

## Occupations Associated with Occupation Categories

This report lists occupations that are associated with occupation categories (description of the 1st 2 digits of an occupation code). The report is grouped by the Occupation Category Code/Description and then by the full Occupation Description. This report can be used to find occupations that fall under an occupation category and may be helpful when running the Recently Separated Claimants Past 90 Days report, since this report prompts the user for occupation categories. Tip: You can filter the report (with up to 5 search strings) to find occupations to see the category they fall under or ignore the search paramter to view all occupations. You can also search once the report is run; click the *binocular* icon on the tool bar (or the ctrl+f keys and type in a word), ex. 'Nurs' this string of letters will find any occupations that contain this string, i.e. Nurse or Nursing, etc.
