SALES OF ELECTRICITY BY RATE SCHEDULES

1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.
2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.
3. Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).
5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.
6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

MWh Sold (Column b) represents all energy deliveries to customers. Revenues (Column c) include delivery revenues as well as energy revenues for those customers who receive their energy supply from NSTAR Electric Company via Basic Service. Since revenues do not include the supply cost to customers of competitive energy suppliers, revenue per KWh sold (Column f) is not necessarily representative of the average customer bill.

Note: Except for the above amount, the Company does not presently hold any collateral from its customers as a guaranty for the payment of charges which is capable of valuation within the meaning of M.G.L. Chapter 164; Section 128. The Company does in certain instances accept surety bonds and/or second mortgages as guaranties of payment. The value of such collateral cannot be ascertained however, since the Company holds nothing but a commitment to make payment in the event of a customer's default up to the limit of the instruments.

EXTRACTS FROM THE GENERAL LAWS.

CHAPTER 164.

SECTION 2. In construing sections *** 74 to 83, inclusive, *** unless the context otherwise requires, the terms "corporation", "gas company" and "electric company" shall include (i) all persons, firms, associations and private corporations which own or operate works or a distributing plant for the manufacture and sale, or distribution and sale of gas for heating and illuminating purposes, or of electricity, within the commonwealth, ***

GENERAL DUTIES OF DEPARTMENT

SECTION 76. The department shall have the general supervision of all gas and electric companies and shall make all necessary examination and inquiries and keep itself informed as to the condition of the respective properties owned by such corporation and the manner in which they are conducted with reference to the safety and convenience of the public, and as to their compliance with the provisions of law and the orders, directions and requirements of the department;

FORM OF BOOKS AND ACCOUNTS PRESCRIBED.

SECTION 81. Gas and electric companies or persons engaged in the manufacture and sale or distribution of gas or electricity shall keep their books and accounts in a form to be prescribed by the department, and the accounts shall be closed annually, so that a balance sheet can be taken therefrom. Manufacturing companies in which the manufacture of gas or electricity is a minor portion of their business shall be required to keep accounts of the expenses and income of their gas or electric business only.

FORM OF STATION RECORDS PRESCRIBED.

SECTION 82. Gas and electric companies and manufacturing companies or persons engaged in the manufacture or sale of gas or electricity shall keep such records of their work at their manufacturing station, and in respect to their distributing plant, and in such form as the department may from time to time require.

FORM OF ANNUAL RETURNS PRESCRIBED.

SECTION 83. Gas and electric companies and manufacturing companies and persons engaged in the manufacture and sale or distribution and sale of gas or electricity shall annually, on or before such date as the department fixes, make to the department, in the form prescribed by it, a return for the year ending on such date as the department may from time to time require, signed and sworn to by the president or vice president, and treasurer or assistant treasurer, and a majority of the directors, of the amount of their authorized capital, their indebtedness and financial condition, on the said date, their income and expenses during the preceding year, their dividends paid and declared, a list of the names of all their salaried officers and the amount of the salary paid to each, and the balance sheet of their accounts as of said date. Such companies and persons shall at all times, upon request, furnish any information required by the department or its duly authorized employees relative to their condition, management and operation, and shall comply with all lawful orders of the department: but manufacturing companies in which the manufacture and sale of gas or electricity is a minor portion of their business shall be required to include in their annual returns the income and expenses and other data relative to their gas and electric business only.

PENALTY FOR FAILURE TO MAKE RETURN.

SECTION 84. Each such gas or electric company or manufacturing company or person neglecting to make the annual return required by the preceding section shall, for the first fifteen days or portion thereof during which such neglect continues, forfeit five dollars a day; for the second fifteen days or any portion thereof, ten dollars a day; and for each day thereafter not more than fifteen dollars a day. If any such company or person unreasonably refuses or neglects to make such return, it or he shall, in addition thereto, forfeit not more than five hundred dollars. If a return is defective or appears to be erroneous, the department shall notify the company or person to amend it within fifteen days. A company or person neglecting to amend said return within the time specified in the notice, when notified to do so, shall forfeit fifteen dollars for each day during which such neglect continues. All forfeitures incurred under this section may be recovered by an information in equity brought in the supreme judicial court by the attorney general, at the relation of the department, and when so recovered shall be paid to the commonwealth.

CHAPTER 268

PENALTIES FOR MAKING FALSE REPORT.

SECTION 6. Except as provided in sections forty-eight and forty-nine of chapter one hundred and fifty-five, whoever shall willfully make false report to the department of public utilities, the department of telecommunications and cable, the department of highways, the department of banking and insurance, the department of environmental protection, the board of registration of waste cleanup professionals, or the commissioner of revenue, or who before any such department, board or commissioner, shall testify or affirm falsely to any material fact in any matter wherein an oath or affirmation is required or authorized, or who shall make any false entry or memorandum upon any book, report, paper or statement of any company making report to any of the said departments or board or said commissioner, with intent to deceive the department or board or commissioner, or any agent appointed to examine the affairs of any such company, or to deceive the stockholders or any officer of any such company, or to injure or defraud any such company, and any persons who with like intent aids or abets another in any violation of this section shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both such fine and imprisonment.

Consistent with the Department of Public Utilities' (the "Department") directives in D.P.U. 22-22, at 472-73, and building off the prior energy burden analysis reported to the Department, NSTAR Electric Company d/b/a Eversource Energy ("Company"), developed the following Appendix, which provides an analysis (the "Analysis") based on data from the last U.S. census data, which was in 2020, coupled with actual energy information which is updated each year since. In so doing, the Company has continued to report on energy usage and billing information comparisons to household income information and geography.

In Compliance, the Analysis provides energy burden calculations based on the 2020 census block groups and the 2025 customer usage and bill information, including net metering from solar, low-income discounts, and other bill impact factors. As requested by the Department, the Company reformatted the Analysis in August 2025 to align with the format used by National Grid and submitted in response to information requests during the Department's ongoing energy burden docket, D.P.U. 24-15.

The Company also provides some observations for consideration regarding use of census data, which can be valuable for targeted marketing and outreach, but it can also be misleading to to calculate energy burden – especially over time. The Company provides the following observations with proposals for going forward:

1. From a timing perspective, data gathered through the U.S. census bureau every decade is most accurate closest to the time it was gathered, which is once every decade. The last census was in 2020, during the pandemic. The Company proposes that going forward, **the Analysis should use inflation-adjust Massachusetts median household income data provided by the Census bureau**. This will ensure column G, "Median Household Income", in the Analysis is useful and the "[column name]" in column W, "Electric Energy Burden based on Census Median Income (%)", is not misleading. As currently provided in the Analysis without inflation-adjustment, the household income median is fixed at 2020 levels while bills are current, which would result in over-stating increased energy burdens in column W every year.
2. The U.S. Census Bureau provides household income data aggregated and averaged by geography. It does not provide individual household-specific income or size, which are important in determining energy burden and assistance needs. The current Analysis uses the Department's guidance of using 4 as household size as a proxy. The Company proposes that going forward, **the Analysis should use 2.5 people in the household** as the proxy to be consistent with the actual average household size and the guidance the Department has provided in the Order directing utilities to determine the tiered discounts needed to achieve target energy burdens.

3. While census data provides valuable information for targeted marketing and outreach, it does not measure gaps in household eligibility for the low-income discount rate ("LIDR"). The Company proposes that the next Analysis **shift focus and use the *verified* Massachusetts state EOHHLC information as the basis versus 2020 census data**. Massachusetts state EOHHLC program recipients have been verified based on their household income and size to be at or below 60% the state median income. While state-utility data-matching intends to capture all eligible program recipients and automatically enroll them in the discount rates, data-matching isn't perfect and there are likely opportunities to improve. This area hasn't been analyzed in a few decades and will likely provide opportunities to automatically identify and enroll additional households in the discount rate without them needing to take additional actions. This will be a significant effort and should likely launch after the new Tiered discount rates are implemented on November 1, 2026, to ensure resources are first focused on that important effort.

For consistency with those responses, the Company has maintained this updated format for this Analysis, as shown in Appendix (a) for Total Residential, Appendix (b) for General Residential, and Appendix (c) for Low Income Residential. For 2025, the Analysis also features inputs additional data elements available for the first time, such as:

- Environmental Justice Population Criteria
- Geographic Area Name
- Municipality/City Average annual electric usage per customer (KWH)
- Average annual billed dollars per customer ($)
- R1-R4 household bill calculation averages, use per customer (KWH), and annual dollars per customer.

Pursuant to the Department of Public Utilities' (the "Department") directives in D.P.U. 22-22, at 472-73, NSTAR Electric Company d/b/a Eversource Energy (the "Company") hereby submits a supplement to its 2025 Household Economic Burden Index Analysis.

Following submission of the Company's 2025 filing, the Company identified that data associated with its Western Massachusetts ("WMA") service territory had been inadvertently omitted. To ensure that the filing fully reflects all Massachusetts electric service territories served by the Company, the attached supplement incorporates the previously omitted WMA information.

The attached revised analysis completes the energy burden assessment, including the WMA territory data. Apart from this revision, the methodology, assumptions, data sources, and analytical approach remain unchanged from those set forth in the Company's original 2025 filing and prior submissions made pursuant to D.P.U. 22-22.

Accordingly, the Company respectfully submits the attached revised Household Economic Burden Index Analysis for the Department's information and consideration.
