Under the provisions of M.G.L. Ch 30A and pursuant to the authority found in M.G.L. Ch. 130 s. 17A & 21, the Division of Marine Fisheries (*Marine Fisheries*) and the Marine Fisheries Advisory Commission (MFC) have scheduled two public hearings to accept comments on emergency regulations to amend 322 CMR 6.00, as filed on April 30, 2012 and described below. The MFC will vote to adopt these regulations on a permanent basis at its June 7, 2012 business meeting.

1. V-Notch Requirements for Lobster Management Area (LMA) 2: As effective May 1, 2012, all commercial lobster permit holders authorized to fish in LMA 2 must, prior to discarding, carve a v-shaped notch in the base of a specific pelvic flipper in all legal sized egg-bearing lobsters. The v-shaped notch must be between ¼ and ½ inch in the base of the pelvic flipper immediately to the right of the center flipper as viewed from the back of the lobster.
