing updates from the EOHHS mailbox system on quality reporting requirements and other quality-related initiatives during the Contract period.
  3. Key quality representatives are responsible for disseminating updates sent from the EOHHS private mailbox system and communicating to all staff and/or third-party vendors involved in quality performance reporting.
- D. **Reporting Requirement.** Each Hospital must complete and submit information on all staff involved in quality reporting using the *Hospital Quality Contacts Form* per instructions in **Section 7.6.E** by the due date set forth in **Section 7.6.A**.

## In-State Acute Hospitals

### 7.3 Hospital Quality Performance Measures

Hospitals are required to collect and submit data on all quality measures for which they are eligible to report based on the measure's patient population definitions, treatment of conditions and types of services provided. **Table 7-1** identifies the specific hospital quality measures by measure ID number and name that apply for RY15 reporting.

**Table 7-1. Hospital Quality Performance Measures**

Measure ID #	Measure Set and Name	Measure Reporting Status
MAT-1 MAT-2a MAT-2b MAT-3 MAT-4	<b>Maternity Measure Set</b> Intrapartum Antibiotic Prophylaxis for Group B Streptococcus Perioperative Antibiotics for Cesarean Section –Antibiotic Timing Perioperative Antibiotics for Cesarean Section – Antibiotic Selection Elective Delivery Prior to 39 Completed Weeks Gestation Cesarean Section - Nulliparous term singleton vertex	No change    Begin As of Q1-2015
CAC-1a CAC-2a CAC-3	<b>Pediatric Asthma Measure Set</b> Children's Asthma Care - Inpatient Use of Relievers Children's Asthma Care - Inpatient Use of Corticosteroids Children's Asthma Care – Home management plan of care	No change
PN-6	<b>Community Acquired Pneumonia Measure Set</b> Appropriate antibiotic selection for CAP in immuno-competent patients	Discontinue As of Q1-2015
SCIP-1a SCIP-2a SCIP-3a	<b>Surgical Care Infection Prevention Measure Set</b> Prophylactic antibiotic received within 1 hour prior to surgical incision Appropriate antibiotic selection for surgical prophylaxis Prophylactic antibiotic discontinued w/in 24 hrs after surgery end time	No change
HD-2	<b>Health Disparities Measure</b> Health Disparities Composite	No change
CCM-1 CCM-2 CCM-3	<b>Care Coordination Measure Set</b> Reconciled medication list received at discharge (inpatient) Transition record with specified data received at discharge (inpatient) Timely transmission of transition record (inpatient)	No change
ED-1 ED-2	<b>Emergency Department Measure Set</b> Median time from ED arrival to ED departure for admitted ED patient Median time from admit decision to ED departure for admitted patients	No change
TOB-1 TOB-2 TOB-3	<b>Tobacco Cessation Measure Set</b> Tobacco use screening Tobacco use treatment provided or offered Tobacco use treatment provided or offered at discharge	Begin As of Q1-2015 Begin As of Q1-2015 Begin As of Q1-2015

**A. Quality Performance Measure Sets.** The quality performance measure sets listed in **Table 7-1** include individual measures that are part of a measure set and one composite measure (HD-2). In RY15, measure reporting status includes the continuation of data collection that began in the previous Fiscal Year (Q1-2014: January 1, 2014 - March 31, 2014), as well as certain measure reporting status updates, as follows:

1. *Maternity Measure Set:* In RY15, there are no changes to the reporting status for MAT-1, MAT-2a, MAT-2b and MAT 3 measures listed within this measure set in **Table 7-1**, and Hospitals must continue to collect and report on these maternity measures in RY15. In addition, a new

## In-State Acute Hospitals

cesarean section measure reporting requirement (MAT-4) will begin with the Q1-2015 data submission cycle. See **Table 7-1**.

2. *Pediatric Asthma Measure Set*: No changes apply to the reporting status for the individual children's asthma care measures listed in **Table 7-1**. Hospitals must continue to collect and report on these measures in RY15.
3. *Community Acquired Pneumonia Measure Set*: In RY15, Hospitals must continue to collect and report on the PN-6 measure for the remaining quarter data cycles (Q2-2014, Q3-2014 and Q4-2014) that will complete calendar year data for RY15. The PN-6 measure reporting requirement will be discontinued as of the Q1-2015 data cycle.
4. *Surgical Care Infection Prevention Measure Set*: No changes apply to the reporting status for the individual surgical care infection prevention measures listed in **Table 7-1**. Hospitals must continue to collect and report on these measures in RY15.
5. *Care Coordination Measure Set*: No changes apply to the reporting status for the individual care coordination measures listed in **Table 7-1**. Hospitals must continue to collect and report on these measures in RY15.
6. *Emergency Department Measure Set*: No changes apply to the reporting status for the individual ED measures listed in **Table 7-1**. Hospitals must continue to collect and report on these measures in RY15. Hospitals are required to report on the entire ED-1 and ED-2 measure population strata as referenced in the applicable *EOHHS Technical Specifications Manual*. However, performance evaluation will be based on ED-1b and ED-2b measures only.
7. *Tobacco Cessation Measure Set*. In RY15, EOHHS will introduce reporting for a new tobacco cessation measure category that includes the measures listed in **Table 7-1**. Hospitals are required to collect and report these new measures beginning with the Q1-2015 data submission cycle.
8. *Health Disparities Composite Measure*: This composite measure will be comprised of aggregate data from specific individual measures (i.e., maternity, pediatric asthma, community acquired pneumonia, care coordination and surgical care infection prevention measure sets), listed in **Table 7-1**, on which the hospital reports. Hospitals must ensure that all quality measures data collected includes Race, Hispanic Indicator, and Ethnicity codes and allowable values referenced in the applicable *EOHHS Technical Specifications Manual*. In addition, Hospitals must ensure that the sampling of cases requested for chart validation purposes includes proper documentation to verify the Race, Hispanic Indicator, and Ethnicity codes against the quality measures data files.

**B. EOHHS Measure Specifications.** All Hospitals must adhere to the data collection and reporting guidelines contained in the applicable *EOHHS Technical Specifications Manual* version listed in **Section 7.6**, for the reporting of all measures listed in **Table 7-1**. This comprehensive manual contains technical details on data element definitions, clinical algorithms for inclusion and exclusions that apply to numerators/denominators, sampling guidelines, data abstraction tools, XML schema, data dictionary, portal system requirements, Medicaid payer source code instructions, race/ethnicity codes, and more. EOHHS updates the *EOHHS Technical Specifications Manual* regularly and changes to reporting become effective with quarter reporting periods as specified in

## In-State Acute Hospitals

**Table 7-1** of this RFA. Refer to **Section 7.6.A** of this RFA for the appropriate updated versions of the *EOHHS Technical Specifications Manual* for the applicable quarterly data reporting cycle.

- C. **All Medicaid Payer Data Collection.** Hospital quality reporting for the measures listed in **Table 7-1** must be collected on all Medicaid payer data. Detailed instructions on all Medicaid payer data reporting requirements, including all relevant and new Medicaid payer codes resulting from the implementation of the Affordable Care Act, are included in the applicable version of the *EOHHS Technical Specifications Manual* referred to in **Section 7.6.A**.
- D. **Data Accuracy and Completeness Requirements.** Hospitals are required to submit complete data on all measures in the form of electronic data files, aggregate ICD patient population data, and proper documentation for chart validation purposes for each quarterly discharge period being reported. The electronic data files must include all cases that meet the inclusion criteria for each measure's eligible patient population, and conform to the XML file layout format with all required MassHealth patient identifier data. Each Hospital must also enter the ICD patient population data that supplements the upload of electronic data files, for each reporting quarter, via the secure portal, in accordance with instructions set forth in the applicable version of *EOHHS Technical Specifications Manual*, by submission deadlines listed in **Table 7-4 of Section 7.6**. Each Hospital is required to sign and submit a data accuracy and completeness attestation form, per instructions in **Section 7.6.E** by the due date set forth in **Section 7.6.A**.

### 7.4 Performance Assessment Methods

Hospital performance will be determined by assessing performance on each measure the Hospital reports on. Performance assessment methods include computing measure rates, data validation scores, performance thresholds, assignment of quality points, and total performance scores, as described below.

**A. Measure Calculation.** Each measure will be calculated using the following methods:

1. *Individual Measure Rate:* A measure rate is calculated by dividing the numerator by the denominator, to obtain a percentage for each individual measure listed in **Table 7-1** except for the ED measures. The ED measures are calculated using a median time outcome from all patient level time data reported.
2. *Health Disparities Composite Measure:* The HD-2 measure is calculated by dividing the composite numerator rate by the composite denominator rate for each racial/ethnic group. The composite numerator rate is created by summing the numerators of individual measures and the composite denominator rate is created by summing the denominators of individual measures the Hospital reports on. A separate reference group composite rate is calculated by combining all racial/ethnic groups from the Hospitals' reported data. Each racial/ethnic group composite rate for an individual Hospital is then compared to the reference group composite rate and a between group variance (BGV) statistic is calculated for each racial/ethnic composite group. Each of the racial/ethnic group BGV statistics are summed to yield the final disparity composite value BGV statistic. The composite measure and disparity composite value are calculated only for Hospitals that report on more than one racial group in their electronic data files. The numerators and denominators for this measure are further defined in the applicable

## In-State Acute Hospitals

*EOHHS Technical Specifications Manual* listed in **Section 7.6.A**. As noted in **Section 7.3.A.8** the following individual measure sets - maternity, pediatric asthma, community acquired pneumonia, care coordination and surgical care infection prevention -- will be included in the HD-2 composite calculation. The ED measure set will not be included in the HD-2 measure calculation because a median time outcome cannot be combined with a composite rate outcome.

**B. Data Validation Requirements.** All reported measures are subject to data validation that requires meeting the minimum reliability standard of 80 percent for data elements. Hospitals are considered to have “passed” validation if the overall agreement score of 80 percent has been met. Passing data validation is required prior to computing a Hospital’s performance scores on each measure category pursuant to **Section 7.5**. The applicable *EOHHS Technical Specifications Manual* version, listed in **Section 7.6.A**, provides detailed information on data validation methods that apply to all quality measures.

**C. Individual Measures Performance Assessment.** Each individual measure’s performance will be assessed on levels for attainment, improvement and benchmark defined as follows:

### 1. Setting Performance Thresholds

- a. *Attainment Threshold:* represents the minimum level of performance that must be achieved on each individual measure to earn attainment points. The attainment threshold is defined as the median performance (50<sup>th</sup> percentile) of all hospitals in the previous reporting year.
- b. *Improvement Range:* represents the minimum level of performance achieved above the previous year, but below the benchmark, that must be achieved on each individual measure to earn improvement points; and
- c. *Benchmark:* represents the highest level (exemplary) performance achieved on each individual measure to earn the maximum amount of quality points. The benchmark performance level is set at the mean of top decile (90<sup>th</sup> percentile) of all hospitals the previous reporting year.

Performance thresholds are derived from hospital reported data to calculate minimum attainment thresholds and benchmarks on each individual measure. Performance thresholds for the MassHealth-specific measures (maternity, pediatric asthma, care coordination) are calculated using the previous year All Medicaid payer reported data. Performance thresholds on the nationally reported measures (pneumonia, surgical infection prevention, emergency department) are calculated using previous year state-level data obtained from the CMS Hospital Compare website.

**2. Quality Points System.** A Hospital’s performance on each individual measure reported will be calculated using a quality point system. Hospitals can earn a range of quality points (from 0-10 points) based on where the Hospital’s measure rate falls, relative to the attainment, improvement and the benchmark as follows:

- 1) *Attainment Points.* A Hospital can earn points for attainment based on relative placement between the attainment and benchmark. If a Hospital’s rate for the measure is:

## In-State Acute Hospitals

- i. *Equal to or less than* the attainment threshold, it will receive zero (0) points for attainment.
- ii. *Within the attainment range (greater than the attainment threshold but below benchmark)* it will receive anywhere from 1 to 9 points for attainment.
- iii. *Equal to or greater than* the benchmark, it receives 10 points for attainment.

2) *Improvement Points.* A Hospital can earn points for improvement based on how much the Hospital's measure rate has improved from the previous reporting year period. If a Hospital's rate for the measure is:

- i. *Equal to or less than* previous year, it will receive zero (0) points for improvement.
- ii. *Within the improvement range*, it will receive anywhere from 0 to 9 points for improvement.

3. **Quality Scoring Criteria.** The following criteria apply to awarding quality points for individual measures the Hospital reports on:

A. If the Hospital has failed validation, per **Section 7.4.B**, in the previous reporting year, data from that period is considered invalid for use in calculating comparative year performance. Therefore, the Hospital would not be eligible for improvement points. However, the Hospital may be eligible for attainment points on each individual measure, based on calculation of RY15 data if it passed validation in RY15 and also met the criteria in **Section 3.B** below.

B. Attainment or improvement points are awarded only after the hospital has established an initial baseline rate for each eligible measure, per **Section 7.4.A.1**. The initial baseline rate serves as the starting point that will be used to compare future performance data. Attainment or improvement points are not awarded to a newly reported measure category or when a new sub-measure is reported under an existing category.

C. Newly reported measures data is used to set the attainment and benchmark thresholds for all hospitals. When the attainment and benchmark thresholds for all hospitals indicate suboptimal performance, then no attainment points will be assigned for any hospital (e.g.: when improvement would be indicated by an increase in score, but the attainment or benchmark threshold is 0%; or when improvement would be indicated by a decrease in score, but the attainment or benchmark threshold is 100%).

**D. Health Disparities Composite Measure Performance Assessment.** The health disparities composite measure performance will be assessed using the following methods:

### 1. Setting Performance Thresholds

- a. *Decile Ranking Method.* Performance will be assessed using a method that determines the Hospital's rank, relative to other hospitals, based on the decile ranking system. Hospitals that meet the measure calculation criteria, per **Section 7.4.A.2**, are divided

## In-State Acute Hospitals

into ten groups (deciles) based on their disparity composite value, so that approximately the same number of hospitals fall within each decile.

- b. *Target Attainment Threshold.* The target attainment threshold represents the minimum level of performance that must be achieved to earn incentive payments. The target attainment is defined as the boundary for a disparity composite value that falls above the 2<sup>nd</sup> decile group, as shown in **Table 7-2** below.

### 2. Disparity Composite Scoring Method

- a. *Disparity Composite Value Ranking.* All Hospital disparity composite values, computed per **Section 7.4.A.2**, are rounded to six decimal places. All composite values are ranked from highest to lowest so approximately the same number of hospitals fall in each decile group.
- b. *Conversion Factor.* Each decile group is assigned a weighted conversion factor associated with the decile threshold, as shown in **Table 7-2** below.

**Table 7-2. Decile Performance Thresholds**

Performance Threshold	Decile Group	Conversion Factor
Top Decile	10 <sup>th</sup> decile	1.0
	9 <sup>th</sup> decile	.90
	8 <sup>th</sup> decile	.80
	7 <sup>th</sup> decile	.70
	6 <sup>th</sup> decile	.60
	5 <sup>th</sup> decile	.50
	4 <sup>th</sup> decile	.40
	<i>Target Attainment</i>	3 <sup>rd</sup> decile
Lower Deciles	2 <sup>nd</sup> decile	0
	1 <sup>st</sup> decile	(zero)

To meet the target attainment threshold the Hospital’s disparity composite value must exceed the value above the 2<sup>nd</sup> decile cut-off point to fall in the next decile. Disparity composite values that fall into the 1<sup>st</sup> and 2<sup>nd</sup> decile group are assigned a conversion factor of zero. All disparity composite values that fall within the same given decile group are assigned the same conversion factor.

**E. Performance Score Calculations.** A Hospital’s performance score for the individual and health disparities composite measures will be computed using the methods described below:

- 1) **Individual Measures.** A Hospital’s performance score, for each individual measure it is eligible to report on, is calculated based on the quality point system methods outlined in **Section 7.4.C** of this RFA. The following methods apply to computing the points earned:
  - i. *Attainment Points.* The number of “attainment points” a Hospital receives is determined by the ratio of the difference between the Hospital’s measure rate and the attainment threshold divided by the difference between the *benchmark* and the

## In-State Acute Hospitals

*attainment threshold.* This ratio is multiplied by 9 and increased by 0.5. The Hospital’s “attainment points” will be calculated based on the following formula:

Hospital’s Measure Rate – Attainment	$\times 9 + 0.5 = \text{Hospital’s Attainment Points Earned}$
Benchmark - Attainment	

- ii. *Improvement Points.* The number of “improvement points” a Hospital receives is determined by the ratio of the difference between the Hospital’s Current Measure Rate and the Previous Year’s Measure Rate divided by the difference between the benchmark and the Previous Year’s Measure Rate. This ratio is multiplied by 10 and decreased by 0.5. The Hospital’s “improvement points” will be calculated based on the following formula:

Current Measure Rate – Previous Year’s Measure Rate	$\times 10 - 0.5 = \text{Hospital’s Improvement Points Earned}$
Benchmark – Previous Year’s Measure Rate	

All attainment and improvement points earned will be rounded to the nearest whole number (e.g., 3.3 = 3.0 and 3.5 = 4.0).

- iii. *Total Performance Score.* The total performance score, for the individual measures, reflects a percentage of quality points earned out of the total possible points for each measure category, pursuant to **Section 7.5**. For each quality measure category, the quality points awarded are the higher of the attainment or the improvements points earned. The total awarded quality points for each measure category is divided by the total possible points to obtain the total performance score based on the following formula:

Total Awarded Points	$\times 100\% = \text{Total Performance Score}$
Total Possible Points	

- 2) **Health Disparities Composite Measure Performance Score.** The performance score for the health disparities measure reflects the equivalent of the assigned conversion factor, per **Section 7.4.D**, that is calculated based on the following formula:

(Conversion Factor) x 100%	= Composite Performance Score
----------------------------	-------------------------------

**F. Performance Evaluation Periods.** In RY15, the following performance evaluation periods apply:

- 1. **Individual Measures:** Individual measures will be evaluated using calendar year measures data reported for the comparison year (January 1, 2014 to December 31, 2014 discharge period) and previous year’s reported data (January 1, 2013 to December 31, 2013 discharge period). For detailed information about comparative performance periods that apply to individual measures, refer to the applicable *EOHHS Technical Specifications Manual* version listed in **Section 7.6.A**.

## In-State Acute Hospitals

2. **Health Disparities Composite Measure:** each Hospital’s performance score will be evaluated using all applicable measures data reported, pursuant to **Section 7.4.A.2**, for the calendar year (January 1, 2014 to December 31, 2014) discharge periods *only*. The decile ranking method evaluates performance on a year-by-year basis and does not use comparison year data. Each year the Hospital’s performance rank will be determined using the decile ranking method described in **Section 7.4.D**.

### 7.5 Pay-for-Performance (P4P) Payment Calculation Methods

As set forth in **Section 7.4** of this RFA, a Hospital may qualify to earn P4P payments if they meet data completeness requirements, data validation requirements and achieve performance thresholds for measures listed in **Section 7.3** of this RFA. Each measure set’s performance is calculated from the calendar year reported data, using the methods outlined in **Section 7.4** to produce performance scores that are converted into P4P payments. This section describes the methods used to convert individual and composite measure performance scores into hospital P4P payments.

**A. Payment Calculation.** Incentive payments for each quality measure category will be calculated using methods described below.

1. *Maximum Allocated Amount.* Incentive payments under the RFA may cumulatively total no more than the maximum amount allotted for each quality measure category in **Table 7-3** below.

**Table 7-3. Payment Calculation Components**

Quality Measure Category	Maximum Allocated Amount	Estimated Eligible Medicaid Discharges*	Estimated Per Discharge Amount*
Maternity	\$ 22,000,000	12,588	\$ 1,747.70
Pediatric Asthma	\$ 1,500,000	453	\$ 3,311.26
Community Acquired Pneumonia	\$ 2,500,000	1,517	\$ 1,647.99
Surgical Care Infection Prevention	\$ 3,500,000	1,090	\$ 3,211.01
Health Disparities Composite	\$ 2,500,000	67,436	\$ 37.07
Care Coordination	\$ 11,000,000	51,788	\$ 212.40
Emergency Department	\$ 7,000,000	29,675	\$ 235.89
<b>TOTAL</b>	<b>\$50,000,000</b>	--	--

\* The estimated eligible Medicaid discharges and estimated per-discharge amount for each measure category are based on FY12 HDD. The final numbers on these two columns will be determined based on FY14 HDD, when that data becomes available.

2. *Eligible Medicaid Discharges.* The eligible Medicaid discharges for each quality measure category listed in **Table 7-3** will be calculated based on the FY14 HDD for payer codes 103 and 104 *only* using the following methods:

## In-State Acute Hospitals

- a. **Individual Measure Categories.** For the individual measures (maternity, pediatric asthma, community acquired pneumonia, care coordination, surgical care infection prevention, and emergency department), the eligible Medicaid discharges are based on the FY14 HDD casemix data that met payer codes 103 and 104 and the International Classification of Diseases (ICD) population requirements referenced in the EOHHS *Technical Specifications Manual* for each measure category the hospital reported on, pursuant to **Section 7.3**.
  - b. **Health Disparities Composite Measure Category.** For the health disparities composite measure, the eligible Medicaid discharges are based *only* on the sum of - discharges for the specific individual measure categories (maternity, pediatric asthma, community acquired pneumonia, care coordination, surgical care infection prevention) that the hospital reported on and that meets the criteria for the composite measure calculation per **Section 7.4.A.2**. The emergency department measure is the only individual measure category for which Medicaid discharges will not be included in the health disparities measure pursuant to the measure calculation conditions explained in **Section 7.4.A.2**.
3. *Quality Measure Category per Discharge Amount.* **Table 7-3** above estimates the per-discharge amount based on FY12 HDD for each measure category. The final per-discharge amounts will be determined based upon FY14 HDD for each measure category. To determine these amounts, EOHHS will use the following formula:

Maximum Allocated Amount	= Quality Measure Category per-Discharge Amount
Statewide Eligible Medicaid Discharges	

For each quality measure category, EOHHS has established a maximum allocated amount, noted in **Table 7-3**. The maximum allocated amount will be divided by the statewide eligible Medicaid discharges to determine the per-discharge amount for each measure category.

**B. Incentive Payment Formulas.** Payments for each quality measure category will be calculated based on the following formulas:

- a. **Individual Measure Categories:** Incentive payments will be calculated by multiplying the Hospital's eligible Medicaid discharges by quality measure category per-discharge amount by the total performance score, per **Section 7.4.E** using the following formula:

(Hospital's Eligible Medicaid discharges) x (Quality Measure Category per-Discharge Amount) x (Total Performance Score)	= Hospital P4P Payment Individual Measure Category
---	---

## In-State Acute Hospitals

- b. Health Disparities Composite Measure:** Incentive payments will be calculated by multiplying the Hospital’s eligible Medicaid discharges by quality measure category per-discharge amount by the composite performance score per **Section 7.4.E** using the following formula:

$\frac{\text{(Hospital's Eligible Medicaid discharges)} \times \text{(Quality Measure Category per-Discharge Amount)}}{\text{(Composite Performance Score)}} \times$	$= \text{Hospital P4P Payment Health Disparity Measure Category}$
--	---

A Hospital’s total incentive payment will be the sum of the P4P payments for each quality measure category for which the Hospital qualifies for payment. This aggregate sum is also referred to as the “Hospital’s Final RY15 RFA Total P4P Payment Amount”.

- C. Interim Payment Option.** EOHHS in its discretion may, after the end of RY15, pay each Hospital, as an interim RY15 P4P payment under **Section 7** of this RY15 RFA, a percentage of the amount EOHHS determines is the Hospital’s final total P4P payment amount earned under the RY14 RFA, or such other amount as may be determined by EOHHS (“Interim RY15 P4P Payment Amount”). Payment of any Interim RY15 P4P Payment Amount to Hospitals will be provisional in nature and will be subject to a review and settlement to be performed by EOHHS by December 31, 2016. If as a result of any such review and settlement, EOHHS determines that a Hospital was paid less than EOHHS determines is the Hospital’s Final RY15 RFA Total P4P Payment Amount as calculated in accordance with this **Section 7**, EOHHS will pay the Hospital the difference between the Hospital’s Final RY15 RFA Total P4P Payment Amount and the Hospital’s Interim RY15 P4P Payment Amount. If EOHHS determines that a Hospital was paid more than its Final RY15 RFA Total P4P Payment Amount as calculated under this **Section 7**, EOHHS may recoup or offset against future payments, the amount that equals the difference between the Interim RY15 P4P Payment Amount and the amount EOHHS determines is the Hospital’s Final RY15 RFA Total P4P Payment Amount.

### 7.6 Pay-for-Performance Reporting Requirements

Each Hospital must submit all information required for each measure listed in **Section 7.3** and comply in accordance with reporting requirements set forth below.

- A. Data Submission Timelines.** All measures data for the hospital quality performance measures listed in **Section 7.3** must be submitted in quarter reporting cycles on the due dates noted in **Table 7-4**. The hospital hard-copy forms must be submitted per instructions set forth below under **Section 7.6.E**.

**Table 7-4. Data Submission Timelines**

Submission Due Date	Data Submission Requirement	Data Reporting Format	Detailed Reporting Instructions
<b>October 1, 2014</b>	Hospital Quality Contacts Form Hospital Data Accuracy and Completeness Attestation Form	HospContact_2015 Form HospDACA_2015 Form	RFA Section 7.2.D RFA Section 7.6.E
<b>May 15, 2015</b>	Q2-2014 (Apr – June 2014)	Electronic Data Files; and	RY2015 Technical Specs

## In-State Acute Hospitals

Submission Due Date	Data Submission Requirement	Data Reporting Format	Detailed Reporting Instructions
	Q2-2014 ICD Population Data Q3-2014 (July – Sept 2014) Q3-2014 ICD Population Data Q4-2014 (Oct – Dec 2014) Q4-2014 ICD Population Data	ICD On-line data entry form (via MassQEX Portal)	Manual (Version 8.0)
<b>November 13, 2015</b>	Q1-2015 (Jan – Mar. 2015) Q1-2015 ICD Population Data Q2-2015 (Apr – June 2015) Q2-2015 ICD Population Data	Electronic Data Files; and ICD On-line data entry form (via MassQEX Portal)	Technical Specs Manual (Version TBD)

**B. Data Reporting Format.** All electronic data must be submitted using the following formats:

1. **MassHealth Quality Exchange (MassQEX) Portal.** EOHHS has designated the MassQEX website as the secure portal for the submission of all electronic data files required in **Section 7.3** that meets HIPAA requirements to ensure data confidentiality is protected. All Hospitals must identify and authorize staff that will conduct data transactions on their behalf, plus meet portal system requirements. All users of the MassQEX portal system are required to complete the on-line registration form via the website, which requires authorization from the Hospital’s Chief Executive Officer and the EOHHS vendor to establish user accounts for uploading data, per instructions set forth in the *EOHHS Technical Specifications Manual*. The MassQEX web portal can only be accessed by registered users through the following URL: <http://massqex.ehs.state.ma.us/massqex>.
2. **ICD On-line Data Entry Form.** All aggregate ICD patient population data must be reported via the secure web portal using the on-line data entry form. This form is only visible to registered users after they have logged into the MassQEX system. Hospitals must comply with ICD data entry for each quarterly submission cycle even when the hospital has zero cases to report during a given quarter. Only Hospitals, and not third-party data vendors, are authorized to enter ICD data. Instructions on how to access and enter the ICD data are contained in the appropriate *EOHHS Technical Specifications Manual*.

**C. Technical Specifications Manual.** EOHHS publishes a comprehensive manual as a supplement to this RFA, which contains technical instructions, as described in **Section 7.3**, to assist hospitals in data collection and reporting of measures required in **Section 7.3**. The contents of this manual may be updated during the contract Rate Year to clarify measurement and reporting instructions as needed. Hospitals are responsible for downloading and using the appropriate versions of EOHHS Technical Specifications Manual that apply to each quarterly discharge data period being collected and submitted, as noted in **Section 7.6.A**. Failure to adhere to appropriate versions of the manual will result in the portal rejecting clinical data files. All versions of the manuals are available on the MassQEX website at <http://massqex.ehs.state.ma.us/massqex>; click on the “Specifications Manual” tab.

**D. Third-Party Data Vendors.** Hospitals can identify third-party vendors to conduct clinical data file transactions on their behalf via the MassQEX secure portal. Third-party data vendors must follow the registration process and establish user accounts, if previously authorized by the Hospital. Hospitals are responsible for communicating directly with their data vendors on all aspects of data reporting requirements set forth in **Section 7** of this RFA, including adherence

## In-State Acute Hospitals

to the appropriate versions of the *EOHHS Technical Specifications Manual* to ensure completeness and accuracy of data files submitted on the Hospital's behalf.

### E. Hard Copy Reporting Forms

1. **Hospital Quality Contact Form.** Each Hospital must complete and submit information on all staff involved in quality reporting using the HospContact 2015.pdf fillable form. This form is due at the beginning of the rate year and must be resubmitted when any change in key quality representatives occurs.
2. **Hospital Data Accuracy and Completeness Attestation Form.** Each Hospital must submit this form to acknowledge data completeness requirements pursuant to **Section 7.3.D** using the HospDACA\_2015.pdf fillable form. This form must be signed by the Hospital's chief executive officer and is due only at the beginning of each rate year.

Electronic versions of these forms are posted on the Mass.gov website "*Special Notices to Hospitals*" at: <http://www.mass.gov/eohhs/gov/laws-regs/masshealth/special-notices-for-hospitals.html>. The form can also be obtained by sending a request to the EOHHS mailbox at [Masshealthhospitalquality@state.ma.us](mailto:Masshealthhospitalquality@state.ma.us).

Hospitals must mail ***one*** hard copy of the *Hospital Quality Contacts Form and the Hospital Data Accuracy and Completeness Attestation Form*, with a typed cover letter using Hospital stationery that identifies content enclosed, to Kiki Feldmar at the following address:

Ms. Kiki Feldmar  
Executive Office of Health and Human Services  
MassHealth Office of Providers and Plans  
100 Hancock Street, 6<sup>th</sup> Floor  
Quincy, MA 02171

Hard-copy submissions must be postmarked by close of business on the due date specified in **Table 7-4**.

## In-State Acute Hospitals

### Section 8: Other Quality- and Performance-Based Payments

The following provisions regarding Potentially Preventable Readmissions (PPRs), Provider Preventable Conditions (PPCs), and Serious Reportable Events (SREs), reflect and further EOHHS' commitment to value-based purchasing and to help ensure safer and cost-effective care delivery to MassHealth members by encouraging Hospitals to establish measures and actions to actively improve performance in patient care safety, reduce readmissions, and avoid preventable errors.

#### 8.1 30-day Potentially Preventable Readmissions (PPRs)

Hospitals with a greater number of Actual Potentially Preventable Readmission (PPR) Chains than Expected PPR Chains, based on data specified in **8.1.B** will be subject to a percentage payment reduction per discharge calculated using the methodology described below. This reduction will be applied to Hospitals identified using the methodology described below.

##### A. Definitions

**Actual PPR Chains:** The actual number of PPR Chains for a specific Hospital.

**Actual PPR Volume:** The number of Actual PPR Chains for the time period.

**Actual PPR Rate:** The number of Initial Admissions with one or more qualifying Clinically Related PPRs within a 30-day period divided by the total number of At-risk Admissions.

**At-risk Admissions:** The number of Total Admissions considered at risk for readmission, as determined by the 3M PPR methodology.

**Clinically Related:** A requirement that the underlying reason for readmission be plausibly related to the care rendered during or immediately following a prior Hospital admission.

**Expected PPR Chains:** The number of PPR Chains a Hospital, given its mix of patients as defined by All Patient Refined Diagnosis Related Group (APR-DRG) category and severity of illness level, would have experienced had its rate of PPRs been identical to that experienced by a reference or normative set of Hospitals.

**Expected PPR Rate:** The number of Expected PPR Chains divided by the total number of At-risk Admissions. The expected rate for each APR-DRG is the statewide average Actual PPR Rate for that APR-DRG.

**Excess PPR Volume:** The number of Actual PPR Chains above the number of Expected PPR Chains, as calculated by the 3M PPR methodology, for a specific Hospital. For a Hospital for which the number of Actual PPR Chains is equal to or less than the number of Expected PPR Chains, there is no Excess PPR Volume.

## **In-State Acute Hospitals**

**Hospital Discharge Volume:** The number of Hospital discharges in FY13 for which a SPAD was paid, as determined by claims in MMIS as of May 30, 2014 and for which MassHealth is the primary payer.

**Initial Admission:** An admission that is followed by a Clinically Related readmission within a specified readmission time interval. Subsequent readmissions relate back to the care rendered during or following the Initial Admission. The Initial Admission initiates a PPR Chain.

**Potentially Preventable Readmission (PPR):** A readmission (return hospitalization within the specified readmission time interval) that is Clinically Related to the Initial Admission.

**PPR Chain:** A PPR or a sequence of PPRs. A PPR Chain can extend beyond 30 days, as long as the time between each discharge and subsequent readmission is within the 30-day time frame. Therefore, if Patient X is admitted on September 4<sup>th</sup>, readmitted on September 20<sup>th</sup>, and readmitted again on October 18<sup>th</sup>, that sequence is calculated as one (1) PPR Chain.

**Readmission:** A return hospitalization to an acute care Hospital that follows a prior Initial Admission from an acute care Hospital. Intervening admissions to non-acute care facilities are not considered readmissions.

**Total Admissions:** The total number of Medicaid FFS/PCC Plan admissions for the time period, excluding mental health and substance abuse diagnoses.

### **B. Determination of Readmission Rates and Volumes**

PPRs are identified in CHIA's Hospital Discharge Data (HDD) for MassHealth Primary Care Clinician and Fee-for-Service non-psychiatric discharges (payer types 103 and 104 as reported by the Hospital) by using the 3M PPR software version 30. The time period for identifying Total and At-risk Admissions was from September 1, 2012 to August 31, 2013, based on date of discharge. The time period for identifying PPRs associated with these At-risk Admissions was from September 1, 2012 to September 30, 2013 based on date of discharge. To calculate hospital-specific Expected PPR Chains, At-risk Admissions and Actual PPR Chains from the Hospital from North Adams, MA, that ceased operations in FY14 were excluded; furthermore, the At-risk Admissions and Actual PPR Chains for the specialty hospitals of Dana Farber Cancer Institute and the Massachusetts Eye and Ear Infirmary were not included in the calculation of the Expected PPR Rate.

#### **1. Statewide Average PPR Rate**

The statewide average Actual PPR Rate for each All Patient Refined Diagnosis Related Group (APR-DRG) is calculated and represents the PPR benchmark for that APR-DRG.

#### **2. Hospital-specific Actual PPR Volume**

Each Hospital's Actual PPR Volume is the number of PPR Chains in the specified time period.

## **In-State Acute Hospitals**

### **3. Hospital-specific Expected PPR Volume**

In order to derive the Hospital-specific Expected PPR Volume, the statewide average Actual PPR Rates for each APR-DRG are applied to each Hospital's volume of At-risk Admissions by APR-DRG for the time period specified above and summed across all of the Hospital's APR-DRGs.

The Expected PPR Volume therefore reflects how a given Hospital should have performed on each APR-DRG recorded in their HDD filing.

### **4. Hospital-specific Excess PPR Volume**

The Hospital-specific Excess PPR Volume is calculated as the number of Actual PPR Chains in excess of the number of Expected PPR Chains, as calculated by the 3M PPR methodology, for a specific Hospital. For a Hospital for which the number of Actual PPR Chains is equal to or less than the number of Expected PPR Chains, there is no Excess PPR Volume.

### **5. Hospital-specific Actual PPR Rate**

Each Hospital's Actual PPR Rate is derived by dividing the number of Actual PPR Chains in the specified time period by the total number of At-risk Admissions.

### **6. Hospital-specific Expected PPR Rate**

In order to derive the Hospital-specific Expected PPR Rate, the statewide average Actual PPR Rates for each APR-DRG are applied to each Hospital's volume of At-risk Admissions by APR-DRG casemix. The Expected PPR Rate is therefore risk-adjusted and reflects how a given Hospital should have performed on each APR-DRG for the time period specified above.

### **7. Hospital-specific Actual-to-Expected PPR Ratio**

Each Hospital's Actual-to-Expected (A:E) ratio is calculated as:

$$\text{Actual PPR Rate/Expected PPR Rate}$$

## In-State Acute Hospitals

### C. Calculation of PPR Percentage Payment Reduction Per Discharge

#### 1. General Initial Calculation

Hospitals with Excess PPR Volume are subject to a PPR Percentage Payment Reduction per Discharge, applied as set forth in **Section 8.1.F**, below. This per discharge reduction is expressed as a percentage. Only Hospitals with more than 40 At-Risk Admissions are subject to a PPR Percentage Payment Reduction per Discharge, if applicable.

Each Hospital's PPR Percentage Payment Reduction per Discharge will initially be calculated as follows:

$$\frac{[(\text{Hospital-Specific Excess PPR Volume}) \times (\text{Adjustment Factor})]}{(\text{Hospital Discharge Volume})}$$

=

Hospital's Non-Improvement-Adjusted PPR Percentage Payment Reduction per Discharge

The "Adjustment Factor" for RY15 is 3 and is a multiplier intended to provide incentive for Hospitals to identify and implement methods to reduce PPRs.

The remainder of the calculation depends on whether a Hospital qualifies for an Improvement Adjustment in accordance with **Section 8.1.D** below.

#### 2. Hospitals not Qualifying for Improvement Adjustment

A Hospital with Excess PPR Volume that does not qualify for an Improvement Adjustment in accordance with **Section 8.1.D**, below, will be subject to a "PPR Percentage Payment Reduction per Discharge" equal to the amount calculated as the Hospital's Non-Improvement-Adjusted PPR Payment Reduction per Discharge under **Section 8.1.C.1** above.

#### 3. Hospitals Qualifying for Improvement Adjustment

A Hospital with Excess PPR Volume that does qualify for an Improvement Adjustment in accordance with **Section 8.1.D**, below, will be subject to a "PPR Percentage Payment Reduction per Discharge" that is calculated as follows:

$$\frac{\text{Actual to Expected PPR Ratio RY 15}}{\text{Actual to Expected PPR Ratio RY14}} \times \text{Hospital's Non-Improvement-Adjusted PPR Percentage Payment Reduction per Discharge}$$

=

Hospital's PPR Percentage Payment Reduction per Discharge

## In-State Acute Hospitals

### D. Improvement Adjustment

If a Hospital has Excess PPR Volume for RY15 but has achieved an improvement as indicated by a decrease to its Actual-to-Expected PPR Ratio in RY15 compared to RY14, EOHHS shall adjust downward the PPR Percentage Payment Reduction per Discharge that the Hospital would otherwise receive. This “Improvement Adjustment” is calculated by applying the percent decrease in the Hospital’s RY15 Actual-to-Expected PPR Ratio from RY14 to the Hospital’s Non-Improvement-Adjusted PPR Percentage Payment Reduction per Discharge. For example, if a Hospital had a RY14 Actual-to-Expected PPR Ratio of 1.30 and a RY15 Actual-to-Expected PPR Ratio of 1.17, which is a decrease of 10%, and a RY15 Non-Improvement-Adjusted PPR Percentage Payment Reduction per Discharge of 3%, its RY15 PPR Percentage Payment Reduction per Discharge would be adjusted as follows:

Hospital’s PPR Percentage Payment Reduction per Discharge =  $1.17/1.30 \times 3\% = 90\% \times 3\% = 2.7\%$  per Discharge

### E. Maximum per-Discharge Adjustment

Notwithstanding **Sections 8.1.C** and **8.1.D**, a Hospital’s PPR Percentage Payment Reduction per Discharge due to the Hospital’s Excess PPR Volume is capped at 4.4%.

### F. Application of PPR Percentage Payment Reduction per Discharge

The Hospital’s PPR Percentage Payment Reduction per Discharge is applied against the sum of the Pre-Adjusted APAD and Outlier Payment for discharges that qualify for an Outlier Payment (see **Section 5.B.2**). It is applied against the Pre-Adjusted APAD for discharges that do not qualify for an Outlier Payment (see **Section 5.B.1**). These reductions apply when calculating the Transfer per diem rate, and when capping the Transfer per diem at the Total Transfer Payment Cap under **Section 5.B.3**.

### G. Monitoring and Future Refinement of Actual PPR Volume

To assist each Hospital in monitoring and improving performance in PPRs, and to refine future determinations of Actual PPR Rates for RFA16 and beyond, EOHHS may provide each Hospital with periodic reports of its Actual PPR Volume in subsequent time periods after calculating the Hospital’s RY15 Actual PPR Volume.

In addition, each Hospital may identify within these same time periods those At-risk Admissions for which readmissions within 30 days are planned. EOHHS at its discretion will determine the means by which planned readmissions data will be collected and the methods by which such data will be incorporated into future year rate adjustments.

## In-State Acute Hospitals

### 8.2 Provider Preventable Conditions

#### A. Introduction

Under Section 2702 of the Patient Protection and Affordable Care Act (Pub. L. 111.-148) (the ACA), and corresponding federal regulations at 42 C.F.R. 447.26, Hospitals must report “provider preventable conditions” to Medicaid agencies; and Medicaid agencies are prohibited from paying Hospitals for services resulting from a “provider preventable condition” in violation of the federal requirements. EOHHS has implemented policies that conform to the federal requirements. The following provisions and payment methods governing “provider preventable conditions” apply to the Hospital, and the Hospital must comply with such provisions.

As part of the MassHealth “provider preventable condition” policy, certain of the “serious reportable events” designated by the Massachusetts Department of Public Health (DPH) pursuant to its regulations at 105 CMR 130.332, as they pertain to MassHealth members, shall be excepted from the requirement that the Hospital shall not charge or seek reimbursement for the event, as described in **Section 8.3**, below. The excepted “serious reportable events” are any “serious reportable events” designated by DPH pursuant to its regulations at 105 CMR 130.332 which are not identified in *Appendix U* of the Hospital’s Acute Inpatient Hospital and Acute Outpatient Hospital MassHealth provider manuals. The Hospital shall bill and report, and related payment adjustments shall be made for, these excepted “serious reportable events” as “provider preventable conditions” in accordance with this **Section 8.2** governing Provider Preventable Conditions. The Hospital also shall continue to perform the documented review process and determination for these events, as further described in **Section 8.2.F**, below, solely for the purposes of reporting to DPH. The remaining “serious reportable events” identified in *Appendix U* of the Hospital’s Acute Inpatient Hospital and Acute Outpatient Hospital MassHealth provider manuals shall be governed entirely by the Serious Reportable Events provisions in **Section 8.3**, below.

#### B. Definitions

The following definitions apply to this **Section 8.2**:

1. Provider Preventable Condition (PPC) -- a condition that meets the definition of a “Health Care Acquired Condition” or an “Other Provider Preventable Condition” as defined by CMS in federal regulations at 42 C.F.R. 447.26(b).
2. Health Care Acquired Conditions (HCACs) – conditions occurring in an inpatient hospital setting, which Medicare designates as hospital-acquired conditions (HACs) pursuant to Section 1886(d)(4)(D)(iv) of the Social Security Act (SSA) (as described in Section 1886(d)(4)(D)(ii) and (iv) of the SSA), with the exception of deep vein thrombosis (DVT)/pulmonary embolism (PE) as related to total knee replacement or hip replacement surgery in pediatric and obstetric patients.
3. Other Provider Preventable Condition (OPPC)—a condition that meets the requirements of an “Other Provider Preventable Condition” pursuant to 42 C.F.R. 447.26(b). OPPCs may occur in any health care setting and are divided into two sub-categories:

## In-State Acute Hospitals

- a) National Coverage Determinations (NCDs) – The NCDs are mandatory OPPCs under 42 C.F.R. 447.26(b) and consist of the following:
- A. Wrong surgical or other invasive procedure performed on a patient;
  - B. Surgical or other invasive procedure performed on the wrong body part;
  - C. Surgical or other invasive procedure performed on the wrong patient.
- For each of A. through C., above, the term “surgical or other invasive procedure” is as defined in CMS Medicare guidance on NCDs.
- b) Additional Other Provider Preventable Condition (Additional OPPCs) – Additional OPPCs are state-defined OPPCs that meet the requirements of 42 C.F.R. 447.26(b). EOHHS has designated certain conditions as Additional OPPCs.

### C. Hospital Reporting of PPCs to EOHHS

1. *Appendix V* of the Hospital’s Acute Inpatient Hospital and Acute Outpatient Hospital MassHealth provider manuals identifies those PPCs that apply to the Hospital for inpatient and outpatient hospital services and hospital-based physician services, respectively. EOHHS may also provide this information to Hospitals through provider bulletins, or other written statements of policy, and all such documentation, including without limitation *Appendix V*, may be amended from time to time.
2. Hospitals must report the occurrence of a PPC and PPC-related services through MMIS claims submissions to MassHealth. Hospital reporting of PPCs, and related claims submissions, must be conducted in accordance with applicable MassHealth regulations, provider manuals and billing instructions, including without limitation as set forth in *Appendix V* of the MassHealth Acute Inpatient Hospital and Acute Outpatient Hospital provider manual, respectively. EOHHS may also provide such instructions through provider bulletins, or other written statements of policy, and all such documentation, including without limitation, *Appendix V*, may be amended from time to time.
3. In accordance with state and federal statutes, rules, and regulations governing the MassHealth program, including but not limited to 130 CMR 415.000 *et seq.* (Acute Inpatient Hospitals); 130 CMR 410.000 *et seq.* (Acute Outpatient Hospitals) and 130 CMR 450.000, *et seq.* (administrative and billing instructions), EOHHS may request additional information from the Hospital which EOHHS deems necessary to facilitate its review of any PPC or to carry out payment, provider enrollment, quality or other routine functions of the MassHealth program, and the Hospital must comply with the request. EOHHS may use this information, as well as the reports provided pursuant to **Section 8.2.F**, in reviewing any PPC, and in applying any payment adjustment as set forth in **Section 8.2.D**, below.

## In-State Acute Hospitals

### D. Payment Adjustments to Hospitals for Provider Preventable Conditions

1. **Inpatient Hospital Services** – For inpatient hospital services, when a Hospital reports a PPC that the Hospital indicates was not present on admission, EOHHS will reduce payments to the Hospital as follows:
  - a. APAD, Outlier Payment and Transfer per diem payments. For inpatient services for which the Hospital would otherwise be paid an APAD, Outlier Payment or Transfer per diem payment:
    - i. MassHealth will not pay the APAD, Outlier Payment, or Transfer per diem payment if the Hospital reports that only PPC-related services were delivered during the inpatient admission, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
    - ii. MassHealth will pay the APAD, Outlier Payment or Transfer per diem payment, in each case as adjusted to exclude PPC-related costs/services, if the Hospital reports that non-PPC-related services were also delivered during the inpatient admission, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
  - b. Psychiatric, Rehabilitation, or Administrative Day Per Diem payments. For inpatient services for which the Hospital would otherwise be paid a psychiatric, rehabilitation or Administrative Day per diem:
    - i. MassHealth will not pay the per diem if the Hospital reports that only PPC-related services were delivered on that day, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
    - ii. MassHealth will pay the per diem if the Hospital reports that non-PPC related services were also delivered on that day, but will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
  - c. Inpatient Hospital Payments for Hospital-Based Physician Services: MassHealth will not pay for inpatient Hospital-based physician services reported as PPC-related services.
  - d. Follow-up Care in Same Hospital: If a hospital reports that it provided follow-up inpatient hospital services that were solely the result of a previous PPC (inpatient or outpatient) that occurred while the member was being cared for at a facility covered under the same hospital license, MassHealth will not pay for the reported follow-up services. If the Hospital reports that non-PPC-related services were provided during the follow-up stay, payment will be made, but adjusted in the case of APAD, Outlier Payment or Transfer per diem payments to exclude the PPC-related costs/services, and MassHealth will exclude all reported PPC-related costs/services when determining future

## **In-State Acute Hospitals**

year payment rates that are calculated using a data source that would otherwise include the PPC.

- 2. Outpatient Hospital Services** – For outpatient hospital services, when a Hospital reports that a PPC occurred during treatment at the Hospital (including its satellite clinics), MassHealth will reduce payments to the Hospital as follows:
  - a. PAPE. For outpatient services for which the Hospital would otherwise be paid the PAPE:
    - i. MassHealth will not pay the PAPE if the Hospital reports that only PPC-related services were delivered during the episode of care, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
    - ii. MassHealth will pay the PAPE if the Hospital reports that non-PPC related services were also delivered during the same episode of care, but will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
  - b. Outpatient Hospital Payments for Hospital-Based Physician Services: MassHealth will not pay for outpatient Hospital-based physician services reported as PPC-related services.
  - c. Follow-Up Care in Same Hospital: If a Hospital reports that it provided follow-up outpatient hospital services that were solely the result of a previous PPC (inpatient or outpatient) that occurred while the member was being cared for at a facility covered under the same hospital license, MassHealth will not pay for the reported follow-up services. If the hospital reports that non-PPC-related services were provided during the follow-up episode of care, payment will be made, but MassHealth will exclude all PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
- 3.** For each of subsection **D.1** and **D.2**, above, the PPC non-payment provisions also apply to third-party liability and crossover payments by MassHealth.
- 4.** Hospitals are prohibited from charging members for PPCs and PPC-related services, including without limitation co-payments or deductibles. Hospitals are also prohibited from seeking reimbursement for identified PPC-related services through the Health Safety Net (HSN) or otherwise, and from including such services in any unreimbursed cost reporting.
- 5.** In the event that individual cases are identified throughout the MassHealth PPC implementation period, EOHHS may adjust reimbursement according to the methodology above.

### **E. Additional Requirements**

The Hospital agrees to take such action as is necessary in order for EOHHS to comply with all federal and state laws, regulations, and policy guidance relating to the reporting and non-payment of provider preventable conditions, including, without limitation, Section 2702 of the ACA. In addition, should EOHHS, in its sole discretion, deem it necessary to further amend this

## **In-State Acute Hospitals**

RFA and Contract to implement any such laws, the Hospital agrees that, notwithstanding any other provision in this RFA and Contract, EOHHS may terminate the Hospital's Contract immediately upon written notice in the event the Hospital fails to agree to any such amendment.

### **F. Reporting to the Massachusetts Department of Public Health**

In addition to complying with **Sections 8.2.A** through **E**, above, for any PPC that is also a "serious reportable event (SRE)" as designated by the Massachusetts Department of Public Health (DPH) pursuant to its regulations at 105 CMR 130.332, the Hospital must also continue to report the occurrence of the PPC as an SRE to DPH, and perform the documented review process as set forth in and in accordance with DPH regulations at 105 CMR 130.332(B) and (C). The Hospital must also provide copies of such reports to EOHHS and any other responsible third-party payer and inform the patient as required by and in accordance with DPH regulations at 105 CMR 130.332(B) and (C). The copies to MassHealth must be sent to:

PPC/Serious Reportable Event Coordinator  
MassHealth  
Utilization Management Department  
100 Hancock Street, 6<sup>th</sup> Floor  
Quincy, MA 02171

Notwithstanding such reporting and documented review process as set forth in 105 CMR 130.332(B) and (C), provider claims to MassHealth and related payment methods for PPCs, including without limitation, those that also constitute a DPH-designated SRE, are governed by this **Section 8.2** and not **Section 8.3**, below.

## **8.3 Serious Reportable Events**

### **A. Applicability**

1. "Serious Reportable Events (SREs)" for purposes of this **Section 8.3** shall mean those serious reportable events (SREs) listed in *Appendix U* of the Hospital's Acute Inpatient Hospital and Acute Outpatient Hospital MassHealth provider manuals. All references to SREs in **Sections 8.3.B** through **8.3.D**, below, are subject to this **Section 8.3.A**.

From time to time, EOHHS may update the list of SREs that are subject to this **Section 8.3** through issuing provider bulletins or updates to provider manuals, or through other written statements of policy.

2. For purposes of this section, "preventable" is defined as DPH has defined the term in its regulations at 105 CMR 130.332 and means events that could have been avoided by proper adherence to applicable patient safety guidelines, best practices, and hospital policies and procedures.

### **B. Scope of Non-Reimbursable Services**

1. MassHealth's SRE policy applies to both Hospitals and Hospital-Based Physicians.

## **In-State Acute Hospitals**

2. Hospitals are prohibited from charging or seeking reimbursement from MassHealth or the member for Hospital and Hospital-Based Physician services that are made necessary by, or are provided as a result of, an SRE occurring on premises covered by the hospital's license that was preventable, within the hospital's control, and unambiguously the result of a system failure, as described in DPH regulations ("preventable SRE"). Non-reimbursable Hospital and Hospital-based physician services include:
  - a. All services provided during the inpatient admission or outpatient visit during which a preventable SRE occurred; and
  - b. All services provided during readmissions and follow-up outpatient visits as a result of a non-billable SRE provided:
    - (1) At a facility under the same license as the hospital at which a non-billable SRE occurred; or
    - (2) On the premises of a separately licensed hospital or ambulatory surgery center with common ownership or a common corporate parent of the hospital at which a non-billable SRE occurred.
  - c. Charges for services, including co-payments or deductibles, deemed non-billable to MassHealth are not billable to the member.
  - d. The non-payment provision of this RFA also applies to third-party liability and/or crossover payments by MassHealth.
  - e. A Hospital not involved in the occurrence of a preventable SRE that also does not meet the criteria in **Section 8.3.B.2.b**, and that provides inpatient or outpatient services to a patient who previously incurred an SRE, may bill MassHealth for all medically necessary Hospital and Hospital-Based Physician services provided to the patient following a preventable SRE.

### **C. Required Reporting and Preventability Determination**

1. In accordance with DPH regulations at 105 CMR 130.332(B) and (C), as may be amended, Hospitals must (i) timely report the occurrence of an SRE to DPH and provide copies of the report to required parties, as specified in such regulations, (ii) establish policies for making and documenting preventability determinations following the occurrence of an SRE, (iii) timely make preventability determinations for all SREs occurring on premises covered by the Hospital's license, and (iv) timely submit the preventability determination report to DPH ("updated SRE report"), with copies to all other required parties, as specified in such regulations.
2. A Hospital shall notify the MassHealth program of the occurrence of an SRE by mailing a copy of the report as filed with DPH pursuant to **Section 8.3.C.1** to:

Serious Reportable Event Coordinator  
MassHealth  
Utilization Management Department  
100 Hancock Street, 6<sup>th</sup> Floor  
Quincy, MA 02171

## In-State Acute Hospitals

Hospitals shall also use this address to send MassHealth a copy of the updated SRE report as submitted to DPH containing the information as specified under DPH regulations at 105 CMR 130.332.

3. No later than thirty days after the date of initial reporting of the SRE to DPH and MassHealth, if upon completing a preventability determination following the occurrence of an SRE pursuant to **Section 8.3.C.1**, above, the Hospital seeks payment for Inpatient Services or Outpatient Services to a MassHealth member, the Hospital shall submit the following required documentation to MassHealth, using the address set forth in **Section 8.3.C.2**, above, so it can review the circumstances of the SRE;
  - (1) A copy of the updated SRE report issued to DPH describing the hospital's preventability determination including, at a minimum, the following:
    - (a) Narrative description of the SRE;
    - (b) Analysis and identification of the root cause of the SRE;
    - (c) Analysis of the preventability criteria required by DPH;
    - (d) Description of any corrective measures taken by the hospital following discovery of the SRE; and
    - (e) Whether the hospital intends to charge or seek reimbursement from MassHealth for services provided at the hospital as a result of the SRE;
  - (2) Copies of the hospital policies and procedures related to SREs;
  - (3) A copy of the member's medical record for the inpatient Hospital admission or outpatient episode of care during which the SRE occurred, if the Hospital intends to charge or seek reimbursement for services provided at the Hospital during such admission or episode of care, or for follow-up care as a result of the SRE.

### D. Non-Payment for SREs

1. MassHealth will review the circumstances of the SRE and shall make a determination regarding payment based on the criteria set forth in DPH regulations at 105 CMR 130.332 and above, and utilizing **Table 8-1**, below:

**Table 8-1. MassHealth Non-Payment Methodology, Acute Hospitals**

Payment Component that includes Preventable SRE	Resulting Non-payment
Inpatient acute admission	Non-payment of APAD and Outlier Payments
Inpatient - Transfer Per Diem, Psychiatric Per Diem, Acute Rehab Per Diem, or Administrative Day Per Diem	Non-payment of all per diems associated with the inpatient stay
Outpatient Hospital Services	Non-payment of PAPE and any other outpatient services payable under the RFA
Hospital-Based Physician services	Non-payment of physician fees for care associated with the SRE

## **In-State Acute Hospitals**

2. In accordance with state and federal statutes, rules, and regulations governing the MassHealth program, including but not limited to 130 CMR 415.000 *et seq.* (Acute Inpatient Hospitals); 130 CMR 410.000 *et seq.* (Acute Outpatient Hospitals) and 130 CMR 450.000, *et seq.* (administrative and billing instructions), EOHHS may request additional information from the Hospital which EOHHS deems necessary to facilitate its review of any SRE or to carry out payment, quality or other routine functions of the MassHealth program, and the Hospital must comply with the request.
